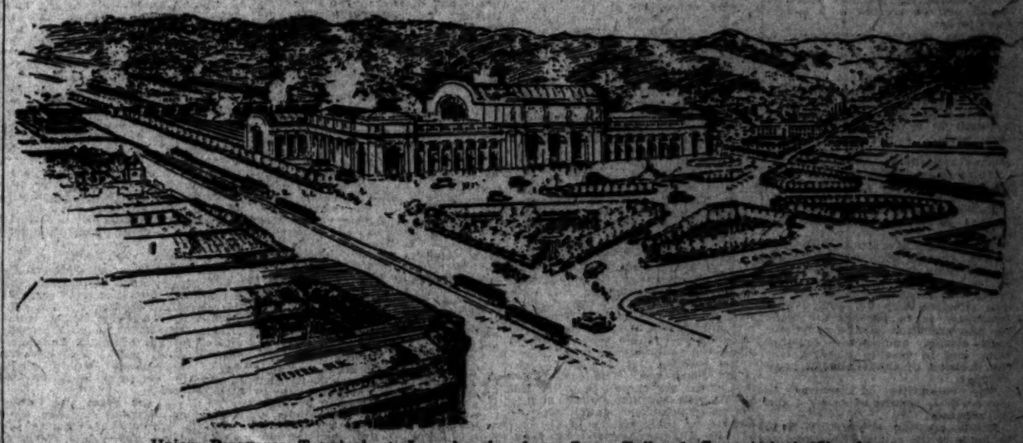
NESDAY MORNING, VOL. XL. APRIL 27, 1921.

PLAZA GETS UNION TERMINAL

RAILROAD COMMISSION ORDERS ROADS TO ERECT PASSENGER STATION ON NORTH END SITE



Union Passenger Terminal at Los Angeles from State Railroad Commission's Sketch.
This perspective by the engineering department of the commission is adapted to the Plaza site, with Aliso street shown extended to Main street and the Federal Building in the foreground.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, April 26.—The Railroad Commission today ordered the Southern Pacific, Santa Fe San Pedro, Los Angeles and Salt Lake Railroad companies and the Pacific Electric Railway at Los Angeles to proceed with the construction of a union passenger station on the Plaza site. It defined this site as "that portion of the city of Los Angeles bounded by Commercial street, North Main street, Redondo street, Alhambra avenue, and the Los Angeles River." Construction of the station is the first step in a comprehensive plan of transportation development in Los Angeles, embracing the gradual elimination of all the important grade crossings in the city. Plans for the union depot must be filed within six months, and a committee must be selected within thirty days, the commission ordered.

With reference to freight traffic, the commission ruled that future permits for industrial tracks longitudinally in streets should be withheld by the city authorities and that such tracks now in the streets should be confined to industrial use and should be removed as soon as access to the industry served can otherwise be obtained.

GRADE CROSSINGS OFF ALAMEDA, MACY, SEVENTH AND ALISO STREETS.

The commission said that the work included in their plan of development could be completed in five years. The first step, the commission says, provides through the construction of the union passenger depot in the Plaza for the elimination of grade crossing dangers on Alameda street, by taking all main line traffic off Alameda street. Separation of grades by the construction of viaducts on Macy, Aliso and Seventh streets is ordered by the commission, which directs that there be filed with the commission within sixty days, plans covering the grade changes. Supervision and direction of the construction of the Union Depot is to be done by a committee of two men appointed by the city and two by each of the roads, they in turn to select a disinterested party to serve as chairman. This committee must be selected within thirty days. In the event they are unable to agree upon a chairman he will be selected by the Railroad Commission.

With reference to the Pacific Electric interurban and local service, the commission made no definite findings, holding that they should be held in abeyance as the Pacific Electric is a party to the terminal proceedings until the investigation now being made by the commission into Pacific Electric Company affairs is completed. The commission said that the Pacific Electric's most urgent service and traffic problems dealing with the Hill street and Hollywood situation are not affected by the present proceeding, and nothing contained in same will prevent or need delay a partial or complete solution of these difficulties. Both the Pacific Electric and the Los Angeles Railway, said the commission, will have to make provision for adequate local street railway service to and from the union passenger depot.

Concluding its reference to the union passenger depot, the commission said that, in selecting the Plaza site, it "assumes that the city will carry out its repeatedly announced intention to further in every possible way the consummation of the general plan, which by resolution the city authorities have so

FRANCE REJECTS GERMANS' OFFER

To Inform Hughes It's Unsuitable

[EXCLUSIVE DISPATCH.]

PARIS, April 26.—Secretary Hughes today gave the French government an opportunity to express its opinion after the German note offered a suitable basis for reparations negotiations.

Full instructions went forthwith to Ambassador Jusserand to act in the negative.

The world and American interests, unless America undertook further offers from Berlin.

NO OCCUPATION CERTAIN.

[By Radio Courtesy.]

[EXCLUSIVE DISPATCH.]

PARIS, April 24.—Premier Briand announced after the meeting of the council of ministers this evening that the French occupation of the Ruhr Valley was inevitable. He is aware of the full text of the German proposals and is reported that they cannot be accepted.

In a general speech in the chamber of deputies Premier Briand expressed his belief that the United States understood the situation and would do nothing without finding out first that it is agreeable to the French. At this point the Premier spoke the text of the German offer had appeared in certain newspapers here.

VOTE OF CONFIDENCE.

The Chamber of Deputies immediately voted confidence in the government by 424 to 29, evidently with the understanding that the Premier's statement that the German offer could not be refused.

Briand went to the Senate and spoke again setting forth the views of the ministry. Raymond Poincaré, France's principal apostle of inaction, ostentatiously left the chamber prior to the Premier's reply. Briand spoke in both houses to a hostile atmosphere with all the world aware that the nation was on the eve of grave events that might plunge Germany beneath the power of the Allies forever and carry France to the pinnacle of power. When he asked this evening what France would do if one of the Allied governments opposed the making of peace terms to Germany, Briand replied that they can go ahead with their counter-proposals while France will carry out my military operations. He added my military action is limited to their counter-proposals.

SECRETS COMMUNICATION.

The American transmission of the German offer, it is understood from French government is explained in a semiofficial communication from Washington asking the Paris

GET READY TO FIGHT.

Pershing's Job is to Build Up.

Filling Out Reserve Force to be One of the First Works of General.

To Make One of Army, Guard and Veteran Organizations to Meet Emergency.

[EXCLUSIVE DISPATCH.]

WASHINGTON, April 26.—Secretary of War Weeks is framing the final instructions concerning the method of the new work assigned Gen. Pershing; that of preparedness. Gen. Pershing will take hold of his job willingly and with a feeling that it is one entirely in keeping with his position as ranking officer of the American Army. There will be no conflict of authority between the general and the major-general who is to become the Chief of Staff.

Gen. Pershing will take the reserve forces of the United States as they are, increase their numbers to the greatest extent possible, do what he can to bring the National Guard up to full enlistment strength, and seek to bring about good feeling between the reserves, the National Guard and the Regular Army, with a view to making them one in spirit, in service and perhaps one day in determination quickly to become one soldier organization.

WEEKS ANXIOUS.

Secretary Weeks apparently wants to do as much in the way of preparedness as he can do with the means at his command. It is possible that the Regular Army under pending legislation will be given 10,000 more troops than the House first authorized. If this is done it will be done under the insistence of the Secretary of War, who followed a high example once set by Theodore Roosevelt when he was President.

Roosevelt heard that Congress was not going to appropriate money for any battleships, so he promptly asked for four battleships. Congress was willing to compromise and gave him two, which were all that Roosevelt wanted.

Secretary of War Weeks asked for 175,000 soldiers. The House had said that 150,000 men were enough. It looks now as if the members were willing to split the difference and compromise on a basis of about 167,000 men.

DEPENDS ON VETERANS.

It is pretty definitely known now that Congress will do nothing in the way of preparation for the military training of the youth of the country. It is depending on the men

BUILDING IS NEAR END.

Chicago May Day to be Quiet.

Unions Refuse Pay Cut and Contractors Decide to Stop All Work.

Building Trades Council is "Passing the Buck" to the Rank and File.

[EXCLUSIVE DISPATCH.]

CHICAGO, April 26.—May Day, officially observed next Monday by Chicago's building trades, will be a day of rest. There will be no blast of whistles announcing the opening of a day's work. The little building being done in Chicago will come to a standstill unless the unexpected happens and an agreement is reached between the contractors and union labor.

Bulletins today were sent out to 1500 contractors by the two associations—the Associated Builders and the Building Construction Employers' Association — requesting each member to comply with adopted resolutions calling for the suspension of work after the men lay down their tools Saturday afternoon.

"PASSING THE BUCK."

Meanwhile the building trades council has stepped out of the controversy and has "passed the buck" to the individual trade unions, telling them to carry on negotiations through the joint arbitration boards of the various trades in an effort to deal independently of the two big associations by making agreements with the separate contractors' associations.

That the conflict between the building trades and the contractors is attracting nation-wide attention is seen in the appearance yesterday

LATE NEWS.

LANE ATTENDS CLINIC

ROCHESTER (Minn.) April 26. Former Secretary of the Interior Franklin K. Lane is here attending the Mayo Clinic. When here last fall Mr. Lane was advised to rest up for the winter and return for further treatment.

WOMEN LOSE ELECTION

MULLAN (Idaho) April 26.—At the municipal elections an all-women's ticket lost out to a ticket on which all candidates were men. The women charged that the present men's government was lax in enforcing gambling and liquor laws.

REDS SEIZE FIUME

FIUME, April 26. — Riccardo Zanella, leader of the Fiuman People's party and head of the Communistic faction, in today's elections, by a coup d'etat, occupied the City Hall. Count Caccia-Dominione, the Italian Minister, left Fiume today aboard a torpedo-boat destroyer owing to the rioting. The frontier has been closed by infantry.

GIRL DIES OF INJURIES

Funeral services will be held tomorrow at 2 p.m. from the parlors of Overholtzer Sons Company for Miss Edith Freeman, a young stenographer, who died at the Pacific Hospital late Monday afternoon from injuries received in an automobile accident on the 13th inst. Miss Freeman was struck by an automobile driven by F. E. Hickman of 286 Seventh street, San Pedro, as she was crossing Wilshire Boulevard at Van Ness avenue. According to the report to Detective Sergeant King, who investigated, the accident was unavoidable. Miss Freeman's home was at 686 South Bronson avenue.

Scientists Hear of Old Sol Stove from Dr. Abbot.

[BY A. P. NIGHT WIRE.]

WASHINGTON, April 26.—Advantages of the Old Sol cook stove, operated twenty-four hours a day on sun heat alone, were explained to the National Academy of Sciences here today by Dr. C. G. Abbot of the Smithsonian Institution. The device was as yet a luxury, he admitted, but added that Mrs. Abbot had done everything but fry on the solar cook stove at Mt. Wilson, Cal. He displayed a can of beans, saying they were solar cook stove canned, looked good and tasted better.

The apparatus, Dr. Abbot said, was a concave, parabolic, cylindric reflector through which ran a tube of ordinary cylinder oil to absorb heat from the reflector and apply it to the cooking compartment, insulation retaining heat in the oil overnight. Cooking temperatures were automatically regulated by a "dead device," he said, while a simple clock-work mechanism kept the reflectors pointed to the sun.

BERLIN MUST RAISE ANTE.

Believed Proposals Received in Washington Will Not Satisfy Allies.

BY ARTHUR SEARS HENNING.

[EXCLUSIVE DISPATCH.]

WASHINGTON, April 26.—Far greater concessions by Germany to the demands of the Allies must be forthcoming before a reopening of the reparations negotiations will be possible, according to the indications here tonight. After a day of conferences between Secretary of State Hughes and the Allied ambassadors on the new German proposals the situation appeared unfavorable to the transmission of the Berlin note to the Allies by the United States as a basis of discussion.

The ambassadors of the Allied powers pointed out to Secretary Hughes various major features of the German proposals that are wholly unacceptable. The Berlin note has been in the possession of the chancelleries in the Allied capitals since yesterday and the British, French, Italian and Belgian ambassadors were receiving today the instructions of their governments as to the attitude to be assumed in discussing the matter with Secretary Hughes.

Whether the Allied envoys were a unit in rejecting the German counter-proposition and notified Hughes of the unwillingness of their governments to receive the proposals formally is not clear, but there is every indication that Hughes will know definitely by tomorrow the final decision of the governments concerned.

The German note, which was received in Washington late last night, was submitted by Secretary Hughes to the meeting of the President and his Cabinet this forenoon. There ensued an extended discussion in which the Berlin counter-proposals were analyzed and weighed. It does not appear that the Cabinet pronounced the note a "proper basis of discussion" though there was a general disposition to regard the proposals worthy of informal submission to the Allies for their opinions thereon.

It was noted that the principal concession by Germany is to name a total reparations amount considerably higher than ever before. The principal sum Germany says it is willing to pay is approximately $12,500,000,000. The Allies have fixed the principal sum at $21,000,000,000. With interest added the to-

STORMS RAGE IN SOUTH.

Tornado Reported to Have Killed Several in Mississippi; Rains Torrential.

[BY A. P. NIGHT WIRE.]

JACKSON (Miss.) April 26.—More than a dozen persons are reported to have been killed and a score injured in a tornado this afternoon at Braxton, eighteen miles from here. Every business house in the place was destroyed and many of the residences either totally or partly wrecked. The loss is estimated at more than $100,000.

Among the dead are Dr. J. H. Chandler, T. M. Everett, president of the Bank of Braxton, and M. T. Kelly and Mr. Killball, farmers.

The wind lasted only a few minutes and was followed by a heavy rain, which has swollen the streams in the vicinity out of their banks and is threatening crops.

HATTIESBURG REPORT.

[BY A. P. NIGHT WIRE.]

HATTIESBURG, April 26.—A tornado hit the town of Braxton this afternoon and demolished every business house except the bank. There was no wire connection between here and Braxton tonight, but reports from Mendenhall, the county seat of Simpson county, in which Braxton is situated, said eight persons had been killed and a number injured.

Braxton is a town of about six hundred inhabitants on the Gulf and Ship Island Railroad, thirty miles from Jackson.

TEXARKANA FLOODED.

[BY A. P. NIGHT WIRE.]

TEXARKANA (Ark.) April 26.—Torrential rains last night and early today flooded 2000 acres of land around Texarkana, did property damage estimated at more than $100,000, and put the city pumping station out of commission, with the result that Texarkana is without fire protection or water.

Two negroes are reported to have drowned and many families in the eastern section of Texarkana are marooned in the upper stories of their homes. Rescue parties are working in boats to bring those marooned to safety.

Several houses were carried away, and the Missouri Pacific bridge and six wagon bridges were washed out. Streets in the business section are

TERMS OF BERLIN PLAN.

...ions Believes Scheme Sent Harding Will Satisfy Allies.

[BY CABLE AND ASSOCIATED PRESS.]

BERLIN, April 26.—The German people now know the new proposals the German government submits to the Allied Powers through the ...ent of the United States. The terms of the proposals were made public as well as the accompanying assurances forwarded to President ...

declaring that the ... welfare of the world are ... upon a speedy and just ... the reparations question, ... President that it will do ... in its power to enable ... government to direct ... of the Allied govern- ... to the matter.

... outlined, Germany ... to pay the Allies an in- ... pending over a number of ... will amount to 200,- ... gold marks, equivalent ... 125,000,000,000; she will ... to her utmost in the re- ... of devastated regions; ... immediately at the ... reparations commis- ... 50,000,000 gold marks; she ... to assume the Allied ob- ... in the United States and ... an international loan, ... of which will go to the ... in return she makes the ... that the present system ... shall be discontinued im-

mediately, that she be given freedom of trade and that she be freed from "all unproductive outlays" now imposed upon her.

The new step had been taken by Germany, the Foreign Minister explained, not from fear of new penalties, but owing entirely to the false views entertained abroad regarding the reparations question. President Harding was appealed to on the principle of justice, and the American answer was awaited at any moment.

The text of the note forwarded by Germany to the United States for transmission to the Allies concludes with the following points:

"(1.) Germany fixes her total liability at 50,000,000,000 gold marks payable in suitable annuities to total 200,000,000,000 gold marks.

"(2.) Germany will immediately issue an international loan in which she will participate, and of which the value, rate of interest and scale

(Continued on Second Page.)

MRS. STOKES HITS BACK.

Husband's Charges Refuted and Chicago List of Names is Explained.

[EXCLUSIVE DISPATCH.]

NEW YORK, April 26.—Names of Chicago men and women were read into the Stokes divorce case today, but efforts to definitely link them with the name of Mrs. Helen Elwood Stokes failed. Near the close of Mrs. Stokes's testimony, refuting her rich and aged husband's charges of misconduct, the list was presented.

The list includes Helen Harris, Helen Miller or Helen Wood, Benjamin F. Harrison, "Joe" Jordan, Lawrence Chenault and Charles Parker.

Mrs. Stokes denied ever knowing them or having lived in Chicago. They are connected with alleged efforts of her husband, W. E. D. Stokes, to obtain information about her through a Chicago detective agency.

Identity of the tall, dark man, fourth and otherwise unnamed correspondent of Stokes, was disclosed by Mrs. Stokes. He was Elliott Brown, room-mate at Yale of Victor Miller, Mrs. Stokes's half brother, who was an occasional visitor to the Stokes home. When Brown remained overnight he shared the room of "Weddie" Stokes, son of Stokes, said Mrs. Stokes.

She denied going to Brown's room at 2 a.m., as charged by a maid.

This concluded her testimony in denial of the charges of her husband, and Mrs. Stokes launched, under questioning of her attorneys,

(Continued on Second Page.)

Yankee Flyer Escapes from Camp of Reds.

[BY CABLE AND ASSOCIATED PRESS.]

RIGA, April 26.—Capt. Marion C. Cooper of Jacksonville, Fla., the Kosciusko squadron flyer who was shot down on the Polish front and captured by the Russians last July, escaped from a prison camp near Moscow on April 12 and arrived in Riga today. He was accompanied here by two Polish officers.

The American aviator, while serving with the Poles in their operations last summer against the Bolsheviki, disappeared behind the soviet lines in Galicia on July 13.

Capt. Cooper had made an earlier attempt at escape, and after being free for several days was recaptured. He was considered not a Polish, but an American prisoner. He was in several prison camps, and worked last winter shoveling snow on the railways.

ROADS WILL FIGHT ORDER.

Officials Deny Jurisdiction of Rail Board in Plaza Terminal Case.

Officials of the four railroads affected by the State Railroad Commission's Plaza terminal order were a unit last night in expressing the belief that the order will be opposed on the ground that the commission lacks jurisdiction and that the decision will be fought to the United States Supreme Court. Few of them would be quoted, however, in advance of receipt of official copies of the order.

Henry Z. Osborne, Jr., chief engineer of the Board of Public Utilities, said last night that a court fight on the Railroad Commission's Plaza terminal may be expected, but he thought that the decision will ultimately triumph. "A definite decision in the union terminal matter was highly desirable just at this time," said he. "Whether or not it is built during the next five years, it fixes the location, and that will afford us an opportunity to go ahead with grade-crossing elimination on the basis of knowing just what to do.

"I have been heartily in sympathy with the Plaza site. Placing the union station there forms a basis for the future development of the entire city. The plan will link up nicely with the idea of having all transportation lines in Southern California operated with hydro-electric power from the Colorado River."

DENIES JURISDICTION.

Speaking as Attorney for the Pacific Electric Railway, and representing the Southern Pacific in the union

(Continued on Second Page.)

Mrs. Bergdoll is Refused New Trial by Court.

[BY A. P. NIGHT WIRE.]

PHILADELPHIA, April 26.—New trials were refused today to Mrs. Emma C. Bergdoll, Charles Braun, her son, James E. Romig, Harry S. Schuh and Albert S. Mitchell, found guilty last September of a conspiracy to assist Grover C. Bergdoll and Erwin Bergdoll to desert from the United States Army in time of war.

The decision was announced by Judge Dickinson of the United States District Court. Sentence will be imposed on the five defendants by Judge Dickinson on a date to be selected by U. S. Dist.-Atty. McAvoy, who prosecuted them. May 6 probably will be the day chosen, it was said.

Thirty-Million-Dollar Depot Plans Must Be Ready in Six Months.

COUNTER PROPOSALS OF RAILROADS REJECTED.

Here is Text of Commission's Plaza Terminal Order; Division of Cost Left for Later Consideration.

[EXCLUSIVE DISPATCH.]

SAN FRANCISCO, April 26.—The order to the railroads to construct a union passenger terminal in the Los Angeles Plaza district and to eliminate grade crossings at Macy, Aliso and Seventh street, issued by the Railroad Commission late this afternoon, decides the Los Angeles grade crossing and union terminal case which has been pending since 1917 and in a general way sustains the plans for a union station, both as to location and construction, which were reported by the commission's engineers in November, 1918, and which have since been subject to many hearings and numberless conferences between all the parties interested.

The order requires the four railroads—the Southern Pacific, Santa Fe, Salt Lake and Pacific Electric systems—to join in the station construction and also indicates what grade separation is to be made by each, except the Pacific Electric, which will be treated in a subsequent order.

ROAD PLANS REJECTED.

The proposals for a union passenger terminal at either the First-street station of the Santa Fe or the Fifth-street station of the Southern Pacific are rejected and the commission orders the new terminal to be built in a district bounded by Commercial street, North Main street, Redondo street, Alhambra avenue and the Los Angeles River. Nothing more definite is fixed except that the cost of construction is to be borne by the four roads.

No attempt is made at this time by the commission to divide this cost.

The decision provides that the city of Los Angeles may be represented on the joint engineering committee to be named by the roads within thirty days from the date of the order, effective May 26, 1921. This committee is to prepare all plans for the execution of the order for both station and grade crossing work and in case of disagreement the decision of the chairman shall be final.

The committee is required to make weekly reports of its work and its expenses.

Grade crossing elimination is to be made at the railroad crossings on both sides of the Los Angeles River at Macy, Aliso and Seventh streets without delay. Other separation will follow.

The opinion accompanying the order of the commission is long and recites the history of the proceeding and reviews the many complicated matters that have been undergoing investigation for over three years.

In the opinion is a table showing that the commission engineers computed the construction cost of all the work at $25,000,000 and the railroad engineers at $45,000,000, but this table is included only to identify the construction items and general scope regarded as necessary and not as a finding of cost.

TEXT OF FINDINGS.

In its report, the commission says:

"We reach the conclusion from a careful consideration of all the evidence before us that the establishment of a union passenger depot is feasible and desirable, and is necessary in Los Angeles and we are satisfied that the so-called Plaza location is superior to other possible locations and that the union passenger station should be located at that site. We come to that conclusion without subscribing on all points to the conclusions reached by our engineers in the commission's exhibit No. 1 and in the testimony given by witnesses on that point, and without agreeing entirely with all the reasons given by the engineering conference when they, in part, indorsed the report of the commission's engineers or with the report of the Mayor's and City Council's Advisory Committee.

"The opposition on the part of the Southern Pacific, Salt Lake and Pacific Electric railroads to the Plaza site, apart from the question of cost, is readily understood. The representatives of these roads have frankly admitted that they are in opposition to any plan that will interfere with the consummation of their own proposal, which provides for a partial union passenger terminal on the present Southern Pacific depot site. It is to be noted, however, that even these railroads are not opposed to terminal unification per se, rather are they in favor of it. They do not desire, however, to depart from their own plans and hold their individual and immediate interests paramount.

PUBLIC NECESSITY.

"The commission finds as a fact that public necessity and convenience demand a unification of passenger terminal facilities in Los Angeles and an order will be made requiring the interested carriers to prepare, within a reasonable time, detailed plans and estimates for an adequate union passenger station at the so-called Plaza site. The exact location of the site cannot be prescribed at this time except to the extent that the union passenger station shall be located by the territory in the city of Los Angeles bounded by Commercial street, North Main street, Redondo street, Alhambra avenue and the Los Angeles River.

"We are not prepared at this time to make a finding as to the minimum amount of expenditure that should be estimated and provided for in the construction of such a station, and are of the opinion that this matter should be left for subsequent decision. Neither do we believe it wise or necessary to insist that the plans for such a station, with its necessary facilities, should follow exactly and in detail the plans set forth in the commission exhibit No. 1. As a result of the engineering conference, and of the last hearings before the commission, some important and some minor changes were made, or agreed to, in the plans of the cost suggested by our engineers and it is certain that other modifications and changes will develop with further study. We are also satisfied that a plan can be made that will overcome the difficulties suggested during the last hearings by the railroads and by the representative of the Business Men's Association. The Los Angeles city authorities must, of necessity, have an important part in the design of any definite plan and a modification of the plan in the commissions exhibit No. 1 may have to come about if it should definitely develop that the city is unwilling to vacate the necessary portions of streets and the Plaza.

CITY'S PART IN IT.

"The commission, in reaching its conclusion that the union passenger depot should be located at the Plaza site, assumes that the city will carry out its repeatedly-announced intention to further in every possible way the consummation of the general plan, which, by resolution, the city authorities have so strongly urged the commission to promulgate in this proceeding.

"It remains to provide for suitable machinery and procedure to accomplish the end sought. As an initial step it will be necessary for the interested carriers to submit for the approval of the commission detailed plans and estimates of the proposed union passenger terminal. The plans and estimates made by the carriers should be concurred in, or suggestion for modifications should be made, by the city. The commission will not desire to approve or modify a plan until the plan fulfills as nearly as may be the joint and combined needs and desires of the interested parties. In view of the wide divergence on this subject, by the carriers themselves on the one hand and between the carriers and the city on the other hand, it is not reasonable to expect that an agreement will be reached on a plan or design if the matter is left to the individual action of these parties."

On the question of cost of the improvements the commission says:

"The commission is aware that such important questions as a division of cost of the proposed union terminal, the method of its financing and construction, provision for its operation and other important legal, financial and operating matters must have careful consideration and that conclusions must be reached on such questions. It would serve no purpose, however, in our opinion, to deal with these matters at this time, and they will be left for further decision after plans and estimates have been submitted and approved."

The general definition of what the companies are to do are thus stated by the commission in its order:

HERE ARE ORDERS.

"(a) Relating to grade crossings elimination: There shall be filed within sixty days from the date of this order a general plan or plans providing for grade separations at Macy, Aliso and Seventh streets, in conformity with the specifications contained in the preceding opinion, also, profile or profiles, and detail drawings of each viaduct provided herein, together with estimate of cost of construction for each viaduct and for incidental expenditures and for damages; such plans, profile, drawings and estimates to be prepared as hereinafter provided for.

"(b) Relating to a union passenger station: There shall be filed within six months from the date of this order a general plan, or plans, with the necessary profile, profiles, and general and detail drawings of a union passenger station located at the Plaza site, as described in the preceding opinion and findings of fact, together with all necessary facilities and changes in existing facilities, also, estimates of cost of construction of the union passenger depot together with its necessary facilities and changes in existing facilities, and estimates of damage and of salvage; also, description and plans of the necessary temporary operating arrangements during the period of the transition pending the completion of new union passenger terminal facilities. All plans, profiles, drawings and estimates shall be prepared as hereinafter provided for."

PUBLISH TERMS OF BERLIN PLAN

(Continued from First Page.)

of redemption shall be subject to agreement, the proceeds of the loan to be put at the disposal of the Allies.

PAY BY CAPACITY.

"(3.) Germany will pay, according to her capacity, in labor, interest and redemption, the total sum to be paid which is not covered by the international loan; she considers in this connection that it will be possible to pay only 4 per cent annual interest.

"(4.) Germany is disposed to permit the Allies to share in an improvement in her financial and economic situation. The redemption of the remaining sums will have to take therefore a variable form, depending upon an improvement. It would be necessary to draw up a scheme to be based on an index to be used should the situation become worse.

"(5.) In order to clear herself as quickly as possible of the balance, Germany is willing to cooperate with all her strength in the reconstruction of the devastated regions; she regards reconstruction as the most urgent basis of reparations and the most effective remedy for mitigating the hardships of the war and the hatred between peoples. She will reconstruct towns, villages and townships designated or co-operate by supplying labor and material, or in any other way agreeable to the Allies.

"(6.) With the same object in view Germany is disposed to pay in kind to states which were victims of the war in addition to reconstruction, according to a scheme as far as possible purely commercial.

PROOF OF FAITH.

"(7.) In order to give undeniable proof of her good faith, Germany is prepared immediately to place at the disposal of the Reparations Commission 1,000,000,000 marks, comprising 150,000,000 in gold and silver, in foreign exchange and 850,000,000 gold in treasury notes, redeemable within three months in foreign exchange or foreign securities.

"(8.) In the event the United States and the Allies so desire, Germany is willing, according to the extent of her ability and capacity, to assume the Allied obligations to the United States.

"(9.) Germany proposes to negotiate, with the assistance of experts, as to the way in which German deliveries for reparations will be reckoned, as against the total of Germany's debt, particularly respecting the way in which the price value will be fixed.

"(10.) As security for the credits accorded her, Germany is willing to pledge public revenues and properties, [illegible] to be determined between the contracting parties.

"(11.) With the acceptance of these proposals, Germany's other reparations and obligations will be annulled and all German private property in foreign countries will be released.

"(12.) Germany declares the present proposals only capable of being carried out if the system of penalties is discontinued forthwith and she is freed from all unproductive outlays now imposed on her and that she be given freedom of trade.

SUBMITTED TO EXPERTS.

"In the event of differences of opinion arising from an examination of the proposals, the German government recommends that they be submitted for examination to a commission of recognized experts acceptable to all the interested governments. She declares herself ready in advance to accept as binding any decision reached by this commission.

"Should any other form of proposals in the view of the American government facilitate further negotiation of the question, the German government would ask to have its attention drawn to any points in which alteration is, in the opinion of the American government, desirable. The German government would also welcome other proposals from the American government."

Finally, the note says:

"The German government is to deeply convinced of the fact that the peace and welfare of the world are dependent upon a speedy, just and fair solution of the reparations question not to do everything within its power in order to enable the American government to direct the attention of the Allied governments to the matter."

SPEAKER OF THE HOUSE IS OUSTED.

Pennsylvania Legislature in Worst Tangle in its History at Present Time.

[BY A. P. NIGHT WIRE.]

HARRISBURG (Pa.) April 26.—The lower house of the Pennsylvania Legislature was today in one of the worst tangles in its history. The office of Speaker of the House was declared vacant and Samuel A. Whitaker was declared elected as the new Speaker, ousting Robert S. Spangler of York county.

At 11 a.m. today Spangler appeared and was thrust back by sergeants-at-arms when he attempted to ascend the rostrum. He demanded his rights and was permitted to speak as a matter of personal privilege. He charged attempts had been made from the other end of the Capitol to bulldoze him.

The trouble started last night after Speaker Spangler had adjourned the session, while State administration leaders were making efforts to have certain bills reported from committees.

Supporters of the bills then declared a reorganization of the House.

ROADS LIKELY TO TRY FIGHT.

(Continued from First Page.)

terminal controversy, Frank Karr said last night:

"In my opinion the State Railroad Commission has no jurisdiction in the matter. I can't outline the course which may be taken by the Pacific Electric and Southern Pacific until I see the official order, but I should like to know at once who's going to pay the bill. If such a terminal should be built but it would first require the condemnation of immense properties now in use, and a big temporary terminal of some sort would have to be provided to take the place of the ones now in use while the tracks are being torn up and the new terminal constructed."

FROM BLANCHARD

"All things come to him who waits," was the way F. W. Blanchrad expressed himself when he heard of the Commission's ruling. Mr. Blanchard was one of the first and last campaigners for a union passenger terminal here.

Years ago he was made Chairman of a Chamber of Commerce committee which was instructed to bring about a unionization of passenger facilities here. Serving with him were Arthur Letts, Robert Marsh, and Rob Rowan (now dead). This committee made every effort to accomplish the desired result and failed. The Southern Pacific built the new Arcade station soon afterward.

Since then Mr. Blanchard has represented the Business Men's Co-Operative Association and the Central Development Association in the union terminal controversy. As head of the latter he carried the jurisdiction controversy to the State Supreme Court to determine whether or not the Commission had authority to act in grade crossing elimination.

Last night he was highly elated over the decision of the Commission and expressed the hope that the terminal will be created without unreasonable delay.

STORMS RAGING THROUGH SOUTH

(Continued from First Page.)

covered with water from several inches to several feet.

HEAVY STORM DAMAGE.

[BY A. P. NIGHT WIRE.]

PINE BULFF (Ark.) April 26.—Heavy damage was done by a tornado fifty miles southeast of here today. Several farm houses near Dumas were destroyed, and a church at Gould was demolished.

The storm started near Dumas and swept a path several hundred yards wide for fifteen miles in a northwesterly direction.

Several reports of deaths and injured could not be verified.

IOWA IS ATTACKED.

[BY A. P. NIGHT WIRE.]

MUSCATINE (Iowa) April 26.—The tornado which struck Southeastern Iowa late yesterday extended over a wide territory, according to reports today.

West Liberty, Columbus Junction, Atalissa and Nichols reported damage to buildings. No fatalities are reported.

RAIN IN TEXAS.

[BY A. P. NIGHT WIRE.]

DALLAS (Tex.) April 26.—Floods following heavy rains were reported today in sections of East Texas, suspending some railway traffic and possibly damaging farms, truck and fruit lands.

Texas and Pacific locomotives, marooned in the roundhouse at Marshall, were dragged out with cables.

HOMES THREATENED.

[BY A. P. NIGHT WIRE.]

MILWAUKEE, April 26.—Floods threatened several parts of Milwaukee today and residents of the south shore faced the loss of their homes through continued crumbling of the shore as the result of rains the last twenty-four hours and the weather forecaster's predicting of continued downpours today and tonight.

MRS. STOKES STRIKES BACK

(Continued from First Page.)

into presentation of her own case for divorce.

The titian-haired beauty began her story with her marriage in 1911. The campaign of cruelty began six weeks after they were married, she said.

"Mr. Stokes had held me in bed for nearly four hours," she testified, "and then I asked him to pay some bills I had contracted for clothing. He jumped up and struck me, knocking me against the wall, severely bruising me. When he struck me he announced: 'I'll show you who is boss of this house.'"

Mrs. Stokes declared her husband frightened her by threatening to hire a "big black nigger" to watch her, and that for months the threat was held over her head. A short time afterward Mr. Stokes came home with acid on his clothing, she said, and explained that a jealous woman had thrown it on him. He added that this woman and others were out "to get" Mrs. Stokes for marrying him, she declared.

In May, 1911, Stokes forced her to sign papers transferring her rights in real estate to the Melvin Realty Company.

Asked if anything untoward had happened to Mr. Stokes, Mrs. Stokes declared she called upon him at a hospital after he had been shot by two women. Herbert Smyth, associate counsel for Mr. Stokes, objected to this testimony, and Justice Finch agreed with him, but Martin W. Littleton, counsel for Mrs. Stokes, explained that he would show Stokes was calling on the women a few weeks after his marriage to Mrs. Stokes, and that this was just cause for a charge of cruelty.

AMENDMENT TO END IMMIGRATION PUBLIC.

[BY A. P. NIGHT WIRE.]

WASHINGTON, April 26.—Immigration of aliens would be prohibited for five years under an amendment of the immigration bill drafted by Senator Harris, Democrat, Georgia, and made public here today.

It would declare it unlawful for "any alien to come from any foreign port or place, or, having so come, to remain within the United States" during the five-year period.

Findings of Noted Engineers on Subject Reviewed.

Story of Ten-Year Fight for Union Terminal Here.

(Continued from First Page.)

strongly urged the commission to promulgate in this proceeding."

AS TO THE COST.

The commission indicated that it was not practicable at this time to deal extensively with the matter of cost and division of expenditure, and that these features would be reserved for a subsequent decision. The cost of the Union Station would be much less than that of the entire plan, the commission stated, and the figure would be made known after the plans of the engineering committee have been filed with the commission. They declared that they were not contemplating an unreasonably large expenditure, consideration to the important factor of cost had been given by them in making the order, and that the Southern Pacific and Salt Lake roads, and the Pacific Electric Railway, according to one of their exhibits, contemplated the expediture of approximately $17,000,000 for incomplete development.

The campaign for a union passenger terminal here began just two years ago. In 1919, following a series of grade-crossing accidents in the city and county, several local civic organizations petitioned the State Railroad Commission to order the elimination of grade crossings.

Fearing that it lacked full authority to cope with the situation, the commission ruled against itself to get the opinion of a higher court. When an appeal was taken to the State Supreme Court the commission was informed that it had full authority in the premises and that it should lose no time in satisfying the petitioners.

In the meantime the city had become interested in the proposition, and the City Council, upon being told of the expense attached to such an investigation as the commission desired to conduct before taking action, agreed to pay $20,000 toward the cost of an engineering report concerning complete grade-crossing elimination.

Richard Sachse, chief engineer for the State Railroad Commission, was placed in charge of the work, and with a staff of competent engineers he spent the next two years in preparing a study and survey of traffic conditions in this city, which covered more than 1000 pages when it was finally completed.

Before this report was finished the United States went into the World War, government control of railroads came about, and William Gibbs McAdoo, then Director-General of the Railroads, called upon Engineer Sachse for a preliminary or partial report relative to grade-crossing elimination and unification of freight and passenger facilities.

FOUND FOR PLAZA.

In the preliminary report filed by Mr. Sachse, three possible sites were considered and discussed. They were the Plaza, the Santa Fe, and the Arcade depot sites. While Mr. Sachse dealt with them impartially in that report, it was clearly apparent from his conclusions that the Plaza was the more desirable location, and from that time forward an active campaign for the location of a union passenger station at or near the Plaza was carried on by business men and civic organizations.

Engineer Sachse's complete report was filed with the commission a little less than two years ago. The announcement that it appeared to favor a union station at or near the Plaza brought forth considerable criticism, and Mayor Snyder appointed a board of five engineers, instructing them to make a study of the report and submit their conclusions.

This board was composed of Philo J. Beveridge, Fred W. Blanchard, Marco H. Hellman, Harry Haywood and Samuel Storrow. This board submitted the following recommendation to the Mayor:

"We recommend the immediate abolition of grade crossings by carrying out the idea of depressed tracks along the river banks, and the building of a union passenger station at the Plaza, and the development of a multiple system of less-than-carload-lot freight terminals, in general accord with the design set out in this report."

After the filing of this report, the State Railroad Commission held a series of public hearings in the matter, at which all sides of the controversy were thoroughly presented. The City Council then held a series of public hearings at which a storm of protests was heard while supporters of the Plaza site presented their arguments in favor of Mr. Sachse's recommendations.

At about this time McAdoo, then retired from public life, made a statement to the effect that unification of passenger and freight facilities in all large cities was the only solution for the country's big transportation problem.

EXPERTS FOR IT.

At various public hearings, and in special reports submitted to city or State bodies, the Plaza site has had the support of such eminent authorities as Bion J. Arnold, the country's foremost authority on transportation problems; Richard Sachse, chief engineer of the State Railroad Commission; Henry Z. Osborne, Jr., chief engineer of the Board of Public Utilities; Harry Hawgood, representing the Central Development Association and the Chamber of Commerce; Samuel Storrow, representing the Civic Center Association; William H. Workman, Jr., for the Los Angeles City and County Viaduct Association; W. E. Barnard, for the Business Stability Association; Thomas Gibbons, F. W. Blanchard and several other prominent business men and heads of civic bodies which took an active part in the campaign.

The Sachse plan for a union terminal at the Plaza site would eliminate approximately 150 grade crossings within the city limits, take sixty-two trains a day off the Southern Pacific tracks on Alameda street, and make it possible for East Fourth and Fifth streets to be opened up for traffic in and out of the city. It would also build a grand union passenger station in the area just below the Plaza Park, using the depression there as a means for running trains into the basement or subway of the station. The Pacific Electric would be operated out of this basement or subway through a bore running south, under Main street.

THE COST.

At the time he submitted his report, when labor and materials were at peak cost, Mr. Sachse said he thought the completed improvement could be had for $31,232,446. He expressed the opinion that it might be done step by step, especially in the case of providing such things as coach yards, and that the benefits under such an arrangement, might be enjoyed for much less money.

His report figured grade crossing elimination along the [illegible] $4,896,000; carrying [illegible] through to Pasadena, [illegible] Butte street trackage, [illegible] ion passenger terminal [illegible] $10,932,000; union freight [illegible] $2,575,000; new freight [illegible] $2,835,000; double tracking [illegible] here to Colton, $1[illegible] yards, $629,000; additional [illegible] age; $710,000; subway and [illegible] work, $5,741,000; [illegible] $2,800,000.

Throughout the proceedings of the steam roads and Pacific Electric Railway in the union passenger terminal project, the Santa Fe declared it was satisfied with present conditions, while the Southern Pacific stood for a partial solution of the Arcade Station on Fifth street, asserting that for the purpose of reciprocation it would the Salt Lake Line use this station, but would not admit the [illegible] unless compelled to do so.

ORGANIZATION BILLS PASSED.

Nine of Eight Administration Measures Approved.

General Enabling Law is Included in List.

Assembly is Behind Schedule After Day's Work.

[BY A. P. NIGHT WIRE.]

SACRAMENTO, April 26.—The bills for reorganization and consolidation in State government, presented by the administration, took a long step toward completion today when the Assembly passed without amendment seven of the eight principal bills, already passed by the Senate.

The general enabling law was included, and the others were those reorganizing the Civil Service Commission and creating the departments of finance, labor and industrial relations, education, public works and institutions. The bill relating to the department of agriculture was continued as a special order for tomorrow at 2 o'clock on motion of John Robert White, who had charge of the bills on the Assembly floor. White said some amendments were in preparation, and he desired their authors to have ample time to present them.

FIGHT AGAINST BILLS.

The fight against the bills centered on the civil service bill because that happened to be first on the list. C. W. Greene of San Luis Obispo opposed it, and had some support, but after a delay of perhaps an hour the measure was passed by a vote of forty-eight aye to twenty-four no. The only other extended fight centered on the bill creating a department of institutions, and was based on that portion of the bill that demotes the boards of trustees at the various State institutions to a purely advisory capacity, taking from them the appointment of institution heads and some other powers they now possess. Frank L. Coombs of Napa, who said he had watched the workings of the present system of the Napa asylum, and elsewhere, for many years, said the boards should be kept, as the system was satisfactory and proven and gave the human touch necessary for the best interests of defectives. He got some support, mustering twenty-one votes against the bill, which was the largest number cast in opposition to any of the series.

POWER COMMISSION BILL.

The debate of the bills lasted less than three hours, and was followed by an effort by Parker to take the power commission bill, that was tabled last night, away from the Committee on Governmental Efficiency and Economy. After a half-hour of oratory on that subject, the motion to withdraw from committee was defeated, 36 ayes to 39 no.

When the Assembly reached the dinner hour tonight it had passed twenty-eight bills, about one-fourth of the day's work necessary to keep it abreast of its calendar. A computation earlier in the day had shown about 450 bills on file awaiting final disposition before the session closes Friday at noon. Indications tonight were that Friday noon would come some time Saturday morning, in legislative annals, as the usual custom of stopping the clock and continuing work was in definite prospect.

Included in the bills passed and sent to the Governor today were the following, by the Senators named:

BILLS PASSED.

By Rush—For eradication of scabies in sheep.

By Hart—Protecting the owners of marked trade articles such as bottles, towels, etc., from loss by theft.

By Purkitt—Permitting reclamation districts to sell water for irrigation.

By Eden—Protecting the toyon or Christmas berry against vandalism.

By Hart—Permitting the organization of corporations to engage in foreign trade.

By Hart—Amending the State banking law to more nearly parallel the Federal Bank Act.

By Rigdon—Amending the mining and oil laws.

By Scott—Extending civil service preferential right now held by Civil and Spanish War veterans to include World War veterans.

REAL MEASURE WINS.

The Senate today passed, 22 to 18, Assemblyman Beal's bill to permit counties, cities and irrigation districts to acquire and operate cement and rock quarrying plants.

Chamberlin gave notice of a motion to reconsider, which will bring the matter up again tomorrow, and Sharkey led the opposition, contending that the experience of Nevada and Texas had proven such enterprises to be impractical. During the debate, Inman charged that the "cement trust" was lobbying on the floor.

Otis and Scott held that the amount of capital involved would endanger the financial standing of counties handling such projects.

NOTICE OF STRIKES.

After a contest the Senate passed, 27 to 11, Assemblyman Hornblower's bill requiring employers to give notice to persons employed in anticipation of a strike that a strike was impending. McDonald said the measure was a copy of the Massachusetts law.

Earlier today the Senate passed, 21 to 19, Assemblywoman Saylor's bill, prohibiting the imposition of the death penalty upon persons under 18 years of age. Inman, who gave notice of a motion to reconsider, said the bill was designed to open the way for the abolition of capital punishment in all cases.

Acting only upon measures already passed by the lower house, the Senate approved forty bills, most of them of a technical nature, at the day session. Among the bills passed were those by the following:

AMONG BILLS PASSED.

Kline—Exempting date trees from taxation. Eden said the bill was designed to encourage an infant industry during the eight years the trees are maturing. It does not exempt the land from taxation.

T. M. Wright—Permitting cities to sell public utilities upon two-thirds vote of the people.

Beal—Authorizing counties to hire temporary employees.

Loucks—Permitting counties to refund fees erroneously paid.

West—Making an attempt of a prisoner to escape a felony.

Baker—Providing for city-wide improvement schemes in cities having planning commissions.

Baker—Providing for the acquisition of rights of way for sewers and drains by municipalities.

Heisinger—Authorizing district attorneys to prepare without charge for school boards legal papers in connection with bond elections.

Baker—Providing additional first lieutenants for high school cadet companies.

Johnston—Authorizing reclamation districts to pay 7 per cent interest of their bonds.

HITS DRUG PEDDLERS.

Illicit dealers in narcotics, usually known as dope peddlers, will face much heavier penalties for their acts if Gov. Stephens approves the Crowley-Lewis bill that passed the Assembly tonight. It had already passed the Senate.

The penalty for a first offense of drug selling is increased from a maximum of 180 days under the present law, to a minimum of 180 days and a maximum of 365, and the option of fine is removed.

The penalty for second offense is increased from a maximum of 180 days or fine to a felony, punishable by imprisonment in the penitentiary for not less than one nor more than five years and the optional fine is eliminated.

Employing minors in the trade or selling to minors under 15 years of age is made a felony. This was not an offense in the old law. The penalty is fixed at from one to five years' imprisonment.

A new section permitting the seizure of automobiles used to transport narcotics illegally is added. The automobiles are to be turned over to the Board of Control, which is directed to return to the Board of Pharmacy such number of machines as it may need to enforce the act.

DRUG CLERKS LOSE.

The bill for a nine-hour day for drug clerks was defeated in the Assembly today by a vote of 31 aye to 46 no, after a call of the House had held the vote up for a couple of hours.

The Senate Committee on Motor Vehicles took up the Lee bill, the proposed new general motor vehicle law, tonight, for consideration, and after a hearing of about two hours continued further proceeding until 10 o'clock.

Supporters of the bill said they believed it would be reported out with a recommendation that it be amended to leave the control of county roads in the hands of Supervisors, as the provision of turning them over to the State authorities had created opposition.

NO PROSPECT OF GETTING HAYWOOD.

"BIG BILL" UNDERSTOOD TO HAVE "GENERAL MANAGER" JOB WITH REDS.

[EXCLUSIVE DISPATCH.]

WASHINGTON, April 26.—There seems to be no immediate and, at present, no future prospect of getting "Big Bill" Haywood, the I.W.W. leader, back from Russia.

Department of Justice officials understand Haywood is in the employ of some organization in Russia and is a sort of general manager for this activity. Hints were dropped at the department today that this organization probably had ramifications in this country, but inquiries along this line met with no success.

Whether Haywood's fellow I.W.W. members will beg or persuade him to return for the sake of their cause, is not known to the department, which has received intimations of this character only through the newspapers.

Minot Policemen in Bad.

[BY A. P. NIGHT WIRE.]

FARGO (N. D.) April 26.—John Reed, captain of police at Minot, N. D., and Charles Llano, former Chief of Minot police, are charged with illegal possession and transportation of Canadian liquor in warrants issued in the Federal court here today.

FORTUNE GIVEN MISS McCOMAS.

Actress, Fiancee of Wealthy Man, Beneficiary.

Is Daughter of Late Judge of Los Angeles.

"Miss Lulu Bett" Star is Much Surprised.

[EXCLUSIVE DISPATCH.]

PITTSBURG (Pa.) April 26.—Miss Carroll McComas, the actress, has been made the sole beneficiary in the will of Howard J. Flannery, prominent young business man of this city, who died in New York several weeks ago. The will was filed for probate today.

The value of the estate is not known definitely, but it is said to be large. The document expressly stipulates that Miss McComas be executrix and that she not be required to furnish a bond.

Young Flannery was a graduate of Yale and was widely known as an athlete. He was a member of numerous clubs and his family is wealthy. He made frequent trips to New York, being stricken on his last visit.

WERE ENGAGED.

[EXCLUSIVE DISPATCH.]

NEW YORK, April 26.—Miss McComas, who has established herself as a Broadway actress through her creation of the title role in "Miss Lulu Bett," was seen tonight at the close of the performance at the Belmont Theater. She was engaged to Mr. Flannery, she said, at the time of his death, but had no idea of the size of the estate.

"It's such a surprise," she said. "I don't know what to say. I don't know whether Mr. Flannery left a little or a great deal."

Miss McComas met Flannery fifteen years ago, she said, when he was a student at Fordham, and knew the members of his family intimately.

She was with him a short time before his death, which occurred at the Hotel Algonquin, December 23. Flannery had planned to remain in New York until after Christmas, according to Miss McComas, to witness the Broadway premiere of "Miss Lulu Bett."

FATHER ANGELENO.

Miss McComas left the theater immediately after the performance and went to the Grand Central Station to take a train for Stamford, Ct., where she has a summer home. Miss McComas is the daughter of the late Judge C. C. McComas of Los Angeles. Her mother, Mrs. Alice Moore McComas, is the author of "Travel Sketches." She is a member of the New York Women's Press Club.

Until she created the part of Lulu Bett, Miss McComas was known to Broadway chiefly as an ingenue, having appeared in several of John Drew's productions and in musical plays. She appeared on the vaudeville stage as a child, offering a specialty which consisted of whistling, singing and dancing.

She was for some time under the management of the late Charles Frohman, serving first as understudy for such players as Marie Tempest, Elsie Ferguson and Julian Sanderson. After graduation from the understudy class she appeared in "The Dollar Princess," "The Siren," "The Marriage Market," "The Salamander," "Inside the Lines," "A Single Man" and "Seven Chances."

BUTTON MAKERS SEEKING TARIFF.

[BY A. P. NIGHT WIRE.]

CHICAGO, April 26.—Declaring that Japanese concerns are flooding the American market with their products, the National Association of Button Manufacturers today adopted a resolution urging Congress to place a tariff on buttons.

Members declared that if Congress does not act many American manufacturers will be forced out of business.

PERSHING'S JOB TO BE HARD ONE

(Continued from First Page.)

who fought once to fight once more if a fighting emergency shall come.

The first line of defense in any war which may come will be the Regular Army plus the National Guard plus the men in civil life who fought in the great war. So it is that Gen. Pershing's work of reserve building and preparedness must concern itself immediately with the trained men that we have, and not with the men who ought to be training at this moment, although Pershing can be depended upon to try to do something along the lines of military training for those who have not yet had it.

One of the missions of Gen. Pershing will be to increase the strength of the reserve force. There are now about 60,000 men in civil life who hold commissions in the reserve corps. This seems like a large number, but it is not enough. For some reason or other thousands of young men who held commissions in the war declined to enter the reserve. The enlisted personnel of the reserve is almost down to the vanishing point.

WANT RANKS FULL.

Of course, it is expected by Congress that the members of the American Legion and other veteran organizations at once will enter the service if war shall come, but the officers of the Regular Army want the reserve ranks filled now, so that it will be possible for a short time each year to order certain units into training. This can be done under the law with the reserve forces. Men who have served are likely to grow stale if they don't get into the field occasionally.

The War Department has stopped the sales of ammunition and supplies. It can be said today that the administration does not intend to allow the country to drift into the state of unpreparedness in the matter of the material of war which was its condition in a day that has passed.

At present there are supplies of ammunition and other war necessities sufficient for the use of an American army for at least six months in time of war. In time of peace the minimum of supplies of all kinds is necessary, and care is to be taken that the reserve supplies shall not be drawn upon to meet the necessities of peace-time conditions. The present army will go ahead "on its own," and if war shall come the field armies will have equipment enough to enable them to enter on an instant offensive.

Gen. Pershing will make his headquarters in Washington. He will have a staff of his own, and it is known from the present intention of the War Department that he will have plenty of work in case the Secretary of War is able to carry out to the full his preparedness views.

GEORGETOWN HONORS VENEZUELA OFFICIAL.

[BY A. P. NIGHT WIRE.]

WASHINGTON, April 26.—The honorary degree of doctor of laws was conferred on Esteban Gil Borges, Minister of Foreign Relations of Venezuela, by Georgetown University tonight.

Previously the Minister had conferred the insignia of the order of Bolivar on Dr. L. S. Rowe, director-general of the Pan-American Union, and a number of other officials of the Union and of the Inter-American High Commission.

TAKE CABLES FOR EUROPEAN RUSSIA.

[BY A. P. NIGHT WIRE.]

NEW YORK, April 26. — The Commercial Cable Company today announced messages would be accepted for European Russia, via Libau. Officials here could not explain just how messages will be relayed after reaching Libau, but asserted cablegrams had passed over this route within the last few weeks.

START the day right with breakfast at the Pot and Kettle Grill, 631 South Spring.

GERMANY MUST RAISE HER ANTE

(Continued from First Page.)

tal amount Germany is willing to pay is $50,000,000,000, whereas the total with interest fixed by the Allies is $56,000,000,000.

MEANS OF ENFORCEMENT.

On the other hand the German counter-proposals would wipe out practically all the means of enforcing payment of the reparations, which were incorporated in the Versailles Treaty. Germany would promise to pay, but there could be no occupation of German territory and other forceful measures to collect the dues.

In his note to Germany Secretary Hughes said that if the Germans would submit proposals what would constitute a proper basis of discussion the United States would consider the transmission of the proposition to the Allies "in a manner acceptable to them." Hughes would not say today whether he considers the Berlin reply a proper basis of discussion, but it is clear he deemed himself warranted in sounding the Allied powers as to their attitude thereon.

DEPENDS UPON ALLIES.

It is taken for granted that the Allied attitude would be one of the considerations in determining whether the note constitutes a proper basis of discussion, for unless the Allies were willing to receive the proposals there could be no discussion. Likewise, whatever his personal opinion, Hughes would not transmit the note unless the Allies were willing to receive it.

It is evident that Germany is beginning to make concessions in the hope of averting consummation of the French and British plans to seize additional German territory on May 1. Announcement that the British will stand with the French in invoking further forceful measures if Germany does not comply with the reparations terms on that date is believed to have quickened the Germans to an eleventh-hour effort to get a new settlement.

Germany indicates that further concessions may be expected by requesting that the United States make suggestions as to terms if the proposals in the note are found unacceptable. It is possible that Secretary Hughes, therefore, will cause the Germans to make still further concessions in the effort to find a basis for a reopening of the negotiations.

RADICALS ARE HUNTED BY ST. PAUL POLICE.

[BY A. P. NIGHT WIRE.]

ST. PAUL, April 26.—Police today are searching for two unidentified men, who last night distributed hundreds of handbills here calling on workers to prepare for a revolution on May Day to overthrow the government and establish a soviet.

The handbills bore the signature "The United Communists' Party of America."

CHICAGO'S MAY DAY QUIET ONE

(Continued from First Page.)

of William J. Bowen, president of the International Bricklayers' Union, who came from Indianapolis to Chicago to aid in solving Chicago union labor problem. He held a lengthy conference today with William Schlake, general manager of the Associated Builders, but no results were reported.

NOT A LOCKOUT.

Neither of the contractors' associations would admit that the situation of work would be in the form of a lockout. As E. M. Craig, secretary of the Building Contractors' Employers' Association, expressed it: "It will be a strike. We have announced that wages must come down to last year's schedule, and if the men will work for that amount there will be no stopping of work."

While the controversy between labor and contractors is drifting into a tie-up of building, State Attorney Crowe plans to go before Chief Justice McDonald to ask that a special grand jury investigate the building industry. The petition, which has been drawn up for presentation, sets forth that considerable evidence has been obtained which warrants the return of indictments against a number of persons who have been guilty of conspiracy to prevent competition; restraint of trade; of conspiracy to extort money; of conspiracy to injure business; of conspiracy to prevent competition in the letting of contracts, and of other illegal acts injurious to the public welfare.

The penalties in each case call for a jail sentence up to five years or a fine of not less than $500 or more than $2000, or both jail sentence and fines.

CHEAPER GASOLINE GIVEN TO CHICAGO

[EXCLUSIVE DISPATCH.]

CHICAGO, April 26.—Gasoline prices dropped 3 cents today in Chicago and Middle Western States supplied by the Standard Oil Company of Indiana. This is a cut from 25 to 22 cents at the filling station, and from 23 to 20 cents for tank wagons. Kerosene dropped correspondingly from 13½ to 11 cents retail.

EVERY day is corn beef and cabbage day at Hon Mace's Pot and Kettle Grill, 631 South Spring.

HARRIS & FRANK — EDWIN CLAPP MEN'S SHOES

They're Wearing Chalk Lines and Pencil Stripes

Right seasonal now, hard to get generally, too, but plentiful in this store; practical suits for the man of affairs, dressy, shape-retaining, wear-resisting, and very moderate in their prices—

SAVE DAYLIGHT IN NEW YORK.

Former Jumbled-up Order is Again in Effect.

Different Times Troublesome to Commuters.

State Fruit Crops Suffer from Blizzards.

BY HARRY CARR.

[EXCLUSIVE DISPATCH.]

NEW YORK, April 26.—Several well-known savants have expressed bewilderment at the sudden increase of insanity in New York—especially among former service men, who are said to be going crazy at the rate of 250 a month. There is nothing puzzling in the epidemic to anyone who has had experience with the daylight-saving law, which went into effect again Sunday morning. No doubt ex-service men are particularly affected because going to war was comparatively so much simpler than trying to get anywhere with this bughouse arrangement.

RESULTS JUMBLED.

The trains going in and out of New York maintain the old time standard, which results in the beautifully simple arrangement whereby the long suffering commuter starts on his journey at 10 o'clock and arrives there before that. When you make an engagement to meet anyone you usually find that the other person means standard time and you have missed him by an hour.

Some of the towns around New York have adopted the city time and some have not. In Connecticut, where a great many of the commuters live, the law expressly forbids any village or city to adopt daylight saving. Wherefore the commuting trains running between the Connecticut commuter towns and New York are clawing the air to express their emotions and their difficulties. The new time card will remain in effect in New York until the end of September.

OSCAR WELL PAID.

Perhaps when you get $50,000 a year, have a country estate and have a string of decorations from foreign potentates, it ceases to be etiquette to call you a servant. But whatever Oscar is to be called, that is what he is to get. Oscar is the grand mogul down at the Waldorf-Astoria. They call him the maitre d'hotel and he knows more men of face-card standing than any other in America.

He came to this country as a boy from Switzerland, where he was a trained hotel employee. When the Waldorf opened in 1893 he was put in charge of the guests and has been there ever since.

During the years he has been one of the pillars of old New York society. He has taught hick millionaire oil men from Texas not to eat peas with their knives. He has helped stewed princes of the royal blood to their beds and shown kings the way around town.

HE KNOWS A LOT.

In fact, Oscar knows so much about everybody that if he began to tell most of the Four Hundred would jump into the bay.

From time to time grateful financiers have slipped Oscar good tips on what was due to happen in "the street," and grateful royalty has remembered him with the result that Oscar is a very rich man and has enough foreign medals and decorations to drown a mule if attached to his carcass.

Oscar has his own country home at Newplatz, N. Y., and belongs to some of the best clubs in the city. Nobody knew that Oscar had another name until the other day when he signed a new contract for ten years at a mere $50,000 a year; it then developed that his other name is Tschirky. No wonder they always call him Oscar.

CIRCUS PARADES OFF.

Another joy has gone from our lives. There are not going to be circus parades any more. Ringling Bros. now playing at Madison Square Garden, have just allowed the blow to fall. The reason is that the price of labor has gone up so much that street parades no longer pay.

It will come as a terrible disillusionment to discover that the circus had ulterior motives for the parades. But it appears that they did it for the base and unromantic object of advertising the show, and they find it does not pay any more. The circus people have decided hereafter to use for newspaper advertising the money that formerly the parades used to cost.

FRUIT DESTROYED.

California ranchers should be able to endure with resignation the news of one fell disaster that has befallen New York. It develops that the late frost destroyed around $10,000,00 worth of fruit in New York State killing the buds of the trees. Last fall there were such enormous fruit crops that apples were a drug in the market. The price remained fairly high on account of the cost of handling. Thousands of bushels were allowed to rot on the trees.

Living in other particulars than rents has come down considerably during the last few weeks. Many families of moderate income can now afford an egg.

The battle of the rents continues to blaze, however. In Mamaroneck, a prosperous suburban town near New Rochelle, a campaign to foil the rent hogs met disaster on account of the wage hogs. Contractors tried to make it possible to build by reducing the wages of carpenters from $9 to $6 a day. All the carpenters promptly struck.

The town is now about to begin a campaign to vote a law where every person who builds a new house this summer shall be exempt from taxation for the next ten years. On account of the terrific cost of building, land in these New York suburbs is to be had at very attractive prices—but no takers.

TO "FIT" CIVIL WAR BATTLES OVER AGAIN.

VETERANS TO HOLD ENCAMPMENT AT STOCKTON STARTING MAY 9.

[BY A. P. NIGHT WIRE.]

STOCKTON, April 26. — Grand Army of the Republic Fife and Drum Corps, playing the tunes of '61, will lead a parade of Civil War veterans, which is to feature the 1921 encampment here of the G.A.R. posts and auxiliaries of California and Nevada. The encampment will be held May 9 to 14.

Six organizations, the G.A.R., the Woman's Relief Corps, the Ladies of the Grand Army, the Daughters of Veterans, the Sons of Veterans and the Sons of Veterans' Auxiliary, will be represented at the encampment. Encampment officials estimate the attendance will be between 2500 and 5000, making it the largest meeting of its kind ever held on the Pacific Coast.

Two Grand Army men, according to present plans, will fly from Sacramento to the convention. Never before, in the history of the California-Nevada department, have veterans used airplanes to reach the encampments.

Two State Governors, William D. Stephens of California, and Emmett D. Boyle of Nevada, are to welcome the visitors. Other encampment speakers will be Lieut.-Gov. Barrows of Nebraska; Department Commander G. M. Burlingame of Pasadena, and Mayor D. P. Hicks of Stockton.

On one night of the convention there will be a campfire meeting on the City Plaza, where a number of tents and fife and drum corps will recall to the veterans the battlefields of the early sixties. On another night the Stockton Post of the American Legion will stage a '49 show, with miners depicting scenes of the early gold days of California.

STEEL CORPORATION REGULAR DIVIDEND.

[BY A. P. DAY WIRE.]

NEW YORK, April 26.—The United States Steel Corporation today declared the regular quarterly dividends of 1 1-4 per cent on common stock and 1 3-4 per cent on preferred.

Total earnings of the corporation for the quarter ending on March 31 amounted to $32,246,722. The net income was $20,456,339 and the surplus $2,816,905.

Total earnings for the previous quarter were $42,877,862, net income $21,702,816 and surplus $14,481,446.

INSIST ON LOWER PAY.

[BY A. P. DAY WIRE.]

NEW YORK, April 26.—Paper manufacturers who met here yesterday continued in their stand that wages in their mills should be lowered, and madeno change in the plan rejected recently by the various labor unions having membership in their factories. The manufacturers said, however, that negotiations with the unions will be continued.

CHANCE TO PLAY IN BIG LEAGUE.

[BY A. P. NIGHT WIRE.]

CINCINNATI (O.) April 26. Under one of the oddest agreements ever made in baseball, Pitcher Clinton Rogge will get his chance in major league baseball. He refused to report to Indianapolis, declaring he was tired of pitching in the minor leagues and demanded his big league opportunity. The Cincinnati and Indianapolis clubs agreed, and if he makes good, the club owners then will decide the financial details of the deal.

MARQUARD REMARRIES MISS NAOMI MALONE.

[BY A. P. NIGHT WIRE.]

CINCINNATI (O.) April 26.—Rube Marquard, Cincinnati National League pitcher, was remarried here today to Miss Naomi Malone of Baltimore by Mayor John Harper of Loveland, O. After their previous marriage in Elkton, Md., it was discovered that the ceremony was performed before Marquard's divorce decree from Blossom Seeley, actress, had become legally effective.

SAN DIEGO FIELD AND TRACK MEET SATURDAY.

[EXCLUSIVE DISPATCH.]

SAN DIEGO, April 26.—More than 15,000 school children are expected to assemble in the Stadium next Saturday for the annual interplay-grounds field and track met. Children from each of the city's playgrounds are entered for the various events, which include track contests and field events for youngsters of all ages.

BOXING CARNIVAL AT UNION LEAGUE FRIDAY.

The Young Men's Institute of Los Angeles is to hold a boxing carnival on Friday evening at the Union League Club, Third and Hill streets.

Sailor Willie Wilde of the battleship Texas will meet Kid Mende of Los Angeles in the main event. Billy Miller, heavyweight boxing instructor of the Union League Club, is to meet Jack Moore, the ex-cop, in the semi-wind-up. Four other bouts will feature the entertainment.

GASTINE POKES DUNDEE HARD.

Oakland Lad Meets a Tartar in Local Boxer.

'Bout Has the Fans Shouting Lustily at All Times.

Grant Wins Over Bunker at Jack Doyle's Pavilion.

BY ED O'MALLEY.

Henry Gastine, cleverly seconded, won all right over Jimmy Dundee last night at Jack Doyle's pavilion. Of Hank's victory there was not the least doubt and the decision drew copious cheering from the packed arena.

Gastine had the first and second rounds by plenty of margin, the third might have been called upsticks and the fourth was a give-and-take affair with honors even. Gastine's improvement was so pronounced that it was food for common talk when the vast throng filtered out of the building.

Dundee, as was expected, resorted to his rubber-ball milling when the gong sounded, but the moment he darted in he was met with three short rights to the face that brought a round of cheers from the fans. Dundee's best blow was a rushing in left to the stomach which, however, did not seem to bother Henry. In the middle of this round Gastine rushed his man into close quarters and volleyed rights and lefts to the stomach in rapid fashion, causing the Oakland lad to break ground.

Jimmy missed a terrific right to the chin in this session that had it landed might have ended the battle then and there. The second round still found Henry well in the lead with his short rights and lefts to the head and volleys of rights and lefts to the stomach.

Toward the end of this session Gastine shot a right to the mouth that caused the blood slightly to trickle. In one of the rallies Henry battled his man into a neutral corner and pummeled him unmercifully while the bugs shouted themselves hoarse. In these two rounds Gastine had a big advantage. Dundee was more cautious in the third, having a great respect for his man's right. In the final round, however, the Oakland lad out out all his Jack-Be-Nimble stuff as useless and started in to mill flat-footed, toe to toe.

The men fought viciously every inch of the round, each landing terrifically and effectively. It was a sort of even-steven round but Dundee was so far outpointed in the first two sessions that there was nothing for Referee Lee to do but to raise Gastine's hand.

The semi-windup went to Bob Grant of the U.S.S. New Mexico. He tackled a freak from San Francisco named Harlan Bunker, whose last name would have fitted him to a nicety with two of the letters curtailed. His thinness was a sort of a cock-eyed cross between Slim Love, a Jersey mosquito and Charley McHugh's bank roll. What fistic talent he possessed lay under his shoes, and why Grant didn't subdue him is a mystery. The Bunk was never in it, Grant having the four rounds, every moment of which was punctured with the fans crying, "Extra bout!"

The other bouts resulted as follows: Ernie Goozeman and Tommy Cello, draw; Tommy Richards outpointed George Lavigne; Eddie Macy outfought Kid Mende; Young Cuppett won over Jack Darcy, and Sailor Vincent beat Soldier Graham decisively.

Miss Cameron is Eliminated by Miss Prole.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, April 26.—Miss Doreen Kavanagh of the Los Angeles Country Club, who won medal honors yesterday in the qualifying round of the California women's golf championship, was a winner again today in the first round of match play. She defeated Mrs. Milton Bernard of the Claremont club, 7 up and 6 to play.

Other results were Mrs. E. H. Weil, Beresford, defeated Mrs. A. B. Swinerton, San Francisco, 3 up and 2 to play; Mrs. H. A. Prole, Claremont, defeated Miss Margaret Cameron, Annandale, 3 up and 2 to play; Mrs. Robert A. Roos, Beresford, defeated Mrs. Paul Pitner, Midwick, 1 up at the nineteenth; Mrs. C. F. Ford, Claremont, defeated Mrs. A. F. Stein, Beresford, 4 up and 3 to play; Mrs. H. F. Strassburger, Beresford, defeated Mrs. Ezra Stimson, San Francisco, 3 up and 2 to play.

Mrs. Gwen Parks, California Golf Club, San Francisco, defeated Mrs. R. R. Patek, Presidio Golf Club, 1 up.

Mrs. T. S. Baker, Menlo Country Club, defeated Mrs. Brent Patterson, California Golf Club, 2 and 1.

Zowie! There Goes Another One!

Willie Kamm Lays One Away.

An interesting action photograph of San Francisco's star infielder, who was more or less responsible for six of San Francisco's nine runs in yesterday's game.

CHICK GANDIL ARRESTED.

On an indictment gowing out of the recent Chicago baseball scandal, Arnold (Chick) Gandil, first baseman of the Chicago White Sox, was arrested near Twelfth and Alvarado streets last night by Detective Sergeants Bean and Smith.

Gandil had a ticket for Chicago in his pocket when he was arrested and declared that he had intended to leave for the Windy City on Thursday to appear there voluntarily. In view of this fact, he was held in the detective bureau at Central Station last night while an attempt was made by wire to effect his release on bail. He stated that if he could be released on bond, he would travel to Chicago and surrender himself.

The ball player gave his age as 32 last night and said he had been living at 1790 North New Hampshire street in this city. His wife has been running a hair-dressing establishment near Fortieth street and Vermont avenue until recently, he said. Mrs. Gandil sold her business a few days ago and planned to visit her folks in Texas while her husband returned to Chicago to face the indictment, Mr. Gandil added.

The indictment charges a conspiracy of Gandil and other members of the White Sox team to defraud Samuel Pass and others by "means of the confidence game."

HOT ON TRAIL.

[BY A. P. NIGHT WIRE.]

CHICAGO, April 26.—A general round-up of men indicted in connection with the 1919 world series baseball scandal has been started by State officials and Federal aid will be sought in apprehending several persons who have not yet given bond, it was announced today at the State's Attorney's office. Some of the alleged conspirators are said to have fled to foreign countries.

George E. Gorman, Assistant State's Attorney, said he had information that Abe Attell, former world's champion featherweight fighter, and Joseph J. (Sport) Sullivan, known in the East as a gambler, had fled to Canada.

Others in the case were reported to State officials to have made plans to go to Mexico or are there now, Mr. Gorman said.

Detectives will be sent tomorrow to San Jose, Cal., to wing back Hal Chase, arrested there yesterday. A warrant has been sent to Texas for the arrest of William Burns, former major league pitcher.

Eddie Cicotte, once the American League's leading pitcher, sent word that he would come to Chicago within a few days to give bond.

Charles Risberg, George Weaver, Fred McMullen, Joe Jackson, Oscar Felsch and Claude Williams, White Sox players, and Carl Zork and Ben Franklin of St. Louis have given bond, Mr. Gorman said.

TIJUANA RESULTS.

[EXCLUSIVE DISPATCH.]

SAN DIEGO, April 26.—A double spill occurred in the fourth race of the Tuesday's card at the Tijuana race track, in which Jockey E. Noble was rendered unconscious and Jockeys Murray and Perry barely escaped injury. Noble was more seriously hurt than the others, but is said to be out of danger. Perry was first thrown when Dots hit the fence on the back stretch. Later, rounding the last turn, Maud M. which was closing with a great rush, fell, throwing Noble, and Dinero tumbled over the prostrate horse. Diviand was the winner of the fifth race by a length and a half, with Elsabio second and Gertrude B third. The fourth, in which the mishaps occurred, finally went to Stanley H, which lasted to have his nose in front of Viva, with Miss Dunbar third. The results:

First race—Four furlongs: Blazing Fire won; H. second; Tahloid, third. Time :49 4-5.

Second race—One mile: Class A won; Chatten Court, second; Sweetwater, third. Time 1:43 4-5.

Third race—Five furlongs: Barber won; Marie Barber, second; Lady Moore, third. Time 1:02.

Fourth race—Five and one-half furlongs: Stanley H won; Viva, second; Miss Dunbar, third. Time 1:08.

Fifth race—Five and one-half furlongs: Diviland won; Elsabio, second; Gertrude B., third. Time 1:07 4-5.

Sixth race—Six furlongs: Miss Manager won; John Jr., second; Thirty-seven, third. Time 1:13 4-5.

Seventh race—One mile and seventy yards: Sweetie won; Col. Matt, second; Shenandoah, third. Time 1:45 1-5.

Eighth race—One mile and seventy yards: Gentlemen won; Flavel, second; Bruna, third. Time 1:45 4-5.

DUNDEE WALLOPS KANSAS.

Italian's Foxy Left Hand Wins Decision Amid Wild Yelps from Crowd.

[EXCLUSIVE DISPATCH.]

MILWAUKEE, April 26.—Anyone who labors under the impression that Rocky Kansas is the boy to take the measure of Champion Benny Leonard had that idea knocked out of their craniums tonight by Johnny Dundee of New York. Most folks were surprised because Dundee was considered a rank outsider, in fact, there was plenty of jack wagered that Kansas would be returned the winner. But if one could make odds after instead of before a contest, Dundee would have been the choice.

Dundee put on one of his good fights tonight and to spur him on to his best efforts he had the support of the major portion of a crowd of 5000 wildly howling bugs. They rooted for Dundee when the fight started and they were shouting wildly for him when he emerged victor on points by a most respectable margin at the end of the ten rounds. It isn't nice to say, but a few hisses were heard as Kansas left the ring.

A Dundee at his best is almost invincible and that was the Dundee who battled tonight. Perhaps too much was expected of the Buffalo boy who aspires to a championship, but it was natural that he should be expected to beat the New Yorker, who hasn't been doing so well in recent months.

Dundee won because he used his head as well as his fists, but his feet weren't lacking in action either. He earned the verdict with his left hand, which he used for hooking and jabbing. Kansas seemed to have no defense for this form of attack. Rocky's efforts were concentrated on an effort to wear Dundee down by body punches and he landed many a stiff wallop to Johnny's mid-section. But the blows didn't even slow up the New Yorker.

The expected Italian claret didn't flow, although both landed times without number.

In the first half of the bout Kansas was leading by a shade, but it was in the later rounds that the tricky, hopping Dundee speeded up to gain the victory. For instance there was one round, the ninth, that practically decided the issue. It was the thrill-producing session of the bout and Dundee was as far in the front as from here to Chicago. He pasted Kansas with everything but the water bucket and the Buffalo fellow was far at sea.

It was a great fight and particularly pleasing to the great crowd because the "under dog" won.

ROUSH KICKS IN.

[BY A. P. NIGHT WIRE.]

CINCINNATI, April 26.—Eddie Roush, holdout centerfielder of the Cincinnati National League club, today signed his contract to play with the Cincinnati Reds.

DR. LASKER GIVES UP CHESS MATCH.

[BY CABLE AND ASSOCIATED PRESS.]

HAVANA, April 25.—Dr. Edward Lasker, considered world's chess champion, resigned from his match with Jose Capablanca, the noted Cuban master, tonight, declining to finish the series and declared Capablanca chess champion of the world. Capablanca had won four games, Lasker had won none and the two men had played ten draws.

RECORD ENTRY THRONG.

Annandale Has 236 Qualifiers; "Scotty" Armstrong Wins Medal Round.

BY PAUL LOWRY.

The popularity of Annandale as a golf course was never better attested to than yesterday when a gorgeous and massive throng of 236 spoon athletes played in the eighteen-hole qualifying round of the annual invitation tourney.

The handsome turnout so far exceeded the wildest expectations of the tournament committee that the members went into a secret and hastily-called session to determine how many flights of sixteen could be taken care of. After due consultation with Ed B. Tufts, president of the Southern California Golf Association, who was gracing the vicinity with his presence, a limit of ten flights was settled upon, though there were enough players to form fifteen.

CAN'T DO IT.

Tufts said there had never been more than nine flights in any tourney in the south and that no club hereabouts is able to handle more than ten comfortably. The tournament committee though this was the dope, and it was so ordered. There was no intention to wound the feelings of those unfortunate enough to be left out in the cold, but there had to be a stopping point somewhere, and the comfort of those in the leading flights was a main consideration.

All credit is due to those responsible for the handling of the tourney that every blessed foursome was gotten away in time to finish before dark. A mob of 236 buoyant souls is not easy to take care of on an eighteen-hole golf course. Annandale broke its own Southern California record by fourteen, there having been an entry list last year of 222.

RAH FOR "SCOTTY."

E. S. "Scotty" Armstrong came galloping upon the scene of action just in time to register a creditable 77, which entitles him to all the medal honors of the tourney. The ex-State and ex-Southern champion led A.D.S. Johnstone of the L.A.C.C., and Frank Tatum of Annandale to the tape by one stroke.

Tatum had an excellent chance to tie Armstrong, but took three putts on the seventeenth and landed outside the money.

One of the surprising features of the qualifying round was the assortment of poor scores turned in by several of the topnotchers. Many blamed this on the fastness of the greens. Frank Peebles had warned all of this in advance, and they should have been forearmed.

Frank Neville, of San Francisco, ex-State champion, came down for the fun, and played his qualifying round with George Patterson, George Cline, and Everett Seaver, 1920 Southern champ. Neville stepped from the train to the links and from the fog of the north to the glaring sun of the south. The combination did him no good and he shot an 83. He had 44 going out, but a determined effort on the last nine holes rewarded him with a 39 and a gross 83, which just landed landed him in the first flight.

HARD LUCK, GEORGE!

George Patterson couldn't get going, ungorged himself of an 88, and wound up in the third flight. George Cline with his 86 got into the same division, Seaver got the best start of thebunch and had a going out, but a 3 coming in gave him 80. His name was scratched as he was unable to continue match play.

Seven players tied at 84 for the sixteenth man in the first flight, and the draw brought the honors to Horace B. Ingalls. Five 103's got into the tenth flight, and three were eliminated by the draw.

Charley Hermann had the best day of his career, and breezed most chalantly around in 81. A 14 handicap gave him a net 67 and the fancy silverware for low net honors. The best qualifying scores and the pairings and starting times follow below (one round of match play being carded today):

Leading qualifying round scores:

E. S. Armstrong	77	George Cline	86
A. D. S. Johnstone	78	W. P. Blake	86
Frank Tatum	79	W. P. Herbert	86

Tan Russia Calf or Wine Colored Cordovan.
To give newer style without exaggeration—
To furnish highest qualities without extravagance—
To extend a noticeable service without overbearance—
To quote fair prices without skimping of merchandise—
—is what we mean when we say that Innes Quality, Innes Service and Innes Prices form a most unusual business triumvirate.
INNES SHOE CO.
642 SO. BROADWAY

NOTED HORSES ENTERED.

Some of the most famous horses in the West are entered for the two-day horse show that opens at the Flintridge Country Club Friday afternoon. Bounder, holder of the world's triple bar record and owned by Revel L. English, will appear in the hunters' and jumpers' class. He took first at the Santa Barbara show. Mr. English also has entered Cochette, five-galted mare, winner of first at Santa Barbara.

Robin Hood, winner of many prizes as a jumper, and owned by Jack Holt, will be ridden by Arthur P. Perkins. It won in the heavyweight division at Santa Barbara. Mr. Holt is also showing Supernal, winner of first in the polo pony novice class at Santa Barbara.

Mrs. Martha D. Bowers of Santa Barbara is entering her mare, Glory Anne McDonald, which won first in the three-galted saddle class. F. W. Matthiessen's string at Triumfo will be represented by Sylvia Dale, a beautiful Kentucky saddle mare, and by several other fine mounts. From San Francisco is coming Mrs. William Roth's remarkable show pony, said to be the most beautiful "little horse" on the Coast.

Social diversions will include a tea dansant at the Flintridge clubhouse Saturday afternoon and a horse show ball at Hotel Vista del Arroyo Saturday night.

AT THE END OF THE OPEN ROAD

Sportsmen Await the Trout Season

TROUT SEASON OPENS MAY 1.

Rod and Liners are Interested in Fish Planted.

Allotments Concentrated on Flowing Streams.

Predict Best Year Known in Piscatorial Line.

With trout season opening throughout the lower counties and the Eastern Sierras of Inyo and Mono counties on Sunday, May 1, lively interest attends announcements of the streams and numbers of fish planted last summer by the Fish and Game Commission, which invests most of its collections from anglers' license in this far-reaching work.

While successive dry years left many streams previously planted too weak to warrant risking the fish, the allotments were concentrated upon those with sufficient flow, and as a result there is every reason to predict the best fishing ever known in the San Bernardino and San Gabriel watersheds, which have had more liberal dosages of trout from the Bear Valley and Mt. Whitney hatcheries than it has ever been possible to give them heretofore.

RAINBOW TROUT.

Where not otherwise specified in the tabulation, rainbow trout are referred to. The initials EB mean eastern brook; SH, steelhead; LL, Loch Leven; G, golden. The plantings were as follows:

San Bernardino county—A total of 1,168,000 Rainbow trout from Bear Lake eggs, reared in the two Bear Valley hatcheries, was distributed, a trifle over half going into Big Bear Lake and the remainder as follows: Upper Santa Ana, 80,000; South Fork, 14,000; Forsee Creek, 12,000; Barton Creek, 17,000; Cold Water Canyon, 12,000; Fish Creek, 7000; Lower Santa Ana, 14,000; Alder Creek, 14,000; Keller Creek, 7000; total Santa Ana system, 193,000; Upper Deep Creek, 30,000; Middle Deep Creek, 28,000; Holcomb Creek, 40,000; Lower Deep Creek, 24,000; Hook Creek, 32,000; total Deep Creek system, 144,000.

Los Angeles Playground section—Devil's Canyon, 28,000; Huston Creek, 20,000; Seeley Creek, 20,000; Dark Canyon, 10,000; Cable Creek, 6000; total Skyland streams, 84,000. Mill Creek, 45,000; Mountain Home Creek, 11,000; South Fork, 11,000; total Mill Creek system, 67,000.

CITY CREEK.

South slope streams—City Creek, 28,000; East Fork, 18,000; Plunge Creek, 20,000; Stoddard Canyon, 12,000; Waterman Canyon, 25,000; Pohl Creek, 11,000; Strawberry Creek, 11,000; Bear Creek, 64,000; Cow Canyon, 7000; Lytle Creek, 40,000; San Antonio Canyon, 28,000.

Etiwanda streams—Day Canyon, 20,000; East Canyon, 15,000; Cucamonga Canyon, 22,000; East Cucamonga, 5000; total Etiwanda streams, 84,000.

Riverside county — Strawberry Creek, 14,000; Dark Canyon, 10,000; Snow Creek, 18,000; Cold Water Creek, 4000; total, 46,000 Rainbow from Mt. Whitney hatchery.

San Diego county—Lower Otay Reservoir, 90,000 SH; Cuyamaca Lake, 20,000 SH, 10,000 R; Cedar Creek, 8000; Pine Creek, 8000; total, 136,000 from Mt. Whitney hatchery.

Los Angeles county—San Gabriel River and tributaries, 10,000 from Mt. Whitney hatchery.

OWENS RIVER.

Inyo county—Owens River, 60,000 LL; Lone Pine Creek, 20,000; Big Pine Creek, 12,000; Tinemaha Creek, 12,000; Burch Creek, 12,000; Oak Creek, 10,000 LL; South Fork, 10,000; Tuttle Creek, 10,000; Lubken Creek, 10,000; Hogback Creek, 5000; Diaz Creek, 5000; Richter Creek, 5000; Corral Creek, 5000; Rock Creek, 4000; Baker Creek, 4000; total, 156,000; all except Loch Leven from Mt. Whitney hatchery.

RECORD HOLDER TO / RACE AT STADIUM.

Saxe Williams, holder of American record for motor-paced bicycling for one and five miles, is in Los Angeles to participate in the stadium bike meets, being scheduled to ride an exhibition on Friday night behind one of the big motorcycles used in the Speedway races last Sunday. Williams declares he will cover a mile in 1m. 11s. and that he will never be more than six inches away from the rear wheel of the pacing machine. A roller two feet in width behind the rear wheel of the pacing machine prevents the bike rider from falling when he bumps into the rear of the machine with his front wheel. "Terrible Swede" Hackanson and George Mulder, San Francisco Olympic Club rider, are slated to battle each other in an Australian pursuit race until one or the other tumbles from their wheel from exhaustion.

JUDGMENT TO WOMAN.

Thirty-five-Thousand-Dollar Award in Land-Contract Suit.

The suit of Alva R. McCarty against Philip L. Wilson to enforce a specific contract involving the sale of seventy acres in the San Antonio Rancho, tried by Judge Stephens recently, was decided yesterday in favor of Mrs. McCarty. The judgment awards her $35,000.

Mr. Wilson, the evidence shows, purchased the acreage and, it was contended, refused to go on with the contract because of flood damages. The case went to the Supreme Court and was sent back to the Superior Court for retrial.

RICE WINS GAME.

[BY A. P. NIGHT WIRE.]

NEW YORK, April 26.—Sensational play of Sam Rice, Washington's centerfielder, enabled Washington to defeat New York again here today, 5 to 4. Rice hit a home run, a double and two singles, his home run driving in Washington's winning run in the sixth inning. The score:

WASHINGTON.	AB	R	H	O	A	NEW YORK.	AB	R	H	O	A

INDIANS RAISE FLAG.

[BY A. P. NIGHT WIRE.]

CLEVELAND, April 26.—Manager Speaker used twenty-three players today to win from Detroit, 9 to 8. He called upon six pitchers, two catchers, six outfielders, three first basemen, two pinch hitters and one pinch runner. The only Indians to play throughout the entire game were Speaker, Sewell, Stephenson and Gardner.

Prior to the game the American League pennant, Cleveland's first in forty-five years of professional baseball, was raised with appropriate ceremonies. The score:

DETROIT.	AB	R	H	O	A	CLEVELAND.	AB	R	H	O	A

PORTERVILLE TEAM GOING GREAT GUNS.

[SPECIAL CORRESPONDENCE.]

PORTERVILLE, April 26.—Porterville boasts the only baseball club in the San Joaquin Valley which now has a 1.000 per cent record, although prior to Sunday's game several other clubs shared this distinction.

In a game with Selma on the local field the final score stood 8 to 2 in favor of Porterville; thus the Porterville aggregation now carries honors for the Valley and Raisin leagues.

The contest with Selma was good until the close of the fifth inning, when the score was tied. At the beginning of the sixth, Selma got in one run, then Porterville came in with four and the rest was easy. "Big Pete" McKeown pitched for Selma. The Porterville lads got thirteen hits off him.

AMERICAN POLO TEAM IS WINNER.

[BY CABLE AND ASSOCIATED PRESS.]

SUNBURY (Eng.) April 26.—The American polo team, made up of J. Watson Webb, C. C. Rumsey, Thomas W. Hitchcock and Sanford, in a practice match today, defeated, 9 to 8, a team of three men, Earl W. Hopping, Maj. F. W. Barrett and Robert E. Strawbridge. Most of the goals for the winners were made by Sanford and Rumsey.

AUTO THIEVES GET FIVE CARS.

The following autos were stolen from the streets of Los Angeles yesterday: Chevrolet, 1921 roadster, black, 507-170; Ford, 1917 touring, black, 35-967; Ford, 1918 delivery, black, 1-090; Studebaker, 1919 touring, brown, 465-659, and Chandler, 1919 touring, blue, 200-554. Anyone seeing any of these cars will please notify the auto theft bureau of the Auto Club of Southern California, or police headquarters.

LEGION TO COMBAT VICE AT MEDFORD.

[BY A. P. NIGHT WIRE.]

MEDFORD (Or.) April 26.—After considering anonymous threats against the Medford police for recent arrests of drunkards and liquor sellers, the executive committee of the Medford Legion last night issued a statement pledging its support to the officers of the law in any showdown between the forces of law and order and vice.

The statement declares "the Legion can be depended upon to support the officers."

It will not collect dirt

A paint which keeps the walls of work-shop, store or plant as clean and white as tile

HOW long does the white paint on the walls of your shop or plant stay clean? White perhaps when first applied, how long will it remain so?

Experience has demonstrated that surfaces painted with flat or egg-shell finish paint soon become soiled and discolored. The reason for this is clearly seen when these paints are examined under the microscope. They are found to be rough and uneven. Every inch of their surface contains thousands of tiny pores and crevices in which dirt will cling. They can never be washed thoroughly clean.

Even under the most powerful microscope the surface of Barreled Sunlight is found to be smooth and unbroken. Its lustrous surface offers no lodging place for the tiny particles of dust and dirt. A damp cloth will always wash it clean.

Wherever light and cleanliness are essential—in stores, work-shops and industrial plants, in kitchens, bathrooms, laundries of homes and apartment houses and in countless other interiors—Barreled Sunlight is the ideal paint. It will not collect dirt. Keeps ceilings, walls and woodwork white and spotless. Even when soiled after long use it may be washed clean as easily as tile.

In living rooms and other interiors where dirt does not collect so readily, and where a less lustrous finish is desired, our superior flat and egg-shell finishes should be used.

Sold in cans and in barrels

Barreled Sunlight is sold in cans from half pint to 5-gallon size. Also in barrels and half-barrels. Costs little more than ordinary paint—much less than enamel. Made by the "Rice Process" it combines ideal lustre, lasting whiteness, intense opacity and ease of spreading. Comes ready mixed. Can be tinted any color desired.

Dealers should communicate with us or with our nearest distributor regarding sales proposition.

90% of all engine troubles easily prevented

Garage men and engineers report chief causes of common repair expense

"WHY do I have to spend so much on engine repairs?" You've asked yourself this question many a time. That's just the question we asked engineers and garage men all over the United States.

They report that seven preventable troubles—fouled spark plugs, burned-out bearings, scored cylinders, played-out piston rings, loose wrist pins, worn cam shaft, sticking or pitted valves—cause 90% of all repair expense. Almost always these troubles are caused by improper lubrication.

When subjected to the intense heat of the engine—200° to 1000° F.—ordinary oil forms black sediment. Sediment has no lubricating value. Avoid big repair expenses. Sediment is reduced 86% when you use Veedol, the lubricant that resists heat. (See the two bottles below).

With Veedol in your engine most serious engine troubles are prevented. Have your engine flushed out. Put in Veedol. Leading dealers have it in stock. Ask for a supply of Veedol today.

SEALS BRUISE ANGELS HARD.

(Continued from First Page.)

sensitive fielder. Furthermore, no work of this sort can embody errors of omission.

But for the nefarious batting of Willie Kamm, the game might have been within reason. Willie sowed to the wind, and reaped a whirlwind of runs. His spree netted him a sacrifice fly, a single, a triple and a homer, and he figured directly in six of San Francisco's nine runs.

"Death Valley" Jim Scott was just what his name implies when the valley is not as healthful as usual. Four of the eight hits registered off him were as scratchy as if made in the seven-year itch circuit.

RUBE WAS THERE.

One of the clean hits was registered by none other than Rube Ellis, who made it resurrection day by batting for Thomas in the eighth. That Rube might bat had been widely advertised in Rivera, with the result that Monsieur Georges Trigg, brother-in-law of Rube, was an eyewitness of the deed.

First business-like swat was made by Rath at the start of the fourth. Joe Kelly flied to left. Joe is known as the $11,000 utility outfielder, $10,000 worth of which runs to chin. Mr. Kelly has the greatest chin mileage ever seen in these parts. Alongside this Johnny Evers's chin has no more wheel base than a flivver, and Hap O'Connor's chin looks like a mere swelling on the under side of his face.

STICKS OUT.

Mr. Kelly's chin sticks out so far that it casts a shadow across his upper lip, the mirage taking on the appearance of a mustache which doesn't exist. How Mr. Wrigley ever let that chin get away from Chicago is one of the business mysteries of the century. When Joe had flied, and withdrawn his chin in an orderly retreat, Caveney doubled Rath in with the first run of the game.

Ellison singled, and O'Connell was hit, filling the bases. Kamm scored the front runner with a deep fly to Crawford. Two more counted when, with Nichoff going over to cover second, Agnew drove through his still warm and recently evacuated footprints. Bert should be careful about walking away from his footprints. Some new family is liable to move into them with the household goods, while he is absent.

BRING PILL BACK.

Kamm's homer came after Ellison had walked in the sixth, and grazed the freckled finger tips of Red Killefer in deep center. For a time it was feared that the boys would never get the ball back to the home plate, but they fooled all present by bringing it clear back to the grand stand. Nichoff drew Killefer's throw, and after a short bout with the ball relayed it to McAuley, who relayed it to Johnny Powers in the stane.

Kamm's three-base smack followed singles by Caveney and O'Connell in the eighth, and put Willie in a way to get the keg of smokes offered by Jess Bean for the week's most effective hitter. Scott crowned the occasion with a single that scored Kamm. Simultaneously with Scott's hit a fire broke out in a guy's coat tail out in the right-field bleachers.

GIVES YELP.

This bloke, who was on the verge of burning up, began unpeeling and let out an anguished yelp for the water bucket. He was extinguished after much effort. The friction of Jim's hit is believed to have exploded a box of matches. Gus should wear a fire extinguished on his hip, or go to the game wrapped in a wet blanket.

The overdue heat drove the sunfish in the right-field bleachers to the strip of shade that runs along the wall. Management should see

each sunfish a water lilly pad with every ticket. The score:

Hit by pitched ball—O'Connell. Umpires—Crotey and Finney.

OAKS STAGE RALLY IN NINTH AND WIN.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, April 26.—Oakland defeated Vernon today, 5 to 4, staging a ninth-inning rally, in which Love was knocked out of the box and Cather's double to left field scored two runs. The game was a see-saw affair until the eighth inning when Vernon forged ahead on Hyatt's single followed by Smith's home run. The score:

ALEXANDER GIANTS TO PLAY ALHAMBRA.

The Wholesale Terminals and Diamond Tailor-Made semipro ball clubs will stage the first game of a bargain bill of baseball at Carroll Park next Sunday. The second number of the bill will be the Alexander Giants and Alhambra game. The Alhambra team knocked off the Ontario gang, who have been traveling rough-shod over the best of the local nines. Alhambra has a couple of old-timers in the line-up in Dan Leguin and Liefer. These two players helped Anson and Spalding win the first rock-center ball and another pair who helped paste the cover off the same ball will appear at the park Sunday.

POMONA IN LEAD IN COLLEGE CONFERENCE.

[SPECIAL CORRESPONDENCE.]

Team—	W.	L.	P.c.
Pomona	1	0	1000
Redlands	1	0	1000
Caltech	1	0	1000
S. C.	0	0	.000
Whittier	0	1	.000
Occidental	0	1	.000

REDLANDS, April 26.—As a result of the fourth set of games in the college conference Pomona has landed in the lead with four teams tied for second place. Occidental slid into the cellar position without any opposition.

Redlands defeated Whittier by a score of 6 to 2. Pomona and Caltek had a terrible fight, which Pomona finally won by a score of 4 to 2. The Occidental-S.B.U.C. game was just as hard fought, but the Cubs won it, score 3 to 2.

The next round is played on Saturday with Caltek at Redlands; Oxy at Pomona and Whittier at S.B.U.C.

FREE
to those who care

If you send the coupon we will mail a 10-Day Tube.

Watch the effects in your mirror. Feel them 20 times. Then you will realize what this new method means to you and yours.

Enjoy these delightful results for ten days, then decide.

Teeth You Love to Show

Find out how millions get them

This offer is to women who desire to look their best. To men who find that tobacco stains, etc., make their teeth look dingy. To young folks who know what beauty lies in glistening teeth.

It is to all who have learned that old methods are wrong. And that, despite the tooth brush, teeth discolor and decay.

Clouded by a film

Teeth are clouded by a dingy film. At first it is viscous—you can feel it. It clings to teeth, gets between the teeth and stays.

Old ways of brushing do not effectively combat it. Much of the film remains. Then night and day it may do ceaseless damage. Most tooth troubles are now traced to film, and those troubles have been constantly increasing.

It is the film-coats that discolor, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Also of other serious troubles, local and internal.

Science combats it

Dental science, after long research, has found ways to combat film. Able authorities have amply proved them. Now leading dentists, here and abroad, advise their daily use.

These effective methods are embodied in a dentifrice called Pepsodent. Thus one may twice a day apply them in a most delightful way. Millions already do this, and to them it has brought a new era in teeth cleaning.

Three other effects

Modern authorities find that a tooth paste should also bring other effects. This to cope with the average diet, rich in starch and low in fruit acids.

So Pepsodent stimulates the salivary flow—Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva—put there by Nature to digest starch deposits that cling. It multiplies the alkalinity of the saliva—Nature's neutralizer of the acids which cause decay.

These are natural results, but modern diet often fails to bring them. This tooth paste brings them, at least twice a day.

Note the white teeth

Note the glistening teeth you see. Ask how people get them. You will find, we think, that most of them are due to Pepsodent.

But this is more than a question of beauty. Those whiter teeth mean cleaner, safer teeth. To young and old they mean better tooth protection.

It means more to children than adults. Young teeth are most easily attacked. Very few children escape. So dentists advise that Pepsodent be used from the time the first tooth appears.

Let one person try it in your home. Then show the results to all.

You'll quickly see

The Pepsodent results are very quickly apparent. Some are almost instant. A ten-day test is usually convincing.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects.

The test will be a revelation. The book we send will explain each new effect. Then judge by results, and their scientific basis, what is best for you and yours. Cut out the coupon so you won't forget.

WILL TOUR MEXICO.

LOUISE GLAUM LEAVES TODAY FOR THE SOUTH.

By Grace Kingsley.

Louise Glaum is leaving this morning for Mexico City. No, she isn't eloping with anybody and she has paid all her bills and everything like that.

The reason, she says, is that she desires to spend a vacation in some place that isn't a bit like this country. Not that Miss Glaum doesn't love her country. She does, but she feels that she will be refreshed by going to a land where she will see new people and hear a new language. Of course, a number of social fetes are being prepared for her in the capital.

Incidentally, Miss Glaum expects to meet his nibs, the noted bandit, Villa. Mr. Villa has, indeed, gone so far as to say he would like to meet Miss Glaum, and now that he has reformed and lives in a regular house among the tame and gentle kine and sheep, she says she doesn't believe she will be a bit afraid of him.

"Why should I be afraid?" demanded Miss Glaum whimsically. "Why should I think Villa would want my life, when he has taken so many? I wouldn't be so conceited as to think he'd care anything about my poor little life."

"But he's a cave man as regards wives," I said.

"Is he?" asked Miss Glaum. "Well, that does sound interesting. But I do hope that he doesn't take a fancy to me."

Miss Glaum expects to be away about three weeks. She doesn't speak Spanish, but is taking her grammar along with her to study on the train and expects to learn enough to order chile beans and tell the natives that she doesn't approve of bull fights by the time she reaches her destination.

She has friends in Mexico City, an American couple, who have promised to guide her to all points of interest in the land of the Montezumas.

Accompanying Miss Glaum will be her maid and her cameraman, Charles Stumer, who has photographed several of her latest picture dramas. Because, as Miss Glaum explains, nobody can tell what interesting things may happen to her and a cameraman would be much more useful than a publicity writer at such a time in a foreign land, where you can't speak the language.

Miss Glaum's pictures taken yesterday to use in connection with her passports, and she was in such a hurry that, by the irony of fate, she, who has had hundreds of beautiful photographs made, not to mention motion pictures, will have to content herself with some very funny looking pictures, taken at a funny little place, following a weary some day when she had had no chance to freshen up. She is quite sure, she says, that if anybody looks at them without seeing her first they will think she is an escaped convict or something of that sort.

When the star returns she will prepare to get ready for her next photodrama, on which work is to be begun within the next five or six weeks.

And while we're on the subject of Miss Glaum's pictures, allow me to announce that her latest feature, "Love," comes to the Symphony next week.

Lloyd Hughes Announces.

It is expected that Lloyd Hughes and Gloria Hope will be married sometime in June, though Mr. Hughes said yesterday that it was possible the wedding would be postponed until July.

In the meantime Mr. Hughes has bought a lot in Hollywood, and he and his fiancee are spending many pleasant hours planning their new home which they expect to build.

There's just one thing Mr. Hughes is insisting on and that's a swimming pool, and just one thing Miss Hope is insisting on and that's plenty of clothes closets.

Naturally, that insistence of Miss Hope's is causing Mr. Hughes a little uneasiness, but he hopes for the best. Anyway, there's probably no husband in the world, he says, who will like more to see his wife look nice than himself. So it seems as though all will be sweetness and light in the Hughes household after all.

Vidor Family Bulletin.

And speaking of new homes, King Vidor, picture producer, and his wife, Florence Vidor, who is at present playing the lead in an Ince production, are going to move into their new house on Selma avenue, in Hollywood, just as soon as ever they find a little time from their professional duties to oversee the painful process of moving.

The house is a handsome as well as a homelike place, and the grounds are to be picturesquely set out, with a tiny Japanese tea garden as a feature.

One other big cause of thanksgiving has Mrs. Vidor. She finds that a perfectly astonishing thing happened to baby Suzanne. The youngster, who was supposed to have knocked her little teeth down her little throat when she tripped and fell a few weeks ago, proved that she had great powers of come-back by producing those same teeth safe and sound, for they jammed up into her gums instead.

So there's another famous one in the Vidor family, little Suzanne now claiming the limelight by reason of having performed a feat never before known to dentistry, says the dentist in attendance on the case.

May Allison Retorts.

It's just no use your trying to get ahead of May Allison. A male admirer of Miss Allison's at presented the Metro star with a pup which it was claimed at the time by the donor belonged to the tiny Chihuahua species. But it just grew and grew, until it attained almost collie proportions, a fact which Miss Allison brought to the attention of the giver.

"But I know it's a Chihuahua," he kept saying, "I saw its father, and he was only eight inches long."

The last time the young man made protestations regarding the dog's father, Miss Allison exclaimed rather wearily:

"Oh, all right—but I guess he was the dog's stepfather!"

Alice Lloyd's Visitors.

You just can't be too careful whom you meet in social life. Anyhow that's what Alice Lloyd, Orpheum star, thinks. You see while she was in Bakersfield a somewhat heavy-set gentleman one day made his appearance at the theater, saying he was an Englishman, and craving to be presented to his countrywoman.

Miss Lloyd graciously consented. He came to see her in her dressing room, and turned out to be the town's very best butcher.

The other morning early there came a tap at her apartment door, just as she was getting her beauty sleep, and there stood Mr. and Mrs. Butcher and two little butchers.

IT'S :: NEEDLESS :: TO :: REMARK.

She's Beauty Spot in "Trust Your Wife."

Katherine MacDonald,
Who is appearing in a clever stage-play adaptation this week at Kinema.

They all stayed and had breakfast with her, in clubby fashion, but the trouble was, the gentleman had to adjust his false teeth, which, he explained he really thought weren't necessary, but that his wife had insisted were "genteel" at least in public.

"He dragged a big package out of his pocket, and just as we sat down clamped those teeth into his mouth. We had tea and toast and at the end of the meal, he stepped delicately to the corner of the room and took them out again with a great click —give you my word I thought he was heaving up his heart.

"Then he turned around and glared wrathfully at his wife: 'Don't see no use to the bally things,' he exclaimed,' specially when there's naught but tea and toast!' "

Anita Stewart Buys Home.

That Anita Stewart has finally decided to become a permanent Los Angeles resident is evident from the fact that she has just purchased the magnificent Frederick Anthony Klamp place at Franklin and Vista streets in Hollywood.

The star's new residence, said to be one of the most beautiful homes in Southern California, is surrounded by more than an acre of ground rich in fruit trees, flowers and other triumphs of gardening.

As Miss Stewart is too busy at the Mayer studios filming "The Price of Happiness," at the moment to give her attention to the arrangement of her new home, it is expected that she will not take actual possession until early in May.

STRONG BUT ROUGH IS NEWEST PLAYLET.

Arthur Norbury and Marion Gould open the extended bill of fare (theatrical, not gustatory) at the Ambassador this week, giving us two "society dances" of much grace and charm. Then follow Raymond Paige and Pryor Moore in a duet, "La Paloma," played on two violins—a delightfully sympathetic rendering. Then comes "The Pool Room," a playlet, preceding "Sowing the Wind," a motion picture.

"The Pool Room," written by Charles E. Wildish, is given by the friendly coterie of actors known as the Ambassador Players, and is a little slice of drama sugared thick with a moral that makes it less harmful than the extremely naughty playlets lately produced at the hotel theater, though by no means more palatable.

There are no women in "The Pool Room," of course, but a lot of bad young men, one of whom shoots a man in the course of the story, while another, now a physical, mental and moral wreck through remorse, shot only a few days before. The derelict saves the more recent murderer by assuming his crime, and then cheats the detective by taking an overdose of "coke."

The situation is dramatic enough, but there is no finesse in the handling of it by the various actors. The author himself, however, in the role of Bill Crooks (a vile name for a hold-up man,) does some powerful work; he really does look and act like the wreck he portrays.

Anita Stewart has the leading feminine part in "Sowing the Wind," which was taken from a story by Sidney Grundy, who had some reputation as a playwright, though known as a great borrower, something like a generation ago.

"Sowing the Wind" may have been a novel—as to that I cannot say. It couldn't have been a very good novel, certainly not a novel novel.

The screen version, at any rate, is neither good nor novel. And it is unconscionably long. It should have been cut here, there and everywhere, so that we could have arrived, without too much fatigue and ennui, at the genuine human drama of the thing, which is toward the end.

All the rest of it is unreal and unconvincing, and the actors, perforce, give it in an unconvincing way, with one or two exceptions. Miss Stewart herself not being among them. She lacks warmth, and only occasionally does she wake to life in the role of Rosamond Athelstone, a girl who graduates from a convent to the stage.

Mr. Grundy cannot be accused of neglecting any possible complication in his plot. We are driven from pillar to post, and then back again, and when we stop to rest we are ruthlessly ordered to move on. We finally do get somewhere, and the denouement, as I have intimated, is really one that is worth while.

Until that arrives all the people are puppets, all the scenes are but an empty show—mere motion pictures.

Yet there are genuine actors in "Sowing the Wind," among them being Myrtle Stedman, whose fine talent for emotional work is not quite wasted on Baby Brabant; Ralph Lewis, William V. Mong, Joseph Swickard, Ben Deely and James Morrison, the young hero who nobly refuses to debauch the girl he loves.

RADIOS.

MORE FOREIGN FILMS.

THREE ARE PROGRAMED FOR EARLY SHOWING HERE.

By Edwin Schallert.

Having already heard a barrage of reports concerning the greatness of foreign productions, the local public is shortly to see just what damage has been done by the arrival of such features as "The Cabinet of Dr. Caligari," "Deception," and "Gypsy Blood." All of these are scheduled to arrive on the screens here some time within the next month.

"The Cabinet of Dr. Caligari" will probably display its futuristic thrills week after next at the California Theater, it being a Goldwyn release. This picture is said to outdo even Poe himself in the gruesomeness of its interest. Futurist art has become more or less familiar to the public, but "The Cabinet of Dr. Caligari" seems to represent the first attempt to achieve similar effects in a film theater.

Famous Players-Lasky exchange announces the early release of "Deception," the story of Henry VIII and Anne Boleyn. The New York showing was recently reviewed in The Times by Harry Carr. The feature was directed by Ernest Lubitsch, who made the spectacle "Passion," and the forthcoming production apparently affords similar sensational effects, plus a fine historic background and some very unusual acting. Henny Porten, a star new to the public here, portrays the leading feminine role.

"Gypsy Love," a Pola Negri picture, based on the story of "Carmen," is also booked for early release here on the First National program.

DREYFUS RECITAL ATTRACTS AT GAMUT.

Again proving her right to popularity and artistic success Estelle Heartit-Dreyfus, but recently returned from a trip around the world, attracted an audience that was a compliment to her intellectual finesse and her natural gifts, at her annual concert last night at Gamut Club Auditorium. Both in its numbers and the quality of its appreciation did her public signify its delight in the opportunity of hearing her in the familiar songs and in the new.

While not typically a purpose program, the numbers were selected in the singer's capable manner, classified according to their particular sources, as a rule national. The first part was given over to the request songs and to the new Spanish numbers that Mrs. Dreyfus procured while in the land of Castile. The second part was devoted to the Russian numbers. Here she shared the public approval with Ariadna Roumanova, the composer-pianiste.

Several of the Spanish songs, in fact most of them, were dedicated to Mrs. Dreyfus, and she rendered them with the authority that throws light on their beauty and their meaning. They are all songs of the people, you might say, and as such full of color and rhythmic strength. The idealizations have kept much of the original primitive spirit, and such numbers as "The Wayfarer" and "The Driver" were full of native idioms and finely descriptive.

Mme. Roumanova's songs presented some very charming effects, as given by Mrs. Dreyfus. Especially attractive were these numbers in their modern characteristics, I find, though, in Mme. Roumanova's piano numbers a lack of that perfected detail, and compactness which should mark a finished composition. It would seem that her work could be polished with better effect, and with more variety added to the harmony.

The Russian songs by Gretchaninoff and Moussorgsky were vivid in their picturing of Slavic life and feeling. The favored Rimsky-Korsakoff number, "The Song of India," which still holds its attractiveness despite the fact it is played everywhere, was encored. The request songs all proved a pleasant introduction.

In all of her numbers Mrs. Dreyfus's well-modified dramatic powers, and her enthusiastic spirit were both convincing and luminous. Her voice, while not quite perfect in its clarity at times, fully comprehended the lyric richness of her selections.

The accompaniments by Ariadna Roumanova and Grace Andrews were very satisfying. Both in her presence and in her style of playing Mme. Roumanova captivated her audience.

Imaginative Music.

Offering a program of "Dreams, Visions and Imagination," the Grauman Orchestra presented its regular popular concert under Misha Guterson's baton Sunday morning at Grauman's Theater. The numbers were largely drawn from favorite ballet music, including the "Imaginary Ballet," by Coleridge-Taylor; the "Waltz Dream," by Strauss; the "Danse Macabre," by Saint-Saens, and the "Dance of the Hours," by Ponchielli.

In addition Mendelssohn's "Midsummer Night's Dream" music and the "Vision" by Tschaikowsky were presented, thus fulfilling the theme of the program.

Soloist was Mme. Anna Sprotte, distinguished and popular mezzo soprano, who sang "My Heart at Thy Sweet Voice," by Saint-Saens, and "Dreams," by Wagner.

In New Comedy Series.

Irene Dalton, formerly with Christie comedies, has been signed to play in the Hamilton-White fun features. She will support Lloyd ("Ham") Hamilton in his new series.

Desmond in "Hiawatha."

William Desmond is to take part in a pantomime version of the "Hiawatha" story, to be staged as a gala performance during the convention of Federated Music Clubs, to be held in this city beginning Monday. The "Hiawatha" presentation will take place Wednesday evening at Trinity Auditorium. A number of prominent singers and actors are announced to appear.

PICTURE SOCIETY TO HOLD BANQUET.

The Ethical Motion Picture Society of America will give an informal dinner to its charter members and their friends Saturday evening at the Los Angeles City Club, Chapman Building. The committee in charge has arranged entertainment. Lincoln Hart will be the toastmaster and will introduce for short talks Rupert Hughes, author; Hobart Bosworth, the screen star; Harry A. James, director of social welfare in the United States Army, and Edward Langley, art director for the Douglas Fairbanks Productions.

At this dinner the opening gun will be fired in a campaign of education to promote plans for an international convention to be held in Los Angeles early in 1922. The society will have representatives here from its chapters throughout the United States to meet with the men and women in the motion-picture industry for the purpose of bringing the motion-picture public in closer relationship with the industry.

The Ethical Motion Picture Society of America, by a resolution adopted, opposes the closing of clean and wholesome motion-picture exhibitions Sunday, and admitting that there are elements in motion pictures which can be cut out, but in the main the motion picture of today is a great stimulant, comfort and inspiration which should not be undervalued.

...'' GREETED
...Y PRESIDENT.

...Writes 'Associated Press Gathering.

...V. Davis is Speaker at Luncheon.

...ation's Aim Lauded as Great One.

[BY A. P. NIGHT WIRE.]

...YORK, April 26.—A letter ...dent Harding bespeaking ...ance of the lofty motives ...ted American newspapers ...ts war was read today at ...l luncheon of the As... Press at the Waldorf-As... He expressed the hope that ...nistration would be able to ...ot retain the lavish measure of good will and confidence accorded it thus far.

Frank B. Noyes, president of the Associated Press, pledged support and sympathy to President Harding in the great tasks he is confronting and gave the only toast offered on these occasions: "The President of the United States."

The guest of honor at the luncheon, which was held in connection with the annual meeting, was John W. Davis, formerly Ambassador to Great Britain, who made his first appearance before the members as general counsel for the Associated Press.

VIEWS OF DAVIS.

Foreseeing that foreign policy must become the most important factor in our national life, he gave personal views without, he said, desiring to arouse controversy. He suggested that the constitutional requirement of a two-thirds vote in the Senate to ratify a treaty be abrogated in favor of a majority vote, and that diplomatic and consular agents be compensated adequately.

In beginning his remarks, Mr. Noyes sounded an optimistic note, saying:

"It is in a troubled world that we meet today, but least of all is it a time for us to indulge in pessimism.

"The rising sun as it reaches in its turn each vexed and burdened country on this vexed and burdened globe, is still a rising sun, and we hope and believe that each sunrise will find a world a little more tranquil, a little more at rest. This betterment will not come automatically, though. It must come by human effort; in that effort this nation of ours must play a great part.

"It seems to me that the people of the United States are singularly united in cordial support of our President, in full confidence that he will find the right path for us to follow in this world-wide welter of confusion.

"I give you the only toast it is our wont to offer on these occasions: The President of the United States, Warren G. Harding."

PRESIDENT'S LETTER.

The following letter from President Harding was read:

"Dear Mr. Noyes:

"I would be very grateful if on the occasion of the annual luncheon of the Associated Press you would express to the gathering my great regret that public engagements make it impossible for me to accept the invitation to be present. The opportunity to meet so pleasantly a company of fellow newspaper men such as will there be gathered, presents a real temptation to play truant and join you; but it seems quite impossible.

"As a newspaper publisher I am disposed to arrogate to myself a bit of special qualification to judge the service that the journalistic press has rendered to our country in the difficult period through which we have passed, and which is not yet ended. I know how earnestly and effectively the press tried to hold up the hands of all who were carrying forward our nation's activities during the war. On the other hand, my service in public life gave me some special insight into the relations between the government and the instrumentalities of publicity. No more unqualified, intelligent and patriotic service was rendered to the nation, and the great cause, than that so freely given by the newspapers. Looking back upon it as one of the chief assets on the side of the national morale, I can bespeak a continuance of the lofty motives that inspired it, and of the generous, considerate, helpful attitude.

"The world and our own nation have yet manifold onerous problems to solve and burdens to bear. I know that among those intrusted with national administration there is the ardent wish to serve with whatever of ability we may possess, and without any reservations in behalf of partisanship or personal interest. Nothing would give me more assurance at this time than to know that the administration would be able to deserve and retain the lavish measure of good will and confidence that has been accorded to it thus far. Mutual tolerance and moderation will, I am sure, be amply repaid in accomplishment for the good of the country we all love and wish to prosper.

"Most sincerely yours,

"WARREN G. HARDING."

DAVIS'S ADDRESS.

After the President's letter was read, Mr. Noyes introduced Mr. Davis. Mr. Davis said, in part:

"It takes an experience in public life to drive home the vital connection between governmental policy and the daily news. On the personal side, of course, politicians shrink from publicity, even as the modest flower shuns the sun, and although sometimes they succeed in overcoming their aversion to the limelight, it is not without a struggle. But the essential and indispensable thing when any line of action is proposed is to get the facts to the people. That done, the majority under our theory of government must decide, and I, for one, believe they can be trusted to decide with wisdom.

"Naturally, in view of past and present events, I am thinking at the moment in terms of the foreign relationships of the United States. To a large and increasing extent these lie in the keeping of the daily press. History, I think, will show that occasions are rare when those in charge of foreign relationships can blaze out an independent path. In the words of Lincoln, they do not control events, but are controlled by them, and they must adapt their courses to events as they unroll and to the public opinion of those whom they are called upon to serve.

NO DISTORTED FACTS.

"If this opinion is fed with distorted facts, unworthy suspicions or alarming rumors; if every careless utterance by thoughtless and insignificant men is to be given prominence in print; if every casual difference of view is to be magnified into a crisis, sober judgment and deliberate action become impossible. It is far easier, as most of us know, to raise a storm than to quell it.

"It is a good omen that American newspapers unquestionably are giving more space to foreign news than in former times, and much more space proportionately than are their foreign colleagues. Perhaps at no time in our previous history was it more necessary that we should accurately know and understand what is passing in the rest of the world.

THREE PROBLEMS.

"This is neither the time nor the place for any discourse on American foreign policy. It is clear, however, that among the problems which beset at the moment this anxious planet, three stand easily in the front rank. The first of these is the German indemnity. Until this subject is removed by rational agreement from the field of controversy there neither can be nor will be any return to normal conditions of trade and commerce, and no permanent return to international peace.

"The second is Russia, where 178,000,000 people, occupying some of the most fertile areas of the globe, are slowly sinking under the weight of an intolerable despotism into political and social anarchy. It is a catastrophic process which outside interference is powerless to affect, but whose world-wide results cannot be computed.

"The third undoubtedly is America, whose attitude toward the problems that have followed the ending of the great World War still awaits definition, although two years and a half have passed since the guns were stilled. What that attitude is to be America alone has the right to decide, but the rest of mankind is well within its rights in calling upon us for decision."

SUB BASE OFFER LOSES IN HOUSE.

AMENDMENTS ON SITE AND APPROPRIATION DEFEATED AS LEGISLATION.

[EXCLUSIVE DISPATCH.]

WASHINGTON, April 26.—Amendments offered to the naval appropriations bill by Congressman Osborne providing for acceptance of Los Angeles' gift of the site and for the appropriation of $1,000,000 for development of the naval submarine base at San Pedro Harbor were defeated in the House today on objection of Congressman Madden. It is believed, however, that the items will be restored by the Senate committee when the bill is reported out to the Senate at an early date.

Objection was based on the contention that it was legislation attached to an appropriation measure. It was sustained by the Speaker. In speaking before the House, Congressman Osborne pointed out the need of adequate defenses on the Pacific Coast and cited the Helm report. He declared the site was given through the generosity of the city for national defense.

Mr. Osborne has introduced a bill in the House increasing the limit of cost for a Federal building at San Pedro, from $60,000 to $250,000, also one authorizing an appropriation for the purpose of purchasing a postoffice site at Venice not to exceed $25,000; another provides for an appropriation for the purchase of a postoffice at Santa Monica not to exceed $25,000.

BIBLIOPHILE RETURNS WITH RARE BOOKS.

PHILADELPHIA ENRICHED WITH 600 MANUSCRIPTS PURCHASED IN EUROPE.

[EXCLUSIVE DISPATCH.]

PHILADELPHIA, April 26. — A collection of 600 rare books and manuscripts bought at a cost of $1,000,000 has been brought to this city by Dr. S. W. Rosenbach.

Dr. Rosenbach spent several months in both England and France purchasing the rare old volumes at various auction sales and from private collectors. The bibliophile pointed with interest to the fact that in England he had obtained some of America's oldest literary works.

"One thing that impressed me particularly in the European rare-book market, which, by the way, is very brisk," said Dr. Rosenbach, "is the fact that some moderns are receiving considerable recognition among collectors. For example, the first editions of Joseph Conrad and Arnold Bennett are selling for about 100 times what they brought when they came out."

WILL RETURN MEXICANS.

[BY A. P. NIGHT WIRE.]

FORT WORTH (Tex.) April 26.—Fifteen hundred Mexicans had been listed today for deportation because they could not get work in the United States. The refugees are being cared for by local charity organizations.

CAPPER-TINCHER BILL INDORSED BY FARMERS

WITNESSES DECLARE GRAIN GAMBLING IS MAKING CROP OF BOLSHEVISTS.

[EXCLUSIVE DISPATCH.]

WASHINGTON, April 26.—The Capper-Tincher bill to abolish speculation in grain was strongly indorsed today by representatives of farmers' organizations and by Congressmen from grain-growing States.

L. E. Potter, representing Minnesota farm organizations, told the committee that "dissatisfaction over market conditions was producing Bolshevism among the farmers in the northwest" and declared that they wanted "the principle of gambling in farm products put out of business." He stated that the State of Minnesota had enacted a law against grain gambling which would go into effect in July. The only objection he had to this law, he said, was that it did not go far enough.

Representative Strong of Kansas, appeared as a witness before the committee in behalf of the bill. He declared that "gambling in foodstuffs is a national crime" and said that the farmers of Kansas "realize that hedging is a curse to the country." Representative Dickinson of Iowa, who also appeared as a witness, urged the committee to confine the scope of the bill to the prohibition of hedging.

Representatives of interests opposed to the bill will be heard tomorrow and Thursday.

WASHINGTON BELIEVES HAYWOOD IN RUSSIA.

[BY A. P. NIGHT WIRE.]

WASHINGTON, April 26.—"Big Bill" Haywood, former I.W.W. leader, under sentence in the Federal prison at Leavenworth, Kan., "is in Russia without a bit of doubt and is not likely to return to this country," according to advices received by the Department of Justice, Attys.-Gen. Daugherty said today. He is reported to be working as a sort of general manager of employment activities in a Communistic organization.

In view of the existing relations between this country and Russia, Mr. Daugherty said, his department could not get Haywood.

WOMAN MADE OFFICER OF NATIONAL GUARD.

[BY A. P. NIGHT WIRE.]

SANTA FE (N. M.) April 26.—Mrs. T. H. Baca, wife of former Adjt.-Gen. James Baca, today was commissioned by Adjt.-Gen. Harry R. Brown, to be Assistant Adjutant-General, with the rank of major in the New Mexico National Guard.

She is the first woman National Guard officer in this State and it is believed, in the country. She has been a stenographer in the Adjutant-General's office and was made assistant by reason of her knowledge of military matters.

URGES BILL AGAINST GRAIN GAMBLING.

[BY A. P. NIGHT WIRE.]

WASHINGTON, April 26.—Laws recently enacted in Minnesota to prevent gambling on grain exchanges and to provide "open markets" were described today by L. E. Potter, president of the Minnesota Farm Bureau Federation, before the House Agriculture Committee at hearings on similar measures proposed in Congress.

Mr. Potter urged the committee to report some bill which would prevent "gambling in the food products of the nation."

DENBY ASKS CASH FOR WAR PICTURES.

[BY A. P. NIGHT WIRE.]

WASHINGTON, April 26.—Secretary Denby asked Congress today for $25,000 for use in obtaining an historical pictorial record of the American fleet in foreign waters during the war.

Should the money be provided, the Secretary said, Burnell Poole, an artist, would be engaged to do the work.

Healthy Young Womanhood

THE tendency to constipation begins with girls as they approach maturity, and that is the very time the mother should watch that the important function of daily elimination is regular and normal.

Many thousands of mothers who have daughters will tell you they give only Dr. Caldwell's Syrup Pepsin. A teaspoonful is sufficient to relieve constipation and its commoner symptoms such as headache, bad breath, biliousness, loss of appetite and restless sleep.

Syrup Pepsin is a compound of Egyptian Senna and other simple laxative herbs with pepsin and pleasant-tasting aromatics, and a sixty-cent bottle is enough for many months. Eight million bottles were bought at drug stores last year, the largest sale of the kind in the world.

Dr. Caldwell's Syrup Pepsin has been on the market thirty years and there must be genuine merit behind it to develop so large and steady a sale. Buy a bottle today and you will quickly see why it is so popular.

TRY IT FREE

Send me your name and address and I will send you a free trial bottle of my Syrup Pepsin. Address me Dr. W. B. Caldwell, 513 Washington St., Monticello, Ill. Everybody now and then needs a laxative, and it is well to know the best. Write me today.

Valparaiso Students Deny Red Accusation.

Trustees Willing to Take the President's Resignation.

Stricter Policy Outlined for University.

[EXCLUSIVE DISPATCH.]

VALPARAISO, (Ind.) April 26—Many of the students and faculty of Valparaiso University today resented President Hogdon's statement alleging Bolshevism and Communism in Valparaiso University and fostered by its faculty. It is understood that the trustees were perfectly willing to accept Hogdon's resignation. It is said the trustees have elected for temporary president and vice-president, Prof. John E. Roessler and A. A. Williams, who have been professors here for many years.

REITERATES ACCUSATIONS

President Hogdon sent his resignation yesterday to the trustees and today he gave out a written copy in which he repeats the accusations of Bolshevism and Communism in the Valparaiso University and their being fostered by its faculty.

He also says: "Valparaiso University is one of America's greatest potential assets. It should offer opportunity for the expression of all the great ideals connected with the development of university life in America. For many years Valparaiso has stood for the best in American manhood and womanhood, denying full opportunity to no one knocking at its doors."

He closes: "A full expression of the vision I have for a great American educational institution seems impracticable and I therefore tender my resignation to take effect Aug. 1, 1921, and respectfully request a leave of absence, the period to be determined by you sufficient to prepare for work in other fields of activity."

Jack Pierce, president of the students' council, and George W. Stimpson, who were dismissed, have been reinstated.

The Federal vocational board has a committee here today inspecting the university with a view to sending several hundred more soldiers here.

It is said the trustees announced today the future policy of the Valparaiso University will follow the plans laid down by its founder, S. B. Brown, and his partner, O. H. Kinzey. This is taken to mean that dances and fraternities will be discouraged and games will not be invited with outside schools.

Dancing Ordered Stopped.

[BY A. P. DAY WIRE.]

SAN FRANCISCO, April 26.—Dancing in the cafes of San Francisco's once famed "Uptown Tenderloin" will cease May 1 by order of the Police Commission.

FRANCE CERTAIN TO SEIZE RUHR.

Briand Given Vote of Confidence After Speech.

Germans Must Pay Billion by May 1 or Suffer.

Action May Make Nation the Great Power of Europe.

(Continued from First Page.)

government's view of the German terms. The French declare their belief and hope that when Briand replies to President Harding that the offer cannot be entertained, America will no longer even consider transmitting the text of the offer to the Allies officially.

The chief French criticisms of the German offer are:

That the actual value of the 50,000,000,000 gold marks cash is less than the 226,000,000 gold marks demanded by the Allied powers payable in installments over forty-two years unless the annuities are spread over something like 100 years at the stipulated 4 per cent.

That German property given as security for payment is not mortgaged to the Allies, but the participants in the proposed international loan.

FRANCE WILL ACT.

Even though these property guarantees may seem eminently acceptable to America the arrangement is one which France will not admit for a moment in her present state of mind. She is prepared to let the Allies go on discussing reparations, but in any event she expects and intends to act on May 1. Regardless of whether Germany is prepared ultimately to pay her war bill, she has, from the French point of view, failed to deliver the 20,000,000,000 gold marks due by May 1. This is sufficient justification for action, to the French mind.

Admiral Grasset, chief of the French naval staff, is now taking part in all meetings of the French war councils and the government is carefully working out the naval aspect of enforcement measures against Germany.

No doubt is felt in Paris that Great Britain will support France absolutely. In the Chamber of Deputies Premier Briand said that he and Lloyd George had agreed to the occupation of the Ruhr Valley if the German offer that was being transmitted to Washington was unsatisfactory.

WOULD BE TOO LATE

It is hoped that the United States has no intention of intervening in the controversy but even if the Harding administration desired to do so action now would come too late to block French military action. Everything points to the expectation that rather than risk letting the the United States dictate the course of events in Europe, Briand and Lloyd George will compose their differences and take quick action.

In high French circles it is said there is a chance that the United States may want to have a representative at the next meeting of the Allied Supreme Council but the time in which arrangements for such representation must be made is now getting very short.

It may be said frankly that after many months of waiting and at the moment when France is on the point of moving her armies, this country has no desire to see satisfactory proposals coming from Germany. The settlement of the reparations question on the basis of an international loan at some figure not too high to be payable, might mean that Germany a few years hence would again become wealthy and strong.

France would then have to give up all hope of controlling and possibly possessing the great center of German industries that is now almost within her grasp. Alsatian iron mines, Ruhr factories and coal would make France the most powerful nation in the world. She cannot be expected to renounce such a dream just because America may consider some other arrangement less troublesome. Briand can do that no more than Clemenceau could accept Woodrow Wilson's idealistic ideas in the framing of the treaty of peace.

CONSIDER OWN INTERESTS.

The United States may consider the present German offer as representing more or less of a real effort by the Berlin government to do justice to their war bill, but Lloyd George and Briand are not likely to prefer American opinion to what they consider their interests.

Lloyd George undoubtedly is apprehensive of the strong position which France would assume if she controlled the Ruhr industries, but French policies in the Near East and elsewhere have been so successful that the British Premier cannot easily resist aligning himself with the French. In the circumstances he is obliged to support France and devote his greatest efforts to arranging to do so on the best possible terms.

As for American intervention Premier Briand's statement to the Chamber may be taken either as an expression of confidence that the United States will refuse a favorable opinion on the German offer or as a declaration to America that she must keep her hands off in the present situation. He said:

NO MORE WORDS.

"No more words; we have too much confidence in the loyalty and perspicacity of the United States to doubt whether they understand us or to believe that they would do anything that would run counter to our interests. We know that today will take steps without knowing beforehand that it is agreeable to us. All our dispositions have been made for the time of reckoning."

There was prolonged applause from the members. The Premier appears to say that America must not declare these German proposals worthy of discussion unless she has satisfied herself that France also takes this view.

SIMONS GIVES ALIBI.

[BY CABLE AND ASSOCIATED PRESS.]

BERLIN, April 26.—Speaking in the Reichstag today with regard to reparations, Dr. Walter Simons, the Foreign Minister, declared that as the Reichstag had regarded Germany's offer to the Allies at the recent London conference too high, the members could not take the new offer sent through the United States on the basis of an increase over the previous German offer, but only on a different basis.

The neutral experts, Dr. Simons continued, unfortunately had overestimated Germany's capacity to pay. He said he had not sought mediation by neutral governments, nor had he altered his opinion of the demands made by the Allies at Paris since the London conference.

The Foreign Minister admitted that he hoped he could come to an understanding direct with France, but that the feeling there was such that he had been unable to retain that hope. Therefore, there remained only one power to turn to, neither neutral nor one of the Allies, and that was the United States.

Another power, he added, had offered its good offices, but its efforts were balked by the indiscretions of the German press. So far he had not allowed proceedings to be taken against the offending newspapers for high treason, but he declared he knew pretty well "why in Germany no policy could be followed without somebody spiking the government's wheel."

The Foreign Minister declared it was the government's duty to take its new step, not from fear of new penalties, but owing entirely to the false views entertained abroad regarding the reparations question.

PRAISE FOR AMERICA.

"That step was unusual," he said, "but a great leader, who has acknowledged himself a supporter of the idea of arbitration, can act as arbitrator, especially as he has been advised by a great lawyer and has been intrusted by the people of the United States with the highest judicial office. We have appealed on the principle of justice. Is that cringing before the enemy? In my opinion it is not.

"At present we must yield to the threats of the Reparations Commission. We wanted to put our views clearly, hence we chose this form, in accordance, not with German, but American judicial opinion, and therefore American counsel. I am advised this step will be judged later differently than now.

"When President Harding asked us to make proposals for negotiations submittable to the Allies, this Cabinet was obliged to act in accordance with facts. The note was unanimously approved by the Cabinet and the American answer is awaited any moment."

LOAN IN AMERICA.

The idea of a loan in America, said Dr. Simons, had not been favorably entertained there, but Germany, nevertheless, had made efforts in that direction. He said the question of an international loan would have to be discussed with the Allies and international financiers. He hoped neutrals also would assist. The remnants of the old German financial resources, Dr. Simons continued, would have to be used to relieve the German people of their obligations under the Versailles Treaty.

The Cabinet, the Minister said, had not yet reached a decision regarding France's demand that Germany hand over the Reichsbank gold reserves. He went on to say that the policy of penalties was a policy of force, but there was a limit, the overstepping of which no nation would tolerate, and it was even dangerous to approach the limit. This remark brought loud cheers.

Charging that the French Premier was "smashing" German trade, Dr. Simons exclaimed:

"Even if the French occupy the Ruhr to enslave the workers for years, the German people will yet enter the land of promise and freedom."

MIDDLE WEST NEWS IN BRIEF.

[EXCLUSIVE DISPATCH.]

DENVER, April 26.—The engagement of Miss Ellen Beverly Sharp to Capt. John S. Mallory, son of Gen. Mallory, of Virginia, has been announced.

Mr. and Mrs. Albert Smith returned Sunday after several months sojourn in California.

CHIEF ENGINEER FOR ESPEE LINES RESIGNS.

[BY A. P. DAY WIRE.]

SAN FRANCISCO, April 26.—Announcement of the resignation of William Hood, its chief engineer, and for fifty-four years in its employ, was made by the Southern Pacific Company today. The resignation is effective May 3, when George W. Boschke, assistant chief engineer, will assume Mr. Hood's position.

Some of the engineering enterprises Mr. Hood directed for the company are the Tehachepi Loop, the Lucin cut-off across the Great Salt Lake, the building of the San Diego and Arizona Railroad through Carriso Gorge, San Diego county, and the "S" line through the Siskiyous.

Mr. Hood is 78 years old. He will continue in the practice of his profession.

REDS SEEK TRADE PACT WITH BERLIN.

[BY CABLE AND ASSOCIATED PRESS.]

RIGA, April 26.—Immediate signature of a trade agreement between soviet Russia and Germany is sought by the Moscow government through M. Scheinmann, who arrived here yesterday on his way to Berlin. If possible the convention will be signed before May 1. It is understood to have been empowered to make whatever changes in the original proposals that will be satisfactory to Germany.

It is declared the Bolshevikl will seek to take advantage of the situation in Germany resulting from the Allied reparations demands.

PERU REPORTED TO BE HARD UP FOR MONEY.

[BY CABLE—EXCLUSIVE DISPATCH.]

BUENOS AIRES, April 26.—Censored dispatches from Lima indicate President Legula's government is facing serious financial difficulties. Leguia conferred with several bankers last week regarding a loan, but failed to make any arrangements with them. Finally announced that the London Petroleum Company had agreed to advance 10,000,000 soles (normally about $5,000,000) a half of which would be used in defraying the expenses of the celebrations in connection with the centennial of Peru's independence.

SIR FRANK BOWDEN DIES.

[BY CABLE AND ASSOCIATED PRESS.]

NOTTINGHAM (Eng.) April 26.—Sir Frank Bowden, who was created a Baronet in 1915, died yesterday. He was the founder and sole owner of the Raleigh Cycle Company, Ltd. He was born in 1848 andwin 1879 married Miss Amelia Frances Houston, daughter of the late Col. Alexander Houston of San Francisco.

SENATE COMMITTEE TO HOLD RAIL QUIZ.

TAKING OF EVIDENCE WILL BEGIN ON MAY 10 IN WASHINGTON.

[EXCLUSIVE DISPATCH.]

WASHINGTON, April 26.—Investigation of the railroad situation will be begun by the Senate Committee on Interstate Commerce May 10, Senator Cummins, chairman of the committee, announced today after conferring with the other members of the committee. Representatives of the Association of Railway Executives will be the first witnesses to be heard.

Extensive preparations have been made by the railway executives for presentation of evidence as to the operation of the railroads since their return to private control, March 1, 1920. Statisticians employed by the executives have prepared comprehensive statistical studies of the financial operations of the railroads in the last year with a view to showing definitely why they are in financial straits.

After the railway executives have been heard it is regarded as probable that S. Davies Warfield and other representatives of the National Association of Owners of Railroad Securities will appear in support of the Warfield proposal for effecting economies in railroad operation. Railroad brotherhoods also will be heard, and others who may desire to make statements on the railway situation.

CLASHES IN ITALY FATAL.

[BY CABLE AND ASSOCIATED PRESS.]

ROME, April 26.—Several extreme Nationalists, or Fascisti, and Communists were killed, and others wounded in Turin today as a result of a clash between the two factions, says the Turin Correspondent of the Tempo.

NT NEEDS R INFLUENCE.

States Should Stay in Manila, Says Jap.

Sakatani Represents Powerful Interests.

Seek Our Advice on Fleet Renewal Also.

[SPECIAL DISPATCH.]

WASHINGTON, April 26.—Not only should the United States remain in the Philippines, but should exert all its influence in the Orient. This is the view of Baron Sakatani, former Minister of Finance, and now one of the Barons in the House of Peers. Baron Sakatani goes even further. He says that America should be consulted before the Japanese alliance is renewed. Moreover, if the Philippines were granted independence, he says, the United States must stand ready to help Japan if trouble arises.

"AMERICA'S USEFUL INFLUENCE.

"Baron Sakatani represents a powerful influence in Japan, and he is strongly opposed to the armament plan. He believes that an international conference is worth tons of money and going into warships. He says that a better understanding would result from a discussion in reference to a solution of the Philippine question, but he fears that the withdrawal of American withdrawal will lead to Japan's troubles.

"It cannot be known whether independence for the Philippines will be for the best results," he said. "We do not know whether the Philippines have the necessary money for independence and whether they have leaders. If so, it is best for us to grant them freedom, but I suppose for another five or ten years. In this latter event there can be much misunderstanding. It must be made clear to the Filipinos that America's desire to grant them independence when they are ready for it.

"AMERICA TO RESCUE.

"Trouble should arise internally or externally, America would come to the Philippines, then the great Britain and Australia. Japan trouble should arise, Japan would assume the leadership.

"I suggest to Gen. Wood that a better defense for the Philippines is armament. Japan is fortifying the islands between Saipan and the Philippines and others between Formosa and Japan. This is a strategic point affronting the Philippines. These fortifications are a menace for the peace of the Pacific. Great Britain and Japan are so friendly that if the fortifications of each country could get together common table these commissions could be avoided. The Philippines cannot be trusted to themselves cut, and the peace of the Pacific is best assured by America continuing these three powers.

"At the time when the Japanese alliance is about to be renewed or revised, is an excellent opportunity for such a conference. If the alliance is renewed Japan should be consulted, as it has for a clear and definite understanding."

STOCK MARKETS OF VARIOUS CENTERS.

STRAWBERRIES SLUMP SHARPLY.

OTHER LINES HOLD STEADY; LETTUCE AGAIN ADVANCES IN SHIPPING MARKET.

A firm undertone prevailed for nearly all lines of fruits and vegetables on the local produce market yesterday. Arrivals both from the country and by rail were moderate, and under an active buying demand the offerings were moved readily at the level of the preceding day. The feature of the session was the sharp slump taken by strawberries, which dropped $1 per crate. The best stock was ruling around $4 per crate, as compared with $5 of Monday's opening, while regular No. 1 stock ranged from $3.50 to $4 per crate, and No. 2 from $2.75 to $3. Beans and imperial Valley tomatoes were slightly weaker, although the market showed little change in prices for these commodities.

The cariot potato market was again very sluggish, with practically no movement. A few sales of Idaho Burbanks were reported at $2.10 per hundred, while Oregon Burbanks were in slow demand at $2.15 to $2.25 for the extra fancy stock. Other sales were made at lower prices, but the buying demand was very light.

Lettuce advanced under a very strong demand on the part of the shipping trade, prices for iceberg ranging up to $1 and $1.25 per crate, with the higher level predominating in most of the transactions. The demand from eastern markets was very active, and prices in carload lots was slightly higher than sales reported yesterday at $2.25, while wire sales were reported at $2.25.

DAILY MARKET REPORT.

These are the actual prices obtained yesterday by Los Angeles wholesalers from dealers in hotels, restaurants, cafeterias, etc., as compiled by the United States Bureau of Markets. Terms—Cash on the walk:

APPLES—Arrivals past 24 hours, 2 cars California and 1 Washington; 3 cars shipped and 3 broken cars on team track at 8 a.m. Supplies liberal, movement slow, market steady. FIND :: SAVES :: STARVED :: DOG.

Was Slowly Strangling Because of Cord.

[Copyright, Underwood & Underwood.]

Mrs. W. E. Brigham and Shaggy Pet.

The shaggy dog shown in the picture with Mrs. Brigham was taken recently to the Animal Rescue League in Washington to be chloroformed. The owner stated that he would not eat and was slowly starving to death. While the dog was being prepared for the cage a fishing line was found, covered by hair, tightly wound around his neck. The string was cut and the dog at once became active. The officers of the league are taking a great interest in him and he will be kept at the league's home.

ERRATIC MOVEMENT OF PRICES IN GRAIN.

NEWS MIXED, TRADERS BEARISH; GOOD REACTION FROM YESTERDAY'S BREAK.

[EXCLUSIVE DISPATCH.]

CHICAGO, April 26.—With the news mixed and the traders mostly bearish there was an erratic movement of prices for grains and good reaction from the break of the previous day. At the close wheat was ⅛ to 1 cent higher, with July leading. Corn was up ½ cent except for May, which was unchanged, oats were ¼ to ⅝ cent higher, and rye 1¼ to 1⅞ cents higher.

Crop news was mixed with considerable claims of damage from the Southwest, while at the same time there were reports of the most favorable character. The most attractive news of the day either than the export business, which aggregated 4,000,000 bushels for the past two days, was the rumor that the allies had accepted Germany's terms. This brought in buying and made a good advance while later there was a reaction followed by a rally. The market was more disposed to follow the news, like of late but there were periods when it was ignored.

Good buying of May and July wheat was on, particularly the July around $1.03 and under. Trading in July is rapidly increasing and the smallest holder took it and May in a liberal way. There was covering by the sellers on the previous day's break and less selling pressure on the whole. The big export business was understood to be mainly for new crop. Millers were after wheat, but light offerings restricted sales to 25,000 bushels here. Southwestern markets were lower early but reacted and Kansas City closed the same as the previous day while other markets unchanged to 1 cent higher. The report of Japan buying 303,000 bushels, or 10,000 less on the Pacific Coast, was a reflection of undue of a weak spot.

Corn filled to attract the same attention as of late, May is keeping more difficult to trade in and when orders came in their execution frequently caused sharp fluctuations. It was down to 59

NEWS ITEM

Eastern dispatch states shipments of copper during March, 1921, totaled 240,000,000 lbs. against 95,000,000 lbs. for February.

MASCOT OIL

It has been announced that the monthly dividend on Mascot Oil, due about May 20th, has been advanced from 1c to 2c per share. An interesting analysis of this active issue will be sent free upon request.

Equal Reward for Small Savings

A FEW years ago the thrifty man with $100 or $500 could not invest his savings at the interest rates commanded by the richer individual having $10,000 or $50,000 with which to buy bonds.

Today this is changed. The best types of conservative mortgage bonds which were formerly available only to the capitalist are now obtainable in denominations of $100 and $500. And the issuing corporations give the same security with these "small bonds" as with larger denominations.

We are recommending and offering an issue of 10-year 8% Sinking Fund Gold Bonds of the *NEW ENGLAND OIL REFINING COMPANY*, available in denominations of $100, $500 and $1000. at 98 and interest, Yielding **8.30%**.

DAILY TRADE TALK.

Santa Fe Tells Men of Wage Reduction Necessity; Business News.

BY CHAPIN HALL.

The Santa Fe Railroad took a long step toward readjustment at a meeting of officials held in Topeka Monday to consider the absolute necessity of a wage reduction. Assistant Traffic Passenger Manager John J. Byrne yesterday received a copy of the memorandum which was submitted to the committee of the employees, and which reviews the events which have led up to the condition with which the company is now faced.

It is pointed out in this document that the cost of living has been on the downward scale for some months, and that it is obvious that we have entered upon a period of declining prices reflected in the wages in industries other than railroads. The increases in rates granted by the Interstate Commerce Commission, which it was hoped would offset the increase in pay roll costs have not borne their expected fruits. Industrial activity has been slowed up, men have been thrown out of employment and the volume of freight has decreased to an alarming extent.

One of the best ready indications of the business of a railway is the average number of freight cars loaded daily. In the last four months there has been a large decrease in the number of cars loaded on the Santa Fe and received from connecting lines. In the eight months ended Nov. 30, 1920, the average number of loaded cars offered for movement was 4128 per day, and in the next four months, ended with March 31, 1921, the average was 3460 per day, a decrease of approximately 16 per cent. In the months of January, February and March, 1921, the number of loaded cars offered for movement was an average of 3431 per day, against an average of 4188 per day in the same months of 1920, a decrease of 18 per cent. On April 14 the number of empty cars on the Santa Fe was 31,075, which means that approximately 43 per cent of the freight cars owned by this railway, which ought to be earning revenue, are tied up and earning nothing.

From 1917 to 1920 the pay roll of the Santa Fe system increased nearly 116 per cent, the average yearly wages of employees increasing approximately 63 per cent in that period.

At the present time approximately 60 cents out of every dollar that the railroad receives from operation is paid out in wages; the remaining 40 cents is not sufficient to buy fuel and other materials and supplies and pay our taxes and other obligations.

Comparing September, 1920, with February, 1921, operating revenues show a decrease of approximately $6,450,000, or about 25 per cent.

On the basis of annual financial requirements to take care of taxes, fixed charges and other obligations, this railroad ought to have net earnings of approximately $45,000,000 per year, or an average of $3,750,000 per month. The amount of the net revenue required for the three months ended Feb. 28, 1921, was $11,250,000, while the actual net revenue in that period amounted to only $4,113,000, which is scarcely enough to pay for a three months' proportion of taxes and rentals, leaving nothing for fixed charges and other obligations of the company.

Without taking dividends into consideration at all, the Santa Fe system was operated in February at a loss of more than $1,200,000. Not a dollar was earned for interest on bonds or for surplus to carry on business or to sustain the company's financial standing.

In the two preceding months, December and January, owing to the marked decline in business and the abnormal wages, a somewhat similar situation prevailed. In December the net operating income amounted to only $1,124,335, which was barely sufficient to pay interest on bonds, and in January there was a deficit of $35,171. Taking the two months together, there was not sufficient earned to pay the interest on bonds and nothing for dividends or surplus.

March results will probably show some little improvement, but this was affected by cutting down forces, materially curtailing maintenance of way and equipment, stopping expenditures on new work and affecting other drastic economies. Such a precipitate falling off in business as has occurred in the last three months cannot be recalled by railroad men today, and the only remedy for the situation is to reduce salaries and wages.

HIGH SPOTS.

Santa Fe points the way to wage reduction and makes frank statement of the necessity therefor.

Los Angeles investment banker explains that Grand Trunk guaranteed bonds are not in default. Investors relieved.

Phoenix bank depositors agree to accept deferred payment certificates of deposit in effort to avoid a receivership.

Arizona cotton situation is improved. Inquiries increase and price moves up. Growers hope to come out even when the smoke clears away.

Bank clearings in Los Angeles made a sensational jump yesterday, totaling more than $17,000,000, an increase of nearly $3,000,000.

An effort is to be made to sell short maturity State highway bonds.

Hay market is stronger and growers look for an early revival of normal demand. First northern cuttings very light.

Indication of important price reductions is found in reduction of value of exports.

Another version of c.i.f. and what it means to the shipper.

Stock market was irregular and without definite trend.

GRAND TRUNK BONDS.

In recent news items mention has been made of the fact that certain Grand Trunk Pacific Railway of Canada bonds were in default as of April 1, and this has caused some concern among many of the investors in this market who are holders of securities of the Grand Trunk Railway Company and its affiliated branches.

Up to the present time the Dominion government has not taken final possession of the Grand Trunk Railway system, though it is expected that this will be done shortly. Under the circumstances the Dominion government has not felt obliged to advance funds with which to pay maturing principal and interest on any bonds except in such cases where these bonds have actually been guaranteed, principal and interest, by the Dominion government.

The bonds that are actually in default as of April 1 are not guaranteed by the Dominion government.

"So far as we know," said R. H. Moulton yesterday, "the bonds of Grand Trunk Pacific Railway Company, which have been handled in this market, and in which the investors are generally interested, have been only those guaranteed by the Dominion government, and in which instance this guarantee is evidenced by indorsement on each bond. In view of past experience and of the expressed intention of that government, we consider that investors in these obligations, so guaranteed, should feel as secure in their holdings as though they had the direct obligation of the Canadian government."

HAY MARKET.

There has been no material change in the prices of alfalfa hay during the past week, but there have been indications of a return of confidence, which the sales department of the Alfalfa Growers of California looks upon as the beginning of the revival of a normal demand and better markets and business all around.

The same authority says that it is not generally realized how much the farmer is handicapped at present in regaining his purchasing power, not only because present prices are below the cost of production, but by the change in the relation of his debts to his means with which to pay them.

To illustrate, a year ago barley was about $3 a hundred, while last week May barley sold at $1 in San Francisco and Los Angeles. A barley grower who a year ago borrowed $3000 was then borrowing the value of 10,000 pounds of barley, but he finds now that it would take 30,000 pounds of it to pay back the debt.

First cutting of alfalfa in the northern part of the State is very light, averaging about 25 per cent of normal. Heavy dry winds in the Sacramento and San Joaquin valleys are also affecting the grain hay crop.

(Continued on Tenth Page.)

FINANCIAL.

OFFICE OF THE TIMES.
Los Angeles, April 27, 1921.

Bank clearings yesterday were $17,078,064.02, an increase of $2,706,969.98, as compared with corresponding day in 1920.

Liverpool Held in Check by an Easier Tone Here

[EXCLUSIVE DISPATCH.]

NEW YORK, April 26.—According to early estimates, actions issued against May contracts amounted to about 6000 bales.

There was further scattering liquidation of May by Wall street and local traders. But the offerings were promptly absorbed by spot houses against sales of later deliveries, and after opening steady at a decline of 2 to 7 points, prices rallied.

There was probably some selling at the start because of rather disappointing cables which the same local operators regarded as reflecting lack of confidence in an early settlement of labor troubles and war reparations.

Trade advices, however, said the Liverpool market was held in check by an easier tone in American markets, and that there was a continued moderate spot demand, with the undertone firm.

May contracts here sold up from 11.90 to 12.00 cents and July from 12.54 to 12.61 cents, or about 3 to 5 points not higher.

After selling up to 12.10 for May and 12.67 for July on reports that the May notices were being promptly stopped the market eased off from the best under realizing. General business was quiet, but the market showed a steady undertone at reactions of some 5 to 10 points from the best owing to more favorable reports from the goods trade, and the unfavorable weather over Southern selling was less active.

MAY BARLEY STRONGER; OTHER SHIPMENTS DROP

With the exception of slight gains made by the twenty-day and May shipments of barley, the trend of the local grain market yesterday was steadily downward from a week ago. Interest was again lacking, and little support was offered for any of the deliveries during the day. Cash barley showed a drop of 20 cents per ton, while other nearby shipments were unchanged to 25 cents lower. Twenty-day barley moved up 50 cents per ton, and the May delivery closed 25 cents higher. The only sale of the day consisted of a car of transit corn at 92½c.

STRONG SECURITY and HIGH YIELD—

The current rate of French exchange and the necessity of purchasing new equipment for its copper mine at Santa Rosalia (one of the largest in the world) results in the offer here by

COMPAGNIE du BOLEO of 8% Serial Gold Debentures

During thirty-five years of uninterrupted operation, this company, controlled by the Rothschilds and the Mirabeau Banking Corporation of Paris, has mined over 660,000,000 pounds of copper, producing an average annual net income one and one-fifth times this ENTIRE ISSUE.

The company has no other funded, and has always paid dividends on its stock, worth today more than seven times its par value. The company has liquid assets ten times the amount of this issue, EXCLUSIVE of the mine itself; its equipment; 50,000 acres of undeveloped mining property; 1,500,000 acres of grazing land; fifteen miles of railroad equipment; five ocean-going steamships; all of which are carried at value on its books.

The security behind this issue is most exceptional.

Easterners Appreciate this Investment

The advantages of generating electricity by steam are familiar to Easterners, most of whom come from cities served by steam-electric plants.

They know that the saving in power and in the cost of transmission lines, made possible by locating the plants right where the current is needed, usually overbalances the cost of fuel, particularly when cheap coal is available.

OHIO POWER COMPANY
Thirty-Year Bonds, Yielding 7.40%

With its own coal mine immediately adjacent to its main turbine station, the Ohio Power Company is in a position to operate with exceptional economy. When it is further considered that the territory served is unusually rich, with large and diversified industries, the strength of this corporation is apparent.

The present issue of thirty-year, 7% gold bonds is secured by a mortgage on property worth considerably more than the amount of this loan. Careful restrictions have been placed on the further issuance of bonds. At the price quoted, 95¼, the yield is approximately 7.40%. These features will recommend themselves to western as well as eastern investors.

Write, phone or call for the details.

Foreign Exchange

Compagnie due Boleo is a French Corporation operating one of the largest copper mines in the world in Lower California—35 years in operation—and has paid dividends without interruption for 28 years.

The Company is controlled by financial interests that are among the strongest in the world—the Rothchilds and the Mirabeau Banking Corporation of Paris—interests entirely capable of financing the company within themselves.

With the present condition of Foreign Exchange it would be most uneconomical financing for the company to draw on its cash reserve in France to pay for new construction and equipment.

If Foreign Exchange were not against France you would not have this opportunity to purchase this 8% Serial Gold Debenture with unquestioned security back of it.

The company has no other funded debt.

NEW YORK STOCK EXCHANGE

[BY A. P. NIGHT WIRE.]

NEW YORK, April 26. — The stock market was comparatively dull and uncertain in the early stages of today's session, but became more active and irregularly strong later.

Improvement was ascribed to Germany's latest indemnity overtures and the probable success of the Great Northern-Northern Pacific financing.

There were a few conspicuous exceptions to the further advance, notably in the food group, sugars breaking sharply on another cut in the price of refined product and reports of more acute economic conditions in Cuba.

In most other commodity markets price tendencies showed greater stability. An advance was reported in the quotation for lead and the firmness of coppers coincided with a better demand for those and allied metals.

As usual the great part of the day's operations centered in oils, steels and equipments, together with shippings, motors and related specialties. Rails were lethargic at best.

Average prices were at highest levels in the last hour, steels then superseding all other issues at gains of 2 to 4 points. United States Steel moved in a narrow radius, but hardened at the end with a net gain of 1⅛ points. Sales amounted to 865,000 shares.

United States Steel earnings for the first quarter, issued after the close of the session, totaled not quite $32,100,000, this being under general estimates and leaving only a narrow margin over dividend requirement.

Seasoned bonds of the railway division were adversely affected by the more attractive terms of the Chicago, Burlington and Quincy offerings and Liberty issues were heavy with a low record for the registered 3½'s. Total sales (par value) $9,775,000.

HUNTINGTON-HAWTHORNE
INVITATION

You have seen the H & H Leases at Hawthorne—adjoining the STANDARD OIL and UNION OIL—NOW we extend you an invitation to see the HUNTINGTON BEACH LEASES—we will leave daily from this office at 9:30—If you are interested—you will be under no expense for the trip.

One H & H Lease at Huntington Beach is just across the street from STANDARD OIL A-4 1000-barrel well—it is within 145 feet of the Argonaut oil—about to be brought in—it is in absolute proven territory. OUR BIG LEASE on the water front will speak for itself—we start actual operations today on the lease close to STANDARD A-4.

Could anything be more fair than asking you to see the leases at our expense?

Huntington-Hawthorne

20c 20c 20c
20c 20c 20c

HAWTHORNE FIELD—181 acres of leases in this field—
—5 acres in Block 2704 adjoining Standard Oil.
—11 acres in Block 2842 entirely surrounded by Standard Oil leases.
—40 acres in Section 23 adjoining the Union Oil now drilling.
—70½ acres in Section 35.
—55 acres in Section 35.
This Company has two wells started in the Hawthorne Field and will continue their active drilling campaign.

HUNTINGTON BEACH—321 acres of leases in this famous field adjoining the STANDARD and SHELL OIL COMPANY and adjacent to the BOLSA CHICA Well No. 2 location—and S. O. A.-4—1000 barrel well—H. & H. Well No. 3 will be started immediately on the Huntington Beach leases.

CASH 20c—or monthly payment plan 10% down, 10% monthly.

Railroad Stockholders

Of what importance is the decision of the War Labor Board, abrogating wage agreements, to the holders of railroad securities—and what will its probable effect be on the future outcome of this class of investments?

Our newly prepared survey on this subject, which treats this matter fully, also contains lists of railroad stocks and bonds, classified in our order of preference, with respect to safety, yield, and marketability.

This survey should be of much value to investors, and will be mailed upon request.

Ask for No. 21-K.

FINANCIAL AND TRADE REVIEW.

(Continued from Eighth Page.)

Antelope Valley first cutting of alfalfa was also affected by the heavy frosts.

There were 260 tons received on the Los Angeles tracks the week ending April 23, with thirty tons held over as against 600 tons the week before. There were 875 tons received in San Francisco.

Current quotations in the southern part of the State for rabbit alfalfa are $25 per ton; No. 1 dairy, $21; standard, $18; stock, $15. These prices compare with $18 per ton for No. 1 dairy alfalfa in the north, and $16 for standard.

C.I.F. AGAIN.

Referring to an explanation of the shipping designation c.i.f., which appeared in Trade Talk recently, F. W. Heythekker, a Los Angeles importer and exporter throws further light upon the subject.

In Europe, says Mr. Heythekker, when prices are quoted c.i.f. Amsterdam, for instance, we understand that the shipper has included in his quotation the cost price of the buyer, (c.,) the insurance of the goods from factory to port of destination (i.) and the freight from factory to port of destination (f.) and all further charges will be for account of the buyer.

There is some confusion about the term f.o.b. as well in the United States, as American shippers quote f.o.b. factory and f.o.b. ship, whereas in Europe f.o.b. means always that the goods will be delivered on board of the vessel at the port of departure, all expenses for bringing the merchandise from the factory to the ship and loading them into the hold of the vessel being for account of the shipper.

So on f.o.b. quotations the European buyer will understand that he will have to add the freight and the marine insurance to the prices the American shipper offers at and that, unless he has arranged with the shipper to cover the marine insurance for him on all shipments, he will have to take out the insurance policy himself, adding the freight to the f.o.b. price to obtain the amount the goods should be insured for.

If American manufacturers and exporters would use only the above two terms, when sending quotations to European buyers, misunderstandings would be avoided.

LOS ANGELES STOCKS.

The market yesterday was irregular and without definite trend. Some issues were up; some were down, and others were stationary. Tom Reed mining continued to seek lower levels and succeeded admirably in finding them finally bringing up at 92 cents although it was a matter of comment that in spite of industriously circulated rumors of a big falling off in mine clean-up there was no precipitate unloading, 3500 shares representing the entire turnover. United Eastern sold up to 2.80 in the morning, but weakened later in the day and sold off at the close to 2.75, which is exactly where it started. United American gained 2¼ points.

Oils were strong and in fair demand. Delaware Union went to 22.75; General Petroleum to 120.00; Union to 156.00. Republic Petroleum was an exception, the price on this stock breaking at 31 cents. Mascot developed strength and opened at 2.00 over Monday's sales at 1.74. This movement was due to dividend declaration.

Industrials were in good shape. Globe Grain and Milling was firm around 50.00, and Goodyear preferred around 62.00. California Packing Company sold at 59.25, and Los Angeles Investment at 82½ cents. Third Liberties were a quarter higher than on the preceding day, the fourth and fifth issues registering no change.

WOULD SAVE PHOENIX BANK.

From Phoenix comes word of hope to avoid a receivership for the Central Bank, which closed its doors over a month ago. At a mass meeting of 1000 depositors, there was general signing of an agreement to accept for each account certificates of deposit, payable, respectively, in nine, twelve, fifteen, eighteen, twenty-one and twenty-four months from May 1, 1921. The bank had 3900 depositors. All the larger accounts are said to have been signed, but State Bank Comptroller C. W. Fairchild demands 100 per cent participation. Among the largest creditors are bonding companies that have secured several hundred thousand dollars in deposits made by the State, the Maricopa County Road Commission and the city of Phoenix. The bank specialized in cattle loans, though it is understood to have been hit also by the impossibility of realizing on cotton loans.

COTTON LOOKING UP.

Arizona cotton conditions are looking up. Heretofore there has been practically no market for the State's long staple. Now inquiries are coming and sales are reported at prices up to 36 cents at eastern points. There is assumption that the offers are coming from manufacturers who expect to stiffen prices, due to further tariff imposts upon Egyptian importation. There is no profit for the Arizona growers at any price less than 50 cents a pound, but most of them, gathered in tight associations, are hanging on, with expectation of coming out even, before fall.

BANK CLEARINGS JUMP.

Los Angeles bank clearings took a big jump upward yesterday and offered further evidence of the excellent conditions obtaining in this city and vicinity. The total is $17,078,896.02, which compares with $14,172,127.04 for the corresponding day in 1920, and with $6,329,535.07 in 1919.

HIGH SCHOOL BONDS.

An attractive high school issue may be expected soon, the city of Tucson, Ariz., having voted to spend $750,000 for the construction of a new building.

STATE BOND SALE.

Another attempt is to be made this week to sell $3,000,000 State of California 5 1-4 per cent highway bonds. The chief obstacle to the sale of this block lay in its short maturity, the bonds maturing in 1926-1930, inclusive.

An amendment to the State constitution, passed at the last election, provided that the interest rate on State bond issues could be fixed without being submitted to the people, and created a finance commission of three members in whom this power was lodged. It also provided that this rate was to be fixed ninety days in advance of sale.

After the amendment was adopted the Attorney-General ruled that the law required the sale of the early maturities first. As a consequence, the State Treasurer has been struggling to dispose of short maturities, bearing a 5 1-4 per cent interest rate, at a time when the longer maturities might have been sold at par or possibly a little above par.

NEW BRANCH OPENED.

The Central-avenue branch of the California Bank is now occupying new quarters at the southwest corner of Eighth street and Central avenue. Greatly increased floor and window space is afforded over the old location half a block south, and the terms of the sixteen-year lease provide for further expansion when more room is needed. The branch is under the management of J. G. Maulhardt.

HUTTON CORRESPONDENTS.

The New York Stock Exchange, Chicago Board of Trade and New York Cotton Exchange have approved the application of William P. Tebbetts & Co., for quotation service as correspondents of E. F. Hutton & Co. R. B. Dorney has joined forces with the Tebbetts company and the firm will occupy a suite in the Pacific Finance Building.

Besides direct wire service it is announced that a statistical and information department will be maintained.

EXPORTS FALL OFF.

The big fall-off in value of merchandise exported from the United States is due in considerable part to lower prices. We scarcely realize, says a statement by the National City Bank of New York, the reduction in export prices which has occurred in the last few months and the effect of this reduction upon the export trade.

While doubtless a part of the marked decline recorded in the March export figures is due to a reduction in the quantity of certain lines of products exported, the fact that many of the principal factors are now going abroad at practically half the former price per unit of quantity accounts in considerable part for the decline in the total value of merchandise exported.

CALIFORNIA DRIED FRUIT.

[BY A. P. NIGHT WIRE.]

NEW YORK, April 26.—Evaporated apples nominal. Prunes and apricots firm. Peaches quiet. Raisins dull.

SUGAR QUOTATIONS.

[BY A. P. NIGHT WIRE.]

NEW YORK, April 26.—Raw sugar, centrifugal, 4.50. Refined, 6.64 granulated, 6.75@7.00.

If She Were Your Mother?

There is living in Los Angeles an aged lady, cultured and refined, who, bereft of all she held dear, husband, children and prosperity, is alone in the world, not having even near relatives as her years number 94. She is suffering all the pangs of compulsory paltry secluded life. This dear little old lady has a wonderful mind and fully repays anyone for their time with her brilliancy. She is seeking a philanthropically inclined person of means to become her benefactor. Any person having sincere intentions of aiding her will please address a letter to Mrs. V. Steinman, Tasty Products Company, 439 Ord street, Los Angeles.

MAGNANIMOUS STEP IN POLICY.

Taft Declares Ratification of Colombian Treaty Evidence to South America of United States' Desire to do More Than Justice for Good Will.

BY WILLIAM HOWARD TAFT.

The ratification by the Senate of the Colombian treaty is a magnanimous step in our Pan-American policy. It is not true that we initiated or were responsible for the revolution by which Panama secured her independence. That revolution was the normal result of the action of Colombia in refusing to ratify the Hay-Herran treaty, which, by the payment of $10,000,000, was to secure to the United States the right to build the canal.

The Panamanians were naturally intensely interested in the promotion of this enterprise, and there was no nation in the world which would and could carry it through but the United States. The defeat of the treaty, therefore, because Colombia did not secure a greater sum for herself, without regard to the interests of the Panamanians, in whose territory the canal lay, naturally excited their deep resentment and their determination to rid themselves of an association which had never been agreeable.

HAD RIGHT TO PROTEST.

The United States, under treaties with Colombia, had a right to protect the uninterrupted flow of transportation from one side of the isthmus to the other over the Panama Railway, and was not obliged to subject its property to the danger of injury by allowing its use for the transfer of armed forces from Colon to Panama or from Panama to Colon. The railway authorities, therefore, at the suggestion of United States officers, refused to transport either the Panamanian revolutionary troops or the Colombian troops. This doubtless made it more difficult for Colombian troops to resist the revolution; but the United States was well within its rights in this refusal. The number of instances in which its rights had been prejudiced by previous revolutions and attempts to suppress them justified its policy.

The revolution was the unanimous expression of the inhabitants of Panama and was aided by the defection of Colombian troops in the city of Panama and their fraternization with the revolutionists. Back of this legal issue was the great equity which grew out of the world need for the canal and of the juggling, squeezing greed of Colombia in its indefinite postponement of the Hay-Herran treaty under the false pretense that the treaty surrendered the sovereignty of Colombia over the canal territory.

NO PROVISION MADE.

Since that time we have built the canal, and the government of Panama, which was recognized very promptly by all the other nations, has become a full member of the family of nations, but no relations of amity have been established between Colombia and Panama. No equitable provision has been made by which Panama should share the debt of Colombia in the proportion in which that debt was contracted for the benefit of Panama. The people of the various states of South America have been led by Colombian representatives to view with suspicion the acts of the United States in respect to the matter and to regard them as an evidence of its willingness to use overwhelming force to accomplish its selfish purposes without regard to the right of weaker nations in this hemisphere. The opportunity is now offered by the payment of $25,000,000 to remove this distrust, to bring about friendly relations between Colombia and Panama, to satisfy the just claim which Colombia has against Panama for a sharing of her national debt and finally without any admission by the United States of wrongful act on its part, to show its willingness, by a generous gift to Colombia, to remove all cause for bad feeling and to establish amity not only between itself and Colombia, but between Colombia and Panama.

REASONS OF STATE.

These are the reasons of state which have induced the requisite majority of the Senate, including Mr. Lodge and Mr. Knox, both of whom were intimately familiar with all the circumstances and are the last persons, because of their relations to Mr. Roosevelt, to do anything to reflect upon his memory, to confirm this treaty. Its terms will be evidence to all the people of South America of the desire of the people of the United States to do more than justice in cultivating their good will. It is an admirable beginning of a policy, foreshadowed in Mr. Harding's speech at the dedication of the monument to Gen. Bolivar, of bringing us closer to our South American neighbors.

NO PLAN AS YET TO HELP AGRICULTURE.

WHITE HOUSE WORKING HARD FOR HAPPY SOLUTION IS INFERENCE.

[EXCLUSIVE DISPATCH.]

WASHINGTON, April 26.—Although inferences at the White House today were to the effect that some plan to relieve the agricultural situation had been decided upon by the Federal Reserve Board, it did not develop on inquiry that any specific method had been devised. It was learned, however, that the board has been as active as the Cabinet in discussing the farm situation, and that every effort is being made by all branches of the administration to formulate some course of action.

Three main suggestions are being carefully considered and it is believed that out of these will come a concert of action that will lessen the pressure now bearing heavily on the farmers. The first suggestion is a lowering of the rediscount rates of the Federal reserve banks, especially in the agricultural regions.

Another suggestion is a readjustment of the freight rates. A third plan, which has received much sympathy in the arrangement of short-term credits for farmers based on warehouse receipts on stored agricultural products.

CAN NOW DETERMINE DIRECTION OF STARS.

PASADENA SCIENTIST ANALYZES SPECTRA; NEW MEASUREMENTS.

[BY A. P. NIGHT WIRE.]

WASHINGTON, April 26.—Through analysis of star spectra, Dr. W. S. Adams of Pasadena, announced to the National Academy of Scientists today he had determined that the position of stars, as well as their direction and rate of movement, could be accurately estimated. The belief was expressed that the method might be utilized to settle the long discussed question of whether all stars revolve around a common center.

All the star spectra vary as to "degree of brightness," explained Dr. Adams, who, since 1916, has been assistant director of the Mt. Wilson Observatory. This fact had been used as the basis for his new method of measurement, he added. Heretofore, he continued, stellar distances have been determined by triangulation, an unsatisfactory method at best, because of the great distances involved.

HIGH COSTS ONLY ONE OF RAILROAD TROUBLES.

[BY A. P. NIGHT WIRE.]

CHICAGO, April 26.—Replying to recent charges of mismanagement of the nation's railways made before the United States Labor Board by the labor unions, W. H. Finley, president of the Chicago and Northwestern Railway, said that he felt "that there had been just a trifle too much regulation of the roads."

"Railroads suffered the same as individuals from high prices of everything," he said, "but high cost of material was and is only one factor in the present troubles of the carriers."

Wednesday is Misses' Corset Day

We are making a special feature of fitting corsets for misses and for women with slender figures today.

We particularly recommend the little model shown below as suitable for slight figures. It furnishes an invaluable support, yet does not constrict the figure with heavy boning. It is a *Redfern Corset*, and we shall be glad to fit you in it, or in any other style suitable to your figure.

Redfern Corsets
Back-Lace Front-Lace

—are designed to take care of every known type of figure. That is why we are certain to have your individual style.

THE WEATHER
[Official Report.]

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, April 26.—[Recorded by H. R. Brewer, Meteorologist.] At 5 o'clock a.m. the barometer registered 30.09; at 5 p.m., 30.01. Thermometer for the corresponding hours showed 54 deg. and 70 deg. Relative humidity, 8 a.m., 49 per cent; 5 p.m., 33 per cent. Wind, 5 a.m., northeast, velocity 8 miles; 5 p.m., southwest, velocity 12 miles. Temperatures, highest, 77 deg.; lowest, 53 deg. Rainfall for season, 19.07 inches; last season to date, 12.42 inches. Barometer reduced to sea level.

WEATHER CONDITIONS.—Showers occurred yesterday in the Mississippi and Lower Missouri valleys and in Oklahoma, Colorado, Utah, Washington and Northern Oregon. It was decidedly cooler in the Upper Mississippi Valley, Kansas, Missouri, Oklahoma and Northern Texas. In Southern California clear weather was reported at all stations. Fair weather will continue in this vicinity Wednesday, with rising temperature.

UPPER AIR DATA.—From the surface up to about four thousand feet altitude the wind yesterday morning was from an easterly direction and light. It then became northerly and increased slightly in force, reaching a maximum velocity of 15 miles an hour from the north at 9000 feet altitude, which was the limit of observation.

SUN, MOON AND TIDES.—Los Angeles, April 27, sun rises 5:58 a.m., sets 6:22 p.m. Moon rises April 27, 11:29 p.m., sets 10:10 a.m. April 28. Los Angeles Harbor, April 27, high tides, 1:59 p.m.; low tides, 7:15 a.m. and 8:00 p.m.

GALMOT SPECULATIONS IS CAUSE OF DEATH

BILKED FRENCH MERCHANT OUT OF FORTUNE ON FALSE SHIPMENT.

[BY CABLE—EXCLUSIVE DISPATCH.]

PARIS, April 26.—The suicide of a well-known Paris merchant is the latest outcome of the speculations of Jean Galmot, who was recently arrested on the complaint of a Paris bank, which had loaned him 10,000,000 francs on the security of rum, which he had hypothecated.

M. Paix-Seailles, stepson of a professor of the Sorbonne, shot himself in his home today because he could not meet engagements to pay 1,200,000 francs, which he had loaned to Galmot on the security of cocoa from Dutch Guinea, which was supposed to be at Havre. There was no cocoa and his creditors demanded on Paix-Seailles. Jean Paix-Seailles, a stepbrother of the other, has brought suit against Galmot for 1,600,000 francs, which he, too, loaned on the security of imaginary cocoa.

Galmot, penniless before the war, during it helped the government to obtain supplies of rum with which to protect soldiers against influenza. When the war ended the government had great stocks of rum on hand. For months after the armistice Galmot was known as the world's greatest rum merchant. While Parliament was investigating his rise to fortune the bank that accused him of obtaining huge sums of money under false pretenses.

Schoolgirls Favor Uniform.

[BY A. P. DAY WIRE.]

MODESTO, April 26.—The 800 girls attending the Modesto high school have voted unanimously to wear uniforms as part of a campaign for simple and inexpensive attire, the school authorities announced today.

BULLETS ADD TO THEORY OF PACT

Friends Killed by Guns Found Near Own Car.

Clue Now Only Mystery in Double Death Sunday.

Police Still Seeking Clews to Woman at Phone.

Two pieces of metal, the steel-nosed bullets which ended the lives of Dr. Joseph Durand and Myrtle McCauley early Monday morning, yesterday added convincing weight to the evidence on which investigators base the theory that the two youths came to their deaths through a death pact or quarantine. Taylor and Jackson

Coroner Frederick Surgeon Wagner and they [illegible] were fired from the two [illegible] found near the scene, at the Forty-second street. Dur[illegible] was killed by two .32-caliber [illegible] exactly like those used in a [illegible] Colt automatic revolver [illegible], the detectives say, as the [illegible] of Durand and recently in possession of McCauley. The [illegible] was killed by two .38-caliber [illegible] evidently fired from a .38-[illegible] automatic.

[illegible] revolver was bought [illegible] Durand last Friday at the [illegible] Arms Company, according to reports of the investigators. The purchase seemingly [illegible] the last flaw in the detective story, they believe, because [illegible] that neither revolver was [illegible] used weapon of frustrated [illegible] or of enemies.

[illegible] Mrs. Charles Francis of the Forty-second street, with [illegible] Dr. Durand, the brother of [illegible] had lived for the last [illegible] years, yesterday maintained their firm belief that the two [illegible] were killed by highwaymen. [illegible] of this they pointed to [illegible] ment of J. B. Waldy of [illegible] Fifty-third street, who [illegible] was running from the direction of the scene of the shooting. [illegible] says the two men, whom [illegible] to be youthful hold-up [illegible] had fled at approximately the same time in the morning the tragedy occurred. From [illegible] information and actions he [illegible] may have been fleeing [illegible] place where the victims [illegible]

[illegible] extensive search among the [illegible] Durand's friends yesterday [illegible] Coroner Frederick [illegible] any girls with [illegible] had been more than [illegible]

(Continued on Twelfth Page.)

MULLEN & BLUETT

QUALITY IN MEN'S WEAR SINCE 1883

A Promise Kept for 32 Years

Thirty-two years ago this month a Mullen and Bluett advertisement carried this statement:

"We have now on hand and intend keeping up a large variety of men's and boys' clothes . . . . one price only, hence you are protected and we permit no misrepresentation."

There you have the story not only of our past, but of our present and our future, a simple homely creed which has built our reputation.

BROADWAY at SIXTH

TO TELL FACTS ABOUT TICKET.

"Times" Next Sunday Will Print Biographies of Primary Candidates.

How are you going to vote at the coming city primaries? You must have eighty-one opinions, for there are that many candidates for Mayor, Councilmen and other city offices. Good citizenship requires these eighty-one decisions, and here's how to form them:

The Times next Sunday is going to print brief biographies of the candidates. Thus the voter may be informed what each aspirant has done and what his qualifications are for doing something for the good of the public. Candidates must be judged like race horses—for their past performances or, if they have none in particular, for their qualifications.

Proposing, Says Girl; Robbing is Jury's Verdict.

Does a woman know the exact time and place a man proposes to her?

This was the question placed before a jury in Judge Reeve's court yesterday when Florence Burns testified that Rollin L. Hayward, accused of robbery, put the great question to her, that she accepted him and they then went to a picture show at the time and date of the asserted robbery. Although the witness said the proposal took place in Pershing Square on December 9, the night of the robbery, the jury found the defendant guilty. He was convicted of robbing Carl Scherf, a street car conductor, at the end of the Edendale car line at the time he was supposed to be asking Miss Burns to become his wife.

Hayward will be arraigned on Thursday for sentence.

TO FILL VACANCIES.

An examination to fill the vacancy in the position of postmaster at Yorba Linda will be held in Los Angeles on May 14, it was announced yesterday by the United States Civil Service Commission. The office has an annual compensation of $1300. Another examination will be held here on May 28 to fill the position of rural carrier at Baldwin Park. The salary of a rural carrier is $1100 yearly, with additional compensation based on excessive mileage.

PROMISE BOMBS AND FIREWORKS

Grocers to Have Mass Meeting and Hear Candidates.

Loomis Seeks Council Seat; Outlines Platform.

Seaman and Mrs. Ashley Get Many Indorsements.

BY THE WATCHMAN.

Oratorical fireworks, including anti-Snyder bombshells, are on the program for this evening's public mass meeting to be held under the auspices of the grocers of the city in the auditorium at 340 South Hill street. The grocers have indorsed George E. Cryer for Mayor, and Mr. Cryer will make one of the principal addresses of the evening. The seven candidates for the City Council also indorsed by the grocers also are expected to make brief talks.

Albert B. Conrad, formerly a member of the City Council and City Tax Collector, yesterday received the indorsement of the Los Angeles Automobile Trades Association in his candidacy to again become a member of the municipal legislative body. The Second-street Tunnel and Improvement Association has also notified Conrad that he has the indorsement of that organization.

The Association for Betterment of Public Service is carrying on a vigorous campaign on behalf of the seven candidates for the Board of Education and the two for the City Council which the organization has indorsed. The association candidates for the board are Grace B. Ashley, C. J. McCormick, Melville Dozier, C. E. Seaman, M. Jessie York, Martha C. Harmon and Egerton Shore. The association candidates for the City Council are Mrs. Emma B. Swindell and Mrs. Ida Works Darling. The association is responsible for these two women permitting their names to be placed before the voters. President W. B. Barker and Chairman Baldridge of the campaign committee of the association are directing the work of sending out thousands of letters asking the support of the voters for the organization's candidates.

Harry Loomis, ex-president of the California State Hotel Association and the dean of hotel men of Los Angeles, is a candidate for City Council at the primaries, May 2.

For the seventeen years he has been engaged in active business in Los Angeles and has never sought office here before. For nearly fifteen years, until he retired, he was proprietor and manager of the Angelus Hotel.

His platform is efficiency, economy, lower taxes, and a business-like administration of the municipal government; a clean and moral city; justice and fair play; representation of the rights of the minority as well as those of the majority.

He believes in the encouragement of manufacture, industry and business; the cause of education, the uplift of the people, the doctrine of the city beautiful, and an adequate police and fire department.

He says the harbor is our greatest asset and should be improved as rapidly as possible, with an eye for the future as well as the present needs. Transportation, he says, builds cities and it made this country what it is today. Los Angeles, he declares, has really just begun to grow, and with a population of nearly 1,000,000 the second million will come before we realize it, and that, therefore, we should lay a broad foundation upon which to build for our future prosperity.

Two members of the present Board of Education, who have received an especially large number of indorsements for re-election, are Charles E. Seaman and Mrs. Grace B. Ashley.

Mr. Seaman is a graduate of Harvard University and was for three years a member of the faculty of the University of Vermont and head of the department of commerce and economics of that institution. As chairman of the finance committee of the present board, Mr. Seaman has rendered the taxpayers valuable service, and his friends believe that he should be retained for the next two years, during which time the board will spend nearly $30,000,000 for the administration of the schools and for the construction and equipping of new buildings.

Mrs. Ashley, who has been prominent as a club woman in Los Angeles for a number of years, made a most excellent impression when she spoke last Saturday afternoon at the City Club and told briefly of some of the problems which come before the Board of Education. As a member of the board, she has taken a firm stand against any attempts to use the school system for radical, un-American propaganda, holding that the schools belong to all of the people and must be administered with the purpose in mind teaching the children to respect the flag and the institutions of this nation.

Mrs. Cecelia A. Greenbaum, candidate for the Board of Education, yesterday received the indorsement of Clara Shortridge Foltz in the following letter:

"I take pleasure in indorsing Mrs. Cecelia A. Greenbaum for the Board of Education feeling that the people of Los Angeles will be repaid in a conscientious, efficient manner should she be elected. She is alert, courageous and competent. I have been associated with her in club life and politically and will vouch for her sterling characteristics. She is experienced in the business department of the Board of Education, having spent seven years in the purchasing department. This experience, coupled with a Normal school training, should make her an ideal board member. Personally, I trust she may be elected.

[Signed.]
"CLARA SHORTRIDGE FOLTZ."

Mrs. Greenbaum is running inde-

(Continued on Thirteenth Page.)

Figure in Investigation of Young Wife's Tragic Death.

Called Before Grand Jury in Cyanide-Poisoning Case.

Hazel Swartzfager and Deputy Sheriffs Fox and Nolan. Raymond W. Smith, held in connection with his wife's death, and Dep-Smith stated yesterday his desire to marry Miss Swartzfager.

First Woman's Athletic Club, Officers Named

The first staff of officers for the new Woman's Athletic Club of Los Angeles was elected last night at a meeting of the members of the organization. Following the election, plans of the club for a new building were discussed.

The following were elected officers: Mrs. Matthew Robertson, president; Miss Jane C. Humphreys, first vice-president; Mrs. Hancock Banning, second vice-president; Mrs. Roy Jones, third vice-president; Mrs. Florise Wolston, secretary; Mrs. Homer Laughlin, treasurer, and Mrs. A. B. Barrett, auditor.

The board of directors will consist of Mrs. Frank Gibson, Mrs. Robert Gifford, Mrs. W. I. Hollingsworth, Miss Rosario Dockweiler, Miss Clara E. Erickson, Miss Florence Shinder, Miss Caroline Kellogg and Mrs. R. D. Shepard.

Film Star's Car Stolen and Used in Two Hold-ups

Operating in the stolen automobile of Helen Eddy, the film star, three youths last night held up two men in the northern section of the city, according to reports to the Lincoln Heights Police Station.

The bandits stole Miss Eddy's car from Ninth and Hill streets where she had parked it. They then headed to Los Feliz Road and, in a dark spot on the way to Glendale, they held up Harry Ulm and robbed him of $20 at the points of their guns, according to a telephonic report to the police.

Half an hour later, the police were notified that a man named Andrews had been held up by the same trio in the 500 block on East Avenue 26.

Detectives with sawed-off shotguns are investigating the robberies and picking up the bandits' trail. Miss Eddy's car was a blue Hudson speedster with red wire wheels and bore the license number 326-89, according to the police report.

Again Offer to Sell Garbage Plant to City.

In a letter addressed to the City Council, the Pacific Reduction Company yesterday offered to sell its plant to the city for $450,000, which it declares is less than half of its real value. In making the offer the company suggests that the municipality buy the property and hold it for emergency purposes to insure the disposal of garbage if the hog-feeding plan does not work out smoothly.

As an added inducement to the city, the company agrees to sell its plant on easy payments. The plan provides for the payment of $75,000 cash, the balance be paid in five annual payments of $75,000 each. Interest on the deferred payments would be charged at the rate of 5 per cent per annum from the time of the signing of the contract of sale.

The Council referred the matter to the Health and Sanitation Committee.

All Smile, Says Marshall, As He Steps In, Out.

"Everybody smile. It might be a lot worse."

With this advice, Thomas Riley Marshall, who registered from "Ind'p'l's" and who once spoke of himself to former President Wilson as "your only vice," stepped lightly into town yesterday and just as lightly stepped out again. He was here for a few hours with his wife and left in the evening for Phoenix, where the couple will visit Mrs. Kinsey, Mrs. Marshall's mother.

Mr. Marshall had little to say. In fact he said that his interview was so short that he would give it over the telephone. So the reporter carefully canvassed the hotel and gleaned bits of conversation that the former Vice-President had had with clerks and bellhops and incorporated them with his own.

Mr. Marshall said that he wanted a suite with a sitting room near the ground floor, so that he could listen to the street cars. "I'm just a Hoosier now," he said. Then he commented on the climate and went to his room. Later when he was called by telephone he advised everybody to smile.

HUSBAND OF VICTIM IN CYANIDE CASE JAILED.

Prisoner Tells the Grand Jury of Love for Another Woman; Plans for Divorce and Wedding Made.

Raymond W. Smith, husband of Mrs. Mary Edna Smith, whose mysterious death from cyanide poisoning has been under investigation for the past six weeks, was arrested late yesterday and lodged in the County Jail on the charge of suspicion of murder. He was taken into custody on orders of Dep. Dist.-Atty. Stafford shortly after he and eight other witnesses finished their testimony before the county grand jury, which is to meet again this morning at 10 o'clock and resume its inquiry into the case.

Although none of the officials connected with the case was willing to express an opinion when the grand jury adjourned yesterday, it was intimated that an indictment may be returned today after the rest of the State's witnesses have finished their testimony.

Immediately after leaving the grand jury room and while being booked at the County Jail, Smith reiterated a statement of his innocence and said he did not have any knowledge of the circumstances surrounding his wife's death. Mrs. Smith's body was found by Smith in their small home at Bell in the afternoon of March 14. The man's statement to the authorities and to The Times was that he returned home and found his wife dead in a chair. He said he had left her that morning apparently in the best of spirits. An autopsy and a chemical analysis disclosed the fact that the woman died of cyanide poisoning. A thorough investigation was then ordered by Sheriff Traeger. Dist.-Atty. Woolwine co-operated with Deputies Fox and Nolan.

OFFERS TO AID.

Smith said he talked as freely before the grand jury as he did at the Coroner's inquest and to the officers. He said he was willing to do everything in his power to assist in the investigation.

Three sensational developments in the case were disclosed last night through the stories of some of the witnesses who testified before the grand jury, through statements of the officers on the case and admissions made by Smith himself just before he was locked up in jail. They were:

(1.) That there was another woman in Smith's life. This woman, Smith said, is Miss Hazel Swartzfager of 2825 South Grand avenue. The man said he told the grand jury that he promised to marry the girl after he obtained his freedom from Mrs. Smith. The young woman mentioned by Smith was also a witness before the grand jury, but refused to go into the details of her testimony.

(2.) That Mrs. Smith did not die on the morning of March 14, as Smith is said to have tried to convince the officers, but that she was dead before the time Smith said he left the house. This, it was admitted last night, was brought out by testimony tending to show that, although Smith said his wife did not eat any breakfast, a considerable quantity of food was found in her stomach when the autopsy was performed. According to Smith's story when the investigation was started, he cooked the breakfast for his wife and left before she began eating it. Other witnesses told the officers and the grand jury that the greater portion of the food remained untouched on the table when the body of Mrs. Smith was found in a chair only a few feet from where she was to eat her meal.

(3.) That Smith, one of several heirs to an estate valued at nearly $200,000, is asserted to have made several attempts to obtain a divorce from his wife, and that on one occasion he is said to have written a letter which, the officers say, was for the purpose of giving Mrs. Smith the evidence upon which to obtain a divorce, if she should decide to bring action.

ADMITS LOVE CASE.

"It is true that I told the grand jury about Miss Swartzfager," Smith said last night. "I am sorry the girl had to brought into this. I am also very sorry for her mother. I met her a long time ago and I told her I would marry her as soon as I obtained a divorce. But it is also true that I did not see her for a year prior to this trouble. I admit I had no right to keep company with her, being a married man, and now I'll have to take my medicine so far as that angle is concerned. However, this girl's connection with the case had nothing to do with my wife's death. I cannot say any more than I said at the Coroner's inquest, and I told the grand jury the same a while ago. My story is the truth. I left the house while my wife was alive and I do not know from whom or where she obtained the cyanide, or why she took it, if she did take it of her own accord."

Miss Swartzfager, who was found by The Times weeks ago, said she met Smith in October, 1919, and continued her friendship with him until January, 1920. In December, she said, Mrs. Smith called her on the telephone and told her that Smith was a married man and warned her to have nothing to do with him.

"That was the beginning of the end," the young woman said. "In the meantime Smith had proposed to me, the girl said, and was accepted with the understanding that he would get a divorce and then marry

(Continued on Fifteenth Page.)

FIGHTS KNIFING BULLOCK'S.

Municipal League Takes a Firm Stand Against Hearst Propositions.

The Municipal League has taken a firm stand against the Los Angeles Examiner's two propositions appearing on the May 3 ballot and aimed at Bullock's. The league's recommendations on these as well as on proposition No. 3, which is Bullock's offer to donate $13,000 a year to the city, and on proposition No. 4, which will enable the City Council to increase the salary of the Chief of the fire department, are as follows:

"Proposition No. 1.—Vote 'No.' This ordinance would cancel the permit of Bullock's to finish and maintain the overhead structure above the alley known as St. Vincent's Place on the north side of Seventh street between Broadway and Hill streets. Instead of canceling the permit, the city should accept the offer of Bullock's to pay $12,000 rent to the city per year for the permit as set forth in proposition No. 3 on this ballot.

"Proposition No. 2.—Vote 'No.' This ordinance would cancel the permit of Bullock's to maintain the overhead structure above the alley known as St. Vincent's Place, between Broadway and Hill streets, said overhead structure being about 150 feet up the alley from Seventh street. This structure was completed over three years ago. We believe the offer of an annual rental of $12,000 per year to the city, as set forth in proposition No. 3 on this ballot, is an adequate rental to cover both permits involved in the above two propositions.

Proposition No. 3—Vote 'Yes.' The city should accept the offer of Bullock's to pay the city an annual rental of $12,000 for the permit to complete and maintain the overhead structure above the alley known as St. Vincent's Place on the north side of Seventh street between Broadway and Hill streets. The annual rental of $12,000 will enrich the city treasury by that amount each year and is a fair and reasonable price to pay for the privilege of the permit. The continuation of Bullock's building on the north side of Seventh street all the way from Broadway to Hill street, as planned in connection with this permit, will be a desirable private improvement, ornamental to the city's business section.

"Proposition No. 4.—Vote 'Yes.' This ordinance will give the City Council the right to fix the salary of the Fire Chief. A number of years ago, by an ordinance adopted by the people and which can be amended only by a vote of the people, the salary of the Fire Chief was fixed at $250 per month. The increase in the cost of living, the growth in the size of the city, and the importance of its fire department make the present salary inadequate for the head of our great fire department. The salary of the Fire Chief, like the salary of almost all other city employees, should be subject to change by the Council as the changing needs of the city may require."

MARY MILES MINTER WILL AID VETERANS.

A performance in benefit of disabled ex-service men will be given this afternoon at 2:30 o'clock in the Ambassador Theater by the Assistance League, assisted by the Ebell Club. Mary Miles Minter will appear in person. "Sowing the Wind," Anita Stewart's picture, will be shown and a musical program will be given by the orchestra.

TOPS 'EM ALL

Los Angeles Times First Among All Newspapers of America in Advertising Volume for March, 1921.

With a stupendous total of nearly two and a quarter million lines of advertising for March, 1921, the Los Angeles Times not only surpasses all newspapers in the United States, but wins by a wide margin.

A compilation just received from the statistical department of the New York Post gives the ten national leaders as follows:

National Advertising Score.

(Advertising carried by great American newspapers for month of March.)

LAND PROBLEM TO BE TESTED.

Reject Entry of Woman Who Won't Live with Mate.

Refuses Consent to Divorce, but Supports Herself.

Will Appeal to Commissioner of General Office.

The question whether a woman who refuses to live with her husband, or give him a divorce, but who at the same time supports herself, can become a homestead entrywoman under the land laws of the United States will be settled on an appeal taken yesterday by Henrietta Bella Griffith, involving a homestead entry of a quarter section in the White Water country, near Palm Springs.

Mrs. Griffith filed on the land but her entry was rejected by Register Groves and Receiver Mitchell of the local Land Office. She has taken an appeal to Commissioner Spry of the General Land Office. The officials here held that under the showing made by the woman she was not a deserted wife.

The ability of a married woman to file homesteads is limited under the land laws. She can do so if actually deserted by her husband, or if the husband is incapacitated by disease from earning a living for himself and family, and she is the head and main support of the family; she can file if her husband is confined in the penitentiary or if she is the heir of a settler or contestant who died before making entry; if she made improvements and resided on the lands applied for before her marriage she may enter them after her marriage if her husband is not holding other lands under an unperfected homestead entry at the time of the marriage; a widow may make an entry, under certain conditions, if otherwise qualified. There are other instances where a wife may take a homestead, but none applying to cases where the wife has not been deserted; and she must have been deserted more than one year.

In the case at bar, if there has been any deserting, it has been done by the wife, but there are said to be exceptional circumstances surrounding the case that cause the wife to think she may be allowed to get the land.

COURTHOUSE GOSSIP FOR PSYCHOLOGIST.

WITNESSES SAY THAT PROF. MURDOCK CHANGED THEIR LIVES FOR BETTER.

The bitter attack made upon Prof. James A. Murdock, psychologist, before the Board of Supervisors Monday, in which the board was asked to revoke his license, was still a matter of comment around the Courthouse yesterday. The Supervisors took the case under submission and are expected to decide it today. Comment was favorable to the professor.

Prof. Murdock made apparently satisfactory explanations of all statements made by Mrs. E. E. Blackburn. He explained to the Supervisors the character of his work and how he increases the efficiency of those who consult with him and take his courses.

He introduced a large number of witnesses, who testified he had changed their lives so that, after the lapse of years, they are earning many times as much as they did before consulting him.

New Structure Awaiting Spur Track Approval.

The Westinghouse Electric Company will erect in Los Angeles a seven-story class-A warehouse and general office building if the plans for a spur track and permission to use the freight trackage along San Pedro street, owned by the city, are approved, it was stated yesterday.

Leeds & Barnard, consulting engineers, are engaged in preparing plans for the structure. Facilities to be given the site selected by the Westinghouse Electric Company, and these will be completed and submitted to the Board of Public Works early next week.

The site for the new structure at the northeast corner of Fifth and San Pedro streets is owned by the W. H. Perry estate. The Westinghouse company has an option on this property, which will be exercised immediately if the trackage facilities are afforded by the city.

FILM CONCERN VICTOR.

National Wins in Suit Brought by Distributor on Contract.

Under an instructed verdict yesterday a jury in Judge J. P. Wood's court found for the National Film Corporation in the suit of Karion Kohn, a cinema distributor, against the corporation to recover $112,000 damages for a purported breach of contract.

Mr. Kohn contracted with the National Film Corporation for certain pictures and asserted that they were not the quality guaranteed. The corporation declared the pictures were up to standard and that a complete settlement for everything had been made with the plaintiff.

Loeb, Walker & Loeb of this city and J. D. Lederman of San Francisco represented Mr. Kohn. Janeway, Beach & Bratt were counsel for the corporation.

INCORPORATIONS.

Huntington-Western Oil Company; incorporators, Logan Rives, N. M. Vedder, S. A. Walters, W. E. Donaghoe, J. V. Smith; capital stock, $35,000; subscribed, $5. Frocks of the Better Classes Half Price

They are Dresses of superior quality, regularly priced from $69.50 to $250.00.

Street, sports, afternoon and evening frocks, with scarcely two models alike, are taken from regular stock and reduced to half price for Wednesday.

The Street Frocks are for the most part of taffeta and crepe. These are shown in the smart models for warmer days.

Evening Frocks comprise dresses of metallic tissue; net over grosgrain silk; lace-draped models and others. These are in green, lavender, orchid and many late tints, as well as all black. Several models are youthful dance frocks.

The Sports Frocks are either one-piece dresses, loosely girdled, or coat dresses. They are of white tricotine and plain or striped white flannels.

Afternoon Frocks offer a wider diversity. There are models in beaded georgette; all-over lace; heavy Canton crepe; satin crepe, yarn trimmed; crepe Madelon; silk poplin and other popular fabrics.

For Wednesday, then, a sale of unusual proportions: 100 Misses' and Women's Frocks for daytime and evening wear—at half price. Regular prices vary from $69.50 to $225.00.

THIRD FLOOR

Orange chiffon with overlay of the same in metallic color. Accordion pleated skirt and over-dress. Regularly $195.00. (Sketched below.)

Black satin crepe with geometric beaded in white. Regularly $225.00. (Sketched above.)

Pink glace taffeta with apron effect of handkerchief-hemstitched border. Regularly $145.00.

Lace over black satin, with girdle of shaded metal. Regularly $225.00.

Women's Initial Handkerchiefs 85c Box

500 Boxes of Women's Initial Handkerchiefs were recently bought in the East at a very low figure.

Because of the very low price, Robinson's offers the Handkerchiefs by the box only, at 85c for six 'Kerchiefs.

They come in several styles—these sheer 'Kerchiefs; some with elongated initials, others having medallions as a background for the letter.

At this price, they are indeed exceptional values.

FIRST FLOOR

Baby's Creepers

Comfortable Creepers for Baby are shown in many good styles.

They come in ginghams — plain colors and checks—white poplin and dimities trimmed in color with touches of hand-work.

The sizes are 6 months, 1 and 2 years. Prices are $1.50 and up.

FOURTH FLOOR

Little Boys' Wash Suits

Little Boys' Wash Suits at Robinson's are as carefully designed and tailored as are the summer time clothes for their fathers.

They are in Copperfield one-piece style or in Russian blouse style (two-piece.)

Colors are pink, light and dark blue and tan. Models in white are trimmed in contrasting color.

The sizes are 2 to 6 years. The prices are $2.50 and higher.

INFANTS' SECTION—FOURTH FLOOR.

Petticoats, $4.95

Petticoats of so great a variety as to please all tastes—and so good a quality as to give satisfaction every time they are worn—are marked as extra values at $4.95.

Some are of one color; others have novelty ruffles introducing contrasting shades.

Fabrics in them are Heavy Milanese Jersey, Peau de Cygne, Taffeta and Jersey and Taffeta. These offer a diversity of between 25 and 30 colors. A smaller group is of flesh and white satin.

THIRD FLOOR

Fabrics for Lingerie

Nainsook and Long Cloth are made specially for Robinson's—and are very moderately priced.

Nainsook, Quality A, 36 inches. $3.95.
Nainsook, Quality E, 39 inches. $3.95.
Nainsook, Quality C, 44 inches. $4.95.
Long Cloth, Quality 100, 36 inches. $4.45.
Long Cloth, Quality 300, 42 inches. $4.95.
Long Cloth, Quality 200, 44 inches. $5.45.

SECOND FLOOR

Sweaters, $6.50

Slip-on Sweaters with sashes have the debonair look that carries out the spring-time spirit.

These Sweaters—in sizes 8 to 14 years—come in pink, tan, navy and tally-ho red.

They are priced at $6.50.

FOURTH FLOOR

Blouses, $5.95

Tailored Crepe de Chine Blouses with Buster Brown collars have a very low price for Blouses of fine quality and workmanship.

Narrow knife-pleated frills edge the collar, cuffs and front pleat. The front is tucked.

They come in white only.

For Wednesday — 100 Blouses in the popular Buster Brown at $5.95.

THIRD FLOOR

Crepe Roshanara and Taffeta Repriced

The taffeta for crispness; the Roshanara for softness and suppleness!

Both are of reliable quality—Robinson quality. This fact removes the element of chance in buying Silks at a low price—the fact that Robinson's stands back of them.

Crepe Roshanara of heavy, crinkly weave, comes in practically an unbroken line of colors for street, sports and dress wear. Its satin finish makes it desirable for many purposes. This crepe is 40 inches wide, and offered at a very low figure $4.95

Taffetas are in plain and two-tone colors. They are of the right weight for crisp, bouffant effects and yet are of a durable texture that wears well. The Taffetas are 35 inches wide, and greatly reduced. The lowered price is $2.15

SECOND FLOOR

750 Yards Pure Wool Challis, $1.25

Challis—most women love the very sound of the name! This soft, pure wool fabric is one of the staple materials—like taffetas—whose popularity only increases with the years.

750 yards of fine Challis have been taken from regular stock and greatly reduced. They will be offered at $1.25 a yard for the first time Wednesday.

Some of it is domestic, but most of it is from abroad. This is the first importation of Challis that Robinson's has been able to procure in four or five years.

There are floral and checked effects, dots and broken stripes in light and dark colors.

Many patterns are suitable for children's dresses as well as for the grown-ups.

The domestic fabric is 27 inches wide, the imported, 30 inches.

For Wednesday—Challis, every thread of which is pure wool, reduced to $1.25.

SECOND LOOR

Navy Suits for Men, $49.50

50 Suits of dark blue unfinished worsted arrived yesterday. This is the type of Suit for which many have been calling. These men and young men will be glad to hear that the expected shipment is now here.

The Suits, though new, have been given a very low price: $49.50. This figure gives no hint of the quality of the garments nor their goodness of style.

The coats are double-breasted models with the new lapels and three pockets. It is precisely the kind of coat one would wish for wear with white trousers.

The Suits were made to Robinson's specifications. "Late in style, but conservative," aptly sums them up.

For Wednesday, then: 50 dark blue Suits, in sizes 34 to 42, to go on sale at $49.50.

FIRST FLOOR

Trimmings, ½ Off

The *Cordelieres* are of braid and wooden beads, with tassel ends. Some are in sash widths, in Roman stripe effect. They are girdles which give a smart touch to the loose, long-line frock. Regular prices vary from $3.50 to $10.00. Now offered at half price.

Tassels for several uses: Lamp shades, draperies and dress trimmings—are shown in beads, metal and silk, in assorted colors. They are regularly priced from $1.00 to $7.50 each. Now offered at ½ off.

FIRST FLOOR

Sequin Tunics $37.50

Full-length Sequin Tunics are the type of garment that formerly sold for almost twice this amount.

The Tunics are made of all-black sequins, except for a corsage flower of sequins.

They have short sleeves, and come already sewn up, so that an underslip is all that is needed to complete the frock.

For Wednesday, 10 Sequin Tunics at $37.50.

FIRST FLOOR

Flouncings ½ Price

Flouncings in many beautiful patterns, regularly priced from $7.50 to $40.00, are now offered at half price.

They are 36 inches wide, and are in three groups: Those of metal lace, flouncings of beads and sequins and a third lot in embroidered georgette.

For Wednesday, all of these at ½ off.

FIRST FLOOR

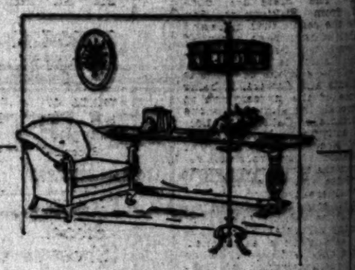
Handkerchief Linen and Ratine Reduced

Handkerchief Linens and French Ratine have new lowered prices which will be permanent. The revision in both cases has meant material reductions.

Colored Handkerchief Linens for dresses and children's dresses, hand-made blouses and handkerchiefs. 36 inches wide. $1.85.

French Ratine in a wide assortment of plain colors. 38 inches. $1.35.

SECOND FLOOR



Last Day of the Sale 25% Off

Furniture, Rugs Lamps, Draperies

Wednesday will be the last day of the Sale of Home Furnishings on the Seventh Floor.

On the day following, the discount of 25% will be withdrawn so that former price levels will prevail.

This is the season when many people are moving into new homes or are refreshing up the homes that are now in.

At Robinson's they will find Furniture, Rugs, Lamps, Draperies and Objects of Art of the better class—a careful selection from well-known makers. To investigate any one of these groups is to gain an idea of the scope—the alertness and sound judgment in choice—of the whole.

For one more day, then, the entire stock on the Seventh Floor, including the new sets of Dining Room Furniture, will be offered at 25% off.

SEVENTH FLOOR

Men's Sports Vests From Scotland

Something decidedly new for the discriminating—the late arrival of Sports Vests from Scotland!

Personally selected by an American man who knows foreign values—they are especially recommended to the man who wants the smart vest—the distinctive vest—for golfer or for motoring.

Fine Cashmere Wools and pure Silks are used in their weaving, giving a velvety Angora finish equally pleasing to look at and to touch.

Patterns—most of them one of a kind—include stripes, checked and plain effects. All of them have facings and trims of the four pockets of plain shade.

The man who appreciates Better Clothes will be interested.

PLAN EXHIBIT NEXT OCTOBER.

Nurserymen of State to Hold Annual Meeting Here.

Sunken Garden Project Given Impetus by Council.

Fruits and Flowers Promised to Eclipse Other Shows.

A horticultural exhibit of broad scope and magnificent scale will be held at Exposition Park October 20-31 next by the California Association of Nurserymen. The Los Angeles City Council yesterday authorized the park department to prepare the sunken gardens at Exposition Park for the purpose. It being understood that the great collection of dahlias and other plants which will be shown on the seven-acre garden will be turned over to the city as a permanent exhibit at the close of the October show.

The exhibition will be made in connection with the eleventh annual convention of the State Nurserymen's Association, will be Statewide in scope and will include exhibits of flowers and plants from all over California.

The convention was to have been held in Pasadena, but was transferred to Los Angeles in order to secure adequate room and facilities. The Pasadena Horticultural Society, whose annual exhibits are famous for their beauty and excellence, will hold its show as a part of the big flower exhibition in Los Angeles this year instead of at Pasadena.

MEN ON COMMITTEES.

The executive committee of the association in charge of the show is composed of the following nurserymen: Fred H. Howard, Los Angeles, chairman; Roy F. Wilcox, Montebello; Max Crow, Gilroy; J. Bertholdt, Newcastle; J. W. Bertholdt, Newcastle. Other committees are: Fred H. Howard, finance; Charles F. Gutting, dahlias; Albert Goldenson, florist display; W. J. Rapp, exhibits; William Hertrich, flowers; O. W. Howard, outdoor exhibits; J. S. Armstrong, seeds and bulbs; T. H. Wright, premiums; Fred J. Howard, entertainment; John C. Bodger, concessions; John Bowes, housing and decoration.

It is proposed to make the exhibit the most elaborate ever held in America, Chairman Howard said yesterday. Nurserymen and growers of all California will send flowers and plants. Mr. Howard says the show will be staged along practical and educational lines, embracing elaborate outdoor garden effects as well as exquisite indoor displays. Planting of bulbs and roots in the sunken gardens will begin soon. They will be in full bloom at the time of the show.

PLAN COMPETITIONS.

The outdoor exhibit of seven acres will be laid out with broad drives and will include remarkable displays of rare blossoms by the world's leading growers. There will be competitive classes of all kinds for both professional and amateur growers. The State has been divided from Siskiyou to San Diego with the result that more and better exhibits have been arranged than ever before gathered together in California.

There will be exhibits of fruits as well as plants and flowers, it being the purpose of the nurserymen to convey through the show the scope and importance of California's horticultural activities. Mr. Howard and H. W. Kruckeberg, secretary of the association, have recently returned from the north, where growers of dahlias and other horticultural specialties agreed to exhibit them on a big scale. More than two acres of dahlias will be shown, including many valuable and rare varieties. The exhibition, as planned, will be not only a flower show de luxe but a demonstration of California's horticultural supremacy generally.

Got Bebe a Job, Now Brings Suit for Commission.

Bebe Daniels, cinema star, who was released from the Orange County jail last Sunday after serving a ninety-day sentence for speeding, now has a lawsuit brought yesterday by Florence Meehan, who demands commission of $2175 for obtaining Miss Daniels employment with the Famous Players-Lasky Company.

The suit, filed through Attorney J. B. McCarthy states that the defendant employed the plaintiff to secure employment for her with the motion picture company and for this service was to receive 10 per cent of the salary Miss Daniels drew. Miss Meehan received, according to the complaint, $21,750 from June 14, 1920, to the 1st inst., and only $50 has been paid on account of the commission.

Miss Phyllis Daniels, mother of the star, is joined as a defendant.

MUST GO TO PRISON.

Who Pleaded Guilty to Breaking Auto Laws Gets Four Years.

Henry Shirley, a railroad man, who pleaded guilty to violation of the Mann Act, in taking two automobiles without the consent of the owners, one from Phoenix to Calexico and the other from Los Angeles to Oxnard, was given a four-year sentence in federal prison by U. S. District Judge Bledsoe yesterday.

Shirley said he had been drinking and had fallen into bad company. He said if he was still opposed to the enforcement of the national prohibition law, in spite of the fact that he was drinking. Shirley admitted in court said that the automobiles were to stay, that it is easy to get them and get away, and the Mann act protects owners will be enforced. Shirley faces a charge of white slavery growing out of one of the transactions in the State courts.

CHARGED AS WHITE SLAVER.

Charged with having brought Nellie [illegible], a married woman, from Ventura, Cal., to this city recently, [illegible], employed at one of the Los Angeles Harbor shipyards, was yesterday sentenced by U. S. Judge Bledsoe to five months in the County Jail for violation of the Mann Act.

Ladies' Home Journal Patterns — **Jacoby Bros.** — *Butterick Patterns and the Deltor*

SUNDAY IN CHINA.

Dr. Sun will be inaugurated President of China on May 5. Thursday of next week will be Sun day as far as China is concerned.

PRESS AGENTS.

The next film favorite will have to go to the madhouse to gain proper notoriety. Speeding or shooting will hardly arouse the public. A beautiful lady maniac who rubbed catsup in her hair might hold attention for a minute.

MEATING PEOPLE.

Hogs and cattle were selling at less than $8 on the hoof in Kansas City and Omaha this week. But nobody seems to want the hoofs. All are still after the fancy cuts and that is where the butcher—who has so much at stake—gets in his finest work.

MATTER OF INTEREST.

The new British budget provides for the payment of $160,000,000 to the United States as interest on its debt to this country. This is the first substantial installment thus far provided for. As a matter of principle we should secure the interest of Great Britain.

VALUE TOO HIGH.

Congressman Black of Texas persists in pressing his resolution that no railroad be permitted to pay an official more than $15,000 a year. This sum represents the annual pay of two Congressmen, and where is the railway executive who is worth more than a couple of our national statesmen?

AN OUTSIDER.

The wife of Millionaire Stokes testified in the divorce proceedings that she never smoked or drank, although she had once been an actress. No wonder she couldn't get along with her husband. It seems pitiful to find the wife of a Gotham millionaire who cannot even smoke. No wonder she was passed up by the push. She must have been a rank outsider. All she could do was flirt.

REAL OLD CROW.

Over $2000 was raised on the stealthily conducted raffle of a large case said to contain Old Crow in Chicago recently. All the good sports were in it and tickets were at a premium. Here was something worth winning! When the raffle finally took place and the case was opened it was found to contain a venerable Brahma rooster with little left but his comb. It was Old Crow, but the crowd decided there was nothing to crow about. Just another adventure in the mysteries of bootlegging.

INDIAN FARMERS.

The Mission Indians are complaining of the quality of the lands the government has been putting on them. On some of the stuff they say they are not able to raise a decent crop of rattlers. When an Indian takes to farming he deserves something better than a slice of Mt. Baldy. He might have owned both sides of Broadway if he hadn't been dispossessed by the white man. He wants the same treatment as his Oklahoma brother. There the government gave him good soil and then turned up an oil gusher for spending money. The Oklahoma Indians are all in the Rockefeller class. They should have something for their pioneering.

PATIENTS BE PATIENT.

The new Internal Revenue Commissioner will have a chance to approve the regulations which would permit a patient to obtain five gallons of beer or three gallons of wine at one time under a physician's prescription. The regulations are all prepared for distribution. But supposing the commissioner does not approve? Supposing he should be a bomb-proof prohibitionist who would refuse to relax on the amendment, even if the Attorney-General's office did consider the new regulation legal? Would the President take a hand? Not very likely. Seems as if the commissioner would have much to say in interpreting and formulating the regulations concerning the booze for our invalids. He may not favor wholesale prescriptions. Patients must not be too cheerful. The thing is not settled.

THE LOST LEADER.

It is claimed that Big Bill Haywood has gone to Russia to aid Lenine and Trotzky in preparing and extending the propaganda of the Red Commune. And yet there are some who thought his conviction for treasonable acts and utterances here during the war was unnecessary. They would let him go his evil way untrammeled. This Cyclops of the Commune was out on bail of $30,000 pending the appeal of the case. The bond was furnished by William Lloyd Bross, "the millionaire Socialist." When the decision of the high court was against him and the prison doors really yawned for his admission Haywood disappeared, leaving his bondsman in the lurch. Bill is one of these massive but flabby souls who do not stand the tests of martyrdom. If he had been ordered shot for treason at the outbreak of the war he would have squealed like a pinched rabbit. There is no danger of Haywood going on a hunger strike. He thinks too much of his paunch. He has thrived on his dupes and unfortunately has had many of them.

A FRIGHTFUL LOAD.

Baron Munchausen achieved quite a reputation in his day and age, but he would be dropped from the propaganda department of the present State administration for lack of imagination. While deprecating the use to which their talents are put, The Times cannot withhold its admiration for the versatility and creative genius of the administration apologists.

The Legislature is about to adjourn after adding $6 to the per capita cost of our State government. The average per capita for the other forty-seven States is $5.65. The estimated per capita for California during the next two years is $24.25, or more than four times the average for the other States.

Faced by such a record, one would naturally expect the State government to sing low about finances. Not so with the young Munchausens on the pay roll of the Forty Fat Commissions. Undismayed by the wanton extravagance in the different State departments, they are felicitating the taxpayers over what might have been if the worst had been the best. Keeping the actual facts in mind, cast your eye over the following leading paragraph from a Sacramento dispatch in Monday night's Express:

> Gov. William D. Stephens has scored the greatest victory for efficiency, economy and simplification of the State government ever proposed in California through the eight reorganization measures prepared by Gov. Stephens and enacted by the State Senate.
>
> The achievement is hailed by close followers of the Legislature and students of State government as one of the most brilliant strokes for good government put through by any State executive in the United States. It is the forerunner of further efficiency reorganization by the State government.

Efficiency has been accomplished by creating eight new departments without abolishing any of the old ones. Economy is secured by adding $32,000,000 to the biennial cost of the State government; and the result is applauded as a "notable victory" for good government. Positions are not abolished by changing their names. Economy consists in reducing costs, not in piling up expenses. But perhaps the term is used in the Pickwickian sense; it possibly refers to economy of effort on the part of the pay-roll patriots. The hapless taxpayer, however, is very likely to recall the expiring cry of Madam Roland: "Liberty, what crimes are committed in thy name!"

Under the new plan there are more $5000 commissioners than under the old. The number of State employees has been increased. While wages, incomes and the earning powers of the taxpayers have been reduced, the cost of the State government, despite the Stephens reorganization plan, has been marked up 50 per cent. An efficiency and economy bill was introduced in both houses of the Legislature that would have actually reduced the cost of State government $4,000,000 a year. It was smothered in committee. One can only judge the Stephens plan by the result. The State government will expend under it $32,000,000 more than the cost under the old plan for the last two years.

Taxpayers of California have become so accustomed to being robbed, however, during the last ten years that they have lost the faculty to register either amazement or resentment. They seem to accept these raids on their private fortunes with the resignation of the Armenians. For ten years they have been enslaved by a rapacious plunderbund and they are growing accustomed to their chains.

The same administration that has piled this wholly unwarranted expense on the taxpayers has commanded the Legislature to adjourn without making a reapportionment of the State Senatorial and Assembly districts following the 1920 census. The reason given is that there has been a shift of population and that Southern California would exert too great an influence in the Legislature if she received the number of Senators and Representatives to which her population entitles her. The Constitution makes reapportionment mandatory; but the only mandates the present Legislature has obeyed have been those of the State machine. The plunderbund has demonstrated that it is stronger than the Constitution.

That the people of an American State should be so complaisant when subjected to highway robbery is inexplicable. Many sincere persons have expressed the belief that the indemnities demanded of Germany by the Allies are heavier than German commerce and industry can bear; that it will mean a bankrupt nation. DO YOU KNOW THAT THAT INDEMNITY IS A MERE BAGATELLE COMPARED WITH THE BURDEN THE STATE MACHINE HAS PILED UPON THE TAXPAYERS OF CALIFORNIA? The Allies have demanded 150,000,000,000 marks, to be paid in forty-two annual installments. That means in American money $875,000,000 a year, or a per capita tax for Germany of $12.50 annually. The per capita tax for California under the King tax bill is $24.25. That is for State purposes only, not taking into consideration Federal, county or city taxes.

If Germany is going to be enslaved economically for two generations to pay those indemnities, what is going to happen to the taxpayers of California? GOVERNMENT BY COMMISSIONS IS COSTING THIS STATE MORE PROPORTIONATELY THAN THE WORLD WAR COST GERMANY. Yet the Germans are protesting and the Allies are occupying industrial districts along the Rhine to enforce payment. What are the California taxpayers going to do?

And, in the face of such unparalleled extravagance, the administration propagandists on the State pay roll are calling upon the taxpayers to rejoice over "the greatest victory for efficiency, economy and the simplification of the State government ever proposed in California." The Times is constrained to congratulate the peoples of Europe that nothing worse than a World War struck them. They might have tried to "reform" their State governments after the California plan. Then they would have known what grinding taxation really means.

NEED THE MONEY.

The Shipping Board is asking for the trifle of $170,000,000 to cover its deficit and care for supplemental expenses incurred beyond its program. The beetle-browed mathematician of the inferior department computes that the Shipping Board has wasted enough money to place two comfortable schooners in every home between Penobscot and Pasadena.

AMERICA'S MINOR LEAGUE.

Five little Central American states, all of them in the bantam-weight division, are again seeking to form a federal union. Guatemala, Honduras and Salvador have already accepted membership in this minor American League; but Honduras and Salvador are still hesitating over ratification. Under the terms of the covenant the union becomes effective when three of the states have joined; but it will not attract serious attention unless Honduras and Salvador accept membership.

These lesser states are closely allied, both historically and politically. At different times they have been united under a single government. But they are all inclined to be contract-breakers and the national union has never been sufficiently unified to possess the power to compel the members to keep their pledges.

Curiously enough, the agitation over a unified government has followed closely that of the great powers for a League of Nations. Before the revolution against Spain they were all united as the province of Guatemala. In 1822 they were forcibly annexed by the then Mexican Emperor Iturbide. But the peoples rebelled against what they considered foreign tyranny and, in 1823, they forced Mexico to acknowledge their independence and formed what was then known as the republic of the United States of Central America.

This federation lasted until 1839. In that year Guatemala, the strongest of the group, broke away and formed an independent government. The remaining states could not agree on a plan of coercion so they tried to coax their erring sister back. Guatemala yielded to their insistence and in 1842 the federal union was reconstituted. Then came Carera, the despot of Guatemala. Unable to direct the policy of the federation, he led Guatemala into a new secession.

Civil war waged intermittently. Honduras, Salvador and Nicaragua sent their united forces against the Guatemala dictator; but they were beaten in the field and gave up the conflict. If they had possessed the courage and determination of their neighbors of the greater American republic a different history of Central America would now be written.

Thirty-five years later Guatemala, still the most powerful member of the group, sought to force the other states to join in a new federal union. Barrios, then President of Guatemala, led the forces of the republic against the willful little states that were now fighting to keep out of a union that they had fought a generation before to establish. Fortune was again opposed to union. He lost his life in an unsuccessful campaign and the plan to achieve unity through force was again abandoned.

Political unrest continued to stir these little free states. In 1895 Nicaragua, Salvador and Honduras formed a new union. A federal constitution was adopted, but Salvador became restless for individual freedom and withdrew and the constitution was abandoned.

Next came an attempt to form a league based on the principles supported by the Hague Tribunal. An international court was established which was to decide all questions of international law, and the five states were each pledged to abide by its decisions. The international court was a great success so long as there were no important questions to decide. But when it rendered a decision relating to some old canal claims Nicaragua became offended and signified its intention to withdraw. Our own State Department then became involved; for Nicaragua was under the protection of this country. We sided with Nicaragua against the international court, and that was the last of the little Hague Tribunal in Central America.

These persistent attempts to form a durable union indicate that the people of the states concerned feel that their interests would be better protected and that there would be less political friction if they could unite under a central government. But petty jealousies and scheming demagogues have, to date, broken up every combination that has been effected. The sentiment for union has never been strong enough to cause a majority of those concerned to fight for it. In other words, what was the Civil War period in the existence of the United States proved to be the disruption of the Central American Union.

No historian has yet come forward with a comprehensive narrative of the political history of the Central American republics. While there has been little world interest in the succession of revolutions, by reason of the comparative unimportance of the states, there has been abundant material for a treatise on experimental government. These states occupy as much territory as did the ancient Greek republics, and their population is almost as great. Yet how much these Hellenic peoples gave to the world and how little has come out of Central America!

Central America has remained unknown to the rest of the world because it has been lacking in versatile press agents. The states have little literature and, comparatively, no art. One great man would have been of more value to them in the eyes of the world than all the generations of comparative mediocrity. Perhaps they have advanced far enough along educational lines to understand the real meaning of a federal republic; and it is possible that their sense of honor may have been sufficiently developed to cause them to keep pledges once made. A federated republic formed on the lines of the government of our own country would prepare the way for a rapid development of a territory of wonderful fertility.

It is surprising to reflect, however, that, during all these years, it has been the policy of our own State Department to encourage separation rather than union among the Central American states. We aided Nicaragua to break up one union, but we have never used our rights under the Monroe Doctrine to keep the Central American states united. It is possible that President Harding and Secretary Hughes may promulgate a new policy in relation to the governments of our little southern friends.

HIDDEN POWER.

Now they are trying to harness the volcano at Hawaii and utilize the subterranean forces for power. It will be fine business when earth's eruptions can be made to run the Victrola. If Vesuvius can be hitched up to industry or taught to push a snow plow the world will be made safer for the folks in the Pompeiian room.

ON THE AMERICAN SCREEN.

By Gale

"Early action is likely."

"Bad Medicine!"

A blow at one of our National Institutions!

OPEN SHOP EXTENSION.

The spread of the open-shop principle in America is now so pronounced that even Boston is included. Terminating months of idleness in the building industry in that city, the Boston Employers' Association has decided to go outside the ranks of union labor and recruit from the larger army of the unorganized. They have invited the strikers to return to work at 90 cents per hour as against $1.25 and $1.50 demanded by the unions, and guarantee them protection against penalties of the labor bodies. This open-shop victory is unusually important because hitherto, as the employers themselves point out, their association "at all times has made union and only union agreements." That this policy has been inimical to the best interests of Boston is shown by the fact that for the past six months, a period during which building has been especially essential, there has been almost a cessation of work. The employers now refuse to enter into any agreement, "with labor or anybody else, that blocks progress, penalizes initiative and kills ambition." They frankly say that they did not want to resume work without an agreement with all trades. The adoption of the Los Angeles policy in the great Atlantic seaport will be watched with the greatest interest. The employers have offered what, even in these days of high prices, is a fair living wage and they have appealed to the Boston public to support them in their action. They should not have to look in vain for the people's cooperation.

RIPPLING RHYMES.

THE OLD MAN.

I met him often by the sea, a white and wintry gent; his age was eighty-two or three and he was frail and bent. And still he talked of coming days and plans he had in view, as though he meant to go his ways a century or two. He'd build a house and plant a tree and take a motor trip and visit lands across the sea when he could board a ship. He was a blithe and sprightly man, his spirit high and bold; he would not be an also-ran, though he was passing old. One balmy night he went to bed all full of pleasant schemes, and in the morning he was dead—he'd checked out in his dreams. And I admire that fine old jay, his system wise appears—to act as though you planned to stay on earth a hundred years. Too many think as they wax old that they have shot their bolts, that plans and schemes they shouldn't hold, since they're no longer colts. And so they sit before the fire and drool of bygone years, and by slow inches they expire, with dotard sighs and tears. When I'm that old I won't admit I'm in the has-been class, but from my trusty lyre I'll hit a noise like sounding brass. WALT MASON.

President Harding has contributed $50 to a fund to restore the "old swimmin' hole" near Caledonia, his early home. With regards to Jim Riley.

THE SEARCH FOR WOMAN'S PLACE.

BY FREDERIC J. HASKIN.

WASHINGTON, April 22. — A change in the attitude of the enlightened toward that knotty problem of woman's proper place in the scheme of things is shown by the great interest which has been aroused in this country by the Sheppard-Towner bill, and by many State measures which have been passed pensioning and otherwise caring for motherhood.

This change is based upon the discovery that woman's entrance into industry has greatly reduced her value as a mother, that there are only a few kinds of work women can safely do, and that poverty and factory work between them are costing thousands of lives of women and babies every year.

The feminists of a quarter of a century ago demanded loudly that woman should have complete economic independence. "We demand all labor for our province," wrote Olive Schreiner, one of the most eloquent and influential of the early feminists. And then the war came along, and women got just what Olive demanded. Most of them had never heard of feminism and had not personally demanded anything. They got all labor for their province because all the men were at the front. Of course, even before the war, the number of women in industry was great and growing. The reason for their presence in the factories was not that they had been inspired by visions of economic independence, but that it was becoming increasingly hard to find husbands who could support them. A little group of women at the top demanded economic independence. They got it by going into the arts and professions and to some extent into business. At these occupations they were remarkably successful. They won places in the working world without sacrificing either their feminine charm or their right to motherhood. But it does seem as if these leaders of the feminist movement did not fully realize that only a very few women can go into arts and professions, that for the great majority of them work means eight hours a day in a factory with very little hope of progress. The great bulk of women have gone to work because they had to, and the results have often been injury to their own health and that of their children.

BACK TO THE HOME.

The fact the feminists themselves have just lately realized. Several recent intelligent books on feminism set forth the new viewpoint in a very convincing way. That long discarded and much ridiculed motto: "Woman's place is in the home," seems to have been hauled out of the attic, dusted off, subjected to a few revisions and qualifications, and placed on the wall again.

At least these recent writers seem to have reached the conclusion that woman should be protected from all sorts of work which in any way injures her usefulness as a mother, and they are forced to admit that many kinds of industrial work are in that class. They agree that the woman of brains should follow a profession if she chooses, and that women in the arts and professions have as good a chance as men. They admit that every woman should be given every opportunity to fit herself for any kind of work her health will stand. But they see that motherhood is her most important function, from her own viewpoint in most cases, and from that of the State in all cases.

The trouble is that woman is now in industry by the million. For the most part she is not there by choice. She is there because she has to be in order to eat. Therefore, merely to establish the conclusion that she should come out again is futile. She is going to stay there because she has to. And industry itself is going to try to keep her there because she furnishes a cheap labor supply.

What is to be done, then? The answer of the scientific feminists is that laws must be made protecting her from conditions that menace her health and her value as a mother, and giving her all possible aid in caring for herself and her child. England and France have gone much farther than we have in protecting women in factories by laws regulating hours and character of employment, prescribing rest periods and the like. They have also gone much farther in providing care for women during the prenatal and maternity periods.

The Sheppard-Towner bill is the most advanced step yet taken in this country. It is chiefly an educational measure, providing for the instruction of mothers by State agencies under the general supervision of the children's bureau. As originally drawn the bill provided also that actual medical care could be given by the State when it was needed. This obviously socialistic measure was stricken out by the Senate, which then passed the bill with a reduced appropriation. It will doubtless come before the House at an early date. It has attracted so much favorable attention that there is little doubt of its passage in some form.

The proponents of the bill have made out a strong case to the effect that something should be done for motherhood in America. A few extracts from the hearing before the House committee will give in brief space the main facts upon which the demand for this legislation is based:

WASTED LIVES.

"We are still sacrificing the lives of many mothers as we did ten years ago. In 1918, 23,000 made the supreme sacrifice—shall I say for motherhood? No. Rather paid the supreme sacrifice to lack of suitable instruction, to absence of prenatal care, to unskilled and bungling obstetrics, and to dirty hands. Reliable statistics indicate that the maternal mortality this year will be about 15 per cent higher than the preceding year."

"The United States has the highest maternal death rate in a list of seventeen civilized countries, and the chances of a child surviving its first year are worse in this country than in ten other countries."

"Studies of nearly 34,000 infants in seven industrial cities show that an income earned by the father fairly guaranteeing the possibility of decent family life and permitting the mother to remain at home with the children, accompanies an infant death rate about three times as favorable as that in the lowest income group. In families in the lowest group, one baby in every six failed to survive its first year. In families of adequate income but one baby in seventeen died in the first year. These studies have no class basis. They include every baby born in a given town in a given year.

"In one city the infant death rate was five times as great in the mill district as in the fine residential district."

"The bureau's studies in rural areas of six different States revealed the fact that 80 per cent of the mothers had received no advice or trained care during pregnancy."

PEN POINTS

BY THE STAFF.

Former Emperor Charles may get a job as Governor of Tyrol.

Financial note—four billion dollars in silver would weigh 200,000,000 pounds.

Let's pay off that arrear to Colombia in Columbian half-dollars. Remember them?

More tough luck for Ireland. La Follette has arranged for a visit to the unhappy Isle.

Imperial county will have an unusually large crop of melons this year, and there ain't going to be a rind.

There is only one figure in our national history whom everybody recognizes by initials. We refer to "T. R."

They have got the cost of the World War down to $187,000,000. But such figuring is largely academic.

No weasel words in the communications of Secretary Hughes to foreign powers. No indication of "watchful waiting."

New reading of an old saw: Where two or three are gathered together there is the making of a bootlegger's conspiracy.

Why hurry about the nomination of the Democratic party? They have plenty of time. In fact, they have about all they do have.

Possibly one of the reasons that "Hamlet" is not made into a movie is because it would not be necessary to pay anything to the author.

The young lady across the way says that if she ever gets a home of her own she will have a winding stairway in it. It is so appropriate.

Jack Kearns denies that Jack Dempsey is going to Europe. He missed the large touring party that Gen. Crowder sent over there ago.

President Harding promises "advantage" as "ad-value-tage," but enough to make the old schoolmasters turn over in their graves.

Dancing is one of the required courses at West Point. And the graduates make use of the art to entertain other fellows to give an exhibition when occasion requires.

Twenty-eight members of the Congress are veterans of the World War. Having assisted in saving America, they are now in the task of maintaining what they won in the field.

Mt. Popocatepetl is again showing signs of uneasiness. Not much for the quietude in that country. No statesmen in violent agitation and the gasses simply escape somehow.

It doesn't make much difference whether the freeze did or did not damage the coming fruit crop. If it isn't the frost it will be too much rain or too little, or something else to keep up the prices.

It is possible that President Harding did agree to the Yap mandate, but the American people do not, and they are running the country's business as this page indicates the press.

And, men and brethren, we know you have you know that a good suit of clothes adds to a man's ability to get credit. The still may be overlooked for, but the other fellow doesn't know.

There must be a definite price for everything, including wages, in the very near future. The only question to be expected to maintain the present high standard are the wages of sin. They never drop.

J. F. Rutherford, president of the International Bible Students' Association, says that the end of the world will come to an end in 1925. That will be in the second Harding administration and Republicans will be happy that they won't care.

That young Polish boy prodigy in country is astonishing the world with beards in the chess game. Other boy prodigies in the old days were Adelina Patti gave an Academy of Music concert tour when she was but five years old. John Fiske read Greek when he was brew at 12.

If you are troubled with wrinkles, lacing place the index finger of each hand on the left subclavicular hollow and move it a few fractions of an inch above the clavicle. Then press upon the fifth cervicular nerve, which is the source of trouble will cease. It is as easy if you know where to find these various appendages of the human body.

There will be no more revolutions in history. The days of Paul Revere, Duval and Jack Sheppard on the highways of England were recorded in books, but everything that can be done has been duplicated in the early days of American history. They wore fancy period costumes, had real horses, used fancy names and used fancy vehicles. The highway robbers of today wear evening clothes, ride in limousines and carry automatics. Perhaps later historians may be able to find romance in our sky knights, such as Lieutenant Luckeyer or Raoul Lufbery, but they will never celebrate our highwaymen of today as a sort of hero worship is going out of good riddance!

THE WEED.

A dandelion grew beside the path:
"A little yellow weed" was all I had said.
It seemed to me a humble thing to grow
A bit of nature's golden glow
head.

As I stood there, a friend came by
the path:
I asked him how the weed
color grew
In such a place, and why it
laugh
He said, "The color of the sun
is in you."

J. F. Rutherford, president of the International Bible Students' Association, says that the world will come to an end in 1925. That will be in the second Harding administration and Republicans will be happy that they won't care.

That young Polish boy touring the country is astonishing the natives. Beards in the chess game. But there were prodigies in the old days. Adelina Patti gave an "American" concert tour when she was but 7 years old. John Finke read Greek and Hebrew at 12.

If you are troubled with blushing place the index finger on the left subclavicular hollow about two fractions of an inch above the middle clavicle. Then press slightly on the fifth cervicular nerve, whereupon the trouble will cease. It is all very easy if you know where to find these various appendages of the human body.

There will be no more robber barons in history. The days of Claude Duval and Jack Sheppard are on the highways of England were exploited in books, but everything that ever did has been duplicated recently in American history. They were attired costumes, had road horses with fancy names and used clumsy pistols. The highway robbers of today wear evening clothes, ride in motor cars and carry automatics. Possibly later historians may be writing of our sky knights, such as Frank Luke or Raoul Lufbery, but they won't celebrate our highwaymen. That sort of hero worship is gone—and good riddance!

THE WEED.

A dandelion grew beside the road
"A little yellow weed," someone had said.
It seemed to me a happy golden thing,
A bit of nature's dainty, fashioned head.

As I stood there, a friend came by the path;
I asked him how this weed could grow
In such a place, and with a joyful laugh
He said, "The color of that flower is in you."

JANE S. DIXLER.

SIGN CONTRACT FOR COLISEUM.

Mayor and Supervisor Chief Affix Their Signatures.

Will Start at Once on Huge Exposition Park Stadium.

Million-Dollar Structure to be City's War Memorial.

Los Angeles is to have the largest and most modern coliseum in the world. This was assured yesterday when Mayor Snyder for the city, and Supervisor Dodge of the Board of Supervisors, for the county, signed the contract with the Community Development Association providing for its construction by the association in Exposition Park. The contract has now received all the necessary signatures and the District Court of Appeals has held that the contract is valid.

The stadium or, as it rightly is to be known, the Los Angeles Memorial Coliseum, will be erected in the old horse course at Exposition Park at a cost of $310,000. It will have a seating capacity of 75,000 persons.

CITY, COUNTY TO PAY.

The contract provides that the coliseum is to be erected by the association with money borrowed from the Clearinghouse Association, the city and county to pay off the loan under a rental agreement. Within six months after work is started $100,000 will be paid by the city and county.

Within thirty days after it is completed the city and county will each pay $25,000, then for the next six years they will be annual installments as follows: $68,000 for the second year, $65,000 for the third year, $62,000 for the fourth year, $56,000 for the fifth year and $52,000 for the sixth year. After the payment of rent vests the city and county will maintain the coliseum.

The contract provides that the city and county shall hold in it pageants and other public exhibitions; that the county may have the use of the coliseum fifteen days a month, the city fifteen days on alternate months, and the Community Development Association fifteen days each month. The Sixth District Agricultural Association fifteen days a year. The agricultural association owns the ground.

FOR IMMEDIATE START.

Work of construction, Mayor Snyder stated, will be started at once by the association. The structure will be a combination amphitheater and stadium.

The contract was approved by the City Council and by the Board of Supervisors last summer, but Mayor Snyder and Chairman Dodge refused to sign the document for the purpose of joining with the Clearinghouse Association in instituting a friendly suit in order that the legality of the matter could be threshed out in the courts. With the decision that the contract is legal, and the safety of the funds insured, the Mayor and Chairman Dodge affixed their signatures.

The contract now contains the signatures of Chairman Dodge, Mayor Snyder, J. E. Cowles, president, and Charles S. Lamb, secretary of the Board of Playgrounds; Mrs. Sloan-Orcutt, former president, and J. J. Hassett, secretary of the Board of Park Commissioners; Frank Simpson, vice-president, and W. N. Harris, secretary of the Sixth District Agricultural Association; D. A. Hamburger, president, and Zack J. Farmer, secretary of the Community Development Association; County Counsel Hill, and Charles E. Burnell, City Attorney.

The Community Development Association is composed of prominent business men who seek through the stadium a memorial of the World War veterans, especially those who gave their lives on the battlefields. John Parkinson is the architect.

INCREASE PAY OF JAIL CHEF.

Tips Lost, Cook Threatens to Quit and Is Granted Fifty-Dollar Rise.

Chef Hemmaree of the County Jail will, by vote of the Supervisors, receive $50 additional salary a month. The board was faced with the alternative of granting this increase or seeking a new cook. Chef Hemmaree will receive $150 a month.

Under the no-perquisite system adopted by the Supervisors, Chef Hemmaree was deprived of tips from prisoners averaging $50 a month. His salary was $100 a month. So he issued an ultimatum: No tips, more salary; no more salary, then au revoir.

A Brain Can't Work Right On Thin, Watery Blood

It Takes Iron to Make Strong, Forceful Magnetic Men With the Power and Energy to Win

...by a capable, intelligent man just a bit short of success—nearly "quite" but not quite—simply because he doesn't feed iron in his blood to give physical strength and power to the proper force to his brain and mental strength to his "will." ...reason he does his work right—thinks straight that win—on thin, weak, blood say more than a locomotive with a big train of cars with a weak engine under its boiler.

...your blood is starving for iron no ...ulants can put iron ...You must have iron, for without ...blood loses its power to change ...into brain and nothing you eat ...its proper amount of good. You do ...full strength out of it. To get ...must eat the husks of grains and ...and skins of fruits and vegetables—furthers did or take a ...such iron-containing foods as ...apples. But be sure the iron ...is organic iron, and not metallic ...iron from which people usually take. ...is free just as it comes from ...of strong acids on small pieces ...and is therefore an entirely different ...organic iron.

...look like the iron in your blood and like the iron in spinach, lentils and apples. It may be had from your druggist under the name of Nuxated Iron. Nuxated Iron represents organic iron in such highly condensed form that one dose of it is estimated to be approximately equivalent (in organic iron content) to eating one-half quart of spinach, one quart of green vegetables or half a dozen apples. It's like taking extract of beef instead of eating pounds of meat.

To prove to yourself what Nuxated Iron will do, get your doctor to take a specimen of your blood and make a "blood-count." Then take Nuxated Iron for a month and have a new "blood-count" made and see how your red blood corpuscles have increased and how much stronger and better you feel, see how the color has come back to your cheeks, how steady and strong your nerves have become.

Over 4,000,000 people annually are using Nuxated Iron. It will not injure the teeth nor disturb the stomach. Your money will be refunded by the manufacturers if you do not obtain perfectly satisfactory results. Beware of substitutes. Always insist on having genuine organic Iron—Nuxated Iron.

Look for the letters N. I. on every tablet. Sold by all druggists.

NUXATED IRON ENRICHES THE BLOOD-GIVES YOU NEW STRENGTH AND ENERGY

Ready for the Day's Work

Off for the day's work with buoyant step and eager mind—ready to tackle the job that comes first—a clear and responsive brain in a supple body—that's the man who eats

Shredded Wheat

a simple, nourishing food that contains all the body-building elements in the whole-wheat grain. Leaves the mind alert for the problems of the day. A man's food for a man's job. It is 100 per cent whole wheat prepared in a digestible form.

Two biscuits with milk and berries or other fruits make a delicious, satisfying meal and cost but a few cents.

Pacific Coast Shredded Wheat Co., Oakland, Cal.

FLEET TO START YALE ON VOYAGE

Admiral Rodman Authorizes Unique Demonstration.

First Official Sendoff for Private Vessel Here.

War Craft to Escort Ocean Greyhound to Sea.

Signal honors will be shown the Los Angeles Steamship Company's super-express passenger steamship Yale by the Navy next Monday afternoon when the vessel steams out of Los Angeles harbor for San Francisco. The Pacific Fleet will officially escort her to sea and send the Yale away on her first voyage since she returned to private ownership after being commandeered for war service.

Authorization for the unusual demonstration for the Yale came yesterday from Admiral Rodman, commander in chief of the Pacific Fleet, signed by Capt. R. M. Brainard, the admiral's acting chief-of-staff. Negotiations with Admiral Rodman were carried on through Rear-Admiral Twining by General Manager Frey and District Passenger Agent Cullen of the Los Angeles Steamship Company.

Never before in the history of Los Angeles Harbor has such an official sendoff been given a passenger vessel in private ownership. The officers of the steamship company give all credit to the vessel which came back from the war wearing two gold chevrons on her smokestack, emblem of notable service overseas. The Harvard, sistership to the Yale, which will enter the Los Angeles-San Francisco passenger service in two or three weeks, shared her perils and responsibilities during the war and won similar honors.

GALA EVENT.

The departure of the Yale at 3 p.m. on the afternoon of May 3 will be made a gala event. Her decks will be crowded with a brilliant assemblage of passengers and officials of the steamship company and of the Navy. Commander S. N. Robinson, U. S. N., will be a guest. The inner harbor will be alive with small craft, all in festive array, colorful with flags and bunting, while hundreds of whistles will screech bon voyage to the mighty steamer as she glides away. All the fishing fleets, the motor clubs and every privately owned vessel in the harbor will join in the concert to do honor to the Yale, the fastest and finest boat that ever engaged in coastwise service on the Pacific.

The official order for naval participation and escort for the steamship Yale on her first run is addressed to the commander of the battleship force, the commanding officer of submarine chaser 298, the commanding officer of submarine chaser 306 and the commanding officer of any destroyer in the harbor that may be available to join the escort.

TEXT OF ORDER.

The order, omitting the introductory clauses, reads as follows:

"The steamship Yale of the Los Angeles Steamship Company will leave her docks at Wilmington for Francisco on her first run on the 2nd or May at 1500 (3 p.m.).

"It is desired that the fleet join in giving her an appropriate sendoff from Los Angeles Harbor.

"The following plan is to be carried out:

"Subchasers Nos. 298 and 306 will be under way in the channel between Dead Man's Island and Submarine Base, headed seaward. No. 298 on port side, and No. 306 on starboard side, ready to take station off each bow of the Yale as she comes out and then to escort her beyond the breakwater light. Subchasers dress ship by carrying a large ensign at masthead.

"If a destroyer is available, she will be in position off the turning buoy, ready to lead the Yale out for about a half mile beyond the breakwater light.

"As the Yale approaches the battleship anchorage, she will salute by blowing three long blasts on her whistle and dip her colors. This salute will be returned by each battleship blowing three long blasts on their whistles and by dipping colors. If bands are available, they may be paraded and play.

"The Yale should arrive off Submarine Base by about 1515 (3:15 p.m.) Vessels will be in readiness prior to this hour.

[Signed] "R. M. BRAINARD,
"Acting Chief of Staff."

TO ARM MAIL MEN.

Shotguns Are on Way for Use of Drivers of Trucks.

To guard against any more holdups of trucks carrying mail to and from the Los Angeles postoffice to various railway stations, the postoffice employees are to be armed with shotguns and .45-caliber revolvers. Postmaster Brown yesterday received advices from Washington to expect soon a consignment of the weapons for use of the employees who are charged with the duty of transporting the mails.

It is the intention also to arm the employees in the registry division, as thieves have shown a strong ambition to secure registered mail.

Kissless for Twenty Years, Husband Says.

John W. Weightman, after a wedded life of twenty-four years, sued for divorce and yesterday the case was on trial before Judge Walton J. Wood. He charges that Harriett Weightman has for twenty years past refused to kiss him.

In a cross-complaint, Mrs. Weightman states that her husband has "second-sight." She said he became friendly with another woman who died and named him in her will. This was the cause of their domestic trouble, she asserts. The case was not concluded yesterday.

FOR FINAL LECTURE.

R. Hayes Hamilton, national travelogue lecturer, who came to California for an eight weeks' lecture tour in the interests of the preservation of the California missions and the "Mission Play," will complete a series of eighty lectures on Sunday evening when he speaks at the St. Mary's Academy. Mr. Hamilton came here in February, starting his lecture tour in Columbus, O.

Store Hours Daily 9 to 5:30

Every Women is Interested in Dress Cottons

WINSOME, sheer, yet durable materials of every description now in this Section. Among others:

Swiss Voiles

Normandie Swiss voiles in light and dark shades of all new designs—dots, figures and the distinctly novel patterns for spring, they hold their color and their fine finish; yard *85c*

French Batistes

45 inches wide, in two styles of stripes, one a fancy and the other a plain stripe, the very latest whim in dress cottons, with stripes, too, great favorites for spring; yard ...*$1.00*

Dress Ginghams

As popular as ever, shown in all their array of smart plaids, checks, stripes and plain colors, from *25c to $1.25 a Yard*

Embroidered Dress Swiss

31 inches wide; dots, figures, novelty stripes, all new and very pretty; yard *$1.75*

Plain Colored Voiles

40 inches wide; in new shades and in all qualities, from *50c to $1.50 Yard*

Plain Swiss Organdies

45 inches wide; permanent finish, in all the staple colors and many of the novelty shades; yard *$1.50*

Another 45-inch Swiss organdie is here in stripes, checks, figures, dots; all very new; yard *$1.95*

Figured Dress Voiles

40 inches wide; all the tiny figures best liked in these goods; yard....*49c*

(Second Floor)

Quality Silks At $1.95 Yard

Silk Broadcloth Shirting

32 inches wide; in neat stripes and the popular white La Jerz; not in some time has such silk sold at so low a price.

Crepe de Chine

Twenty desirable colorings in this 40-inch material, so much utilized in making blouses and lingerie.

Novelty Georgettes

40 inches wide; the majority in dark colors.

Mignonette Fiber Silks

36 inches wide—fine, firm quality in a variety of shades, including white, black and navy.

At $2.95 Yard

Plain Colored Taffetas

36 inches wide; a quality that has been much higher in price; one we recommend for service; in good shades of navy, gray, brown, delft, tan, beige, old rose, Pekin, henna, orange, tomato, jade, honey dew, apricot, turquoise, pink, ivory.

Baronette Satin

40 inches wide, in white, turquoise, burnt orange, gray, rose, apricot and black.

Printed Radiums

And foulard silks—40 inches wide; the very choicest patterns for Summer frocks.

(Second Floor)

Initial Handkerchiefs 19c Six for $1.00

LARGE colored initials, or fancy embroidered wreath and intial in white; all letters here in either one or the other of these good styles.

Ideal for school use and for general good service.

(Main Floor)

Now You May Buy All-Wool Sweaters for Only $5.95

A PRICE much lower than they used to be, as you doubtless remember. All-wool Tuxedo fronts, with braided girdle and pockets. Shown in navy, turquoise and buff.

Tie-On Sweaters—in all-wool, burnt orange, brown, peacock and jade, in stock now at **$3.45**

Chiffon Alpaca Sweaters — something novel, in tie-on style; obtainable in burnt orange, champagne, brown and honey dew; at **$7.95**

(Third Floor)

Who Would Expect to Buy 10-inch. Sash Ribbons at $1.95 YD.

IT does seem almost incredibly good news, in view of what such widths and such ribbons recently cost!

However, here they are, awaiting your selection—two-toned taffetas with a satin stripe, in best pastel shades; and if you are wise you will be here promptly at 9 for yours.

Roman Stripes and Bayaderes

In ribbons for sashes, show some most unusual combinations of color, and tone up a dress in wonderfully effective fashion. Here in diversity, at various prices.

"The First Thing You Think Of"

What Is ORANGE PEKOE Tea?

IT has nothing to do with oranges. It is simply an oriental term to denote one of the different gradings of tea. There are three gradings of Orange Pekoe Tea—

Flowery Orange Pekoe	tea of very finest quality
Broken Orange Pekoe	" " " choice "
Orange Pekoe	" " " average "

The first two are very much superior to ordinary Orange Pekoe. Ridgways (*Gold Label*) Orange Pekoe Tea is composed only of the Flowery and Broken Orange Pekoes—the finest teas procurable.

FOR TRUE REFRESHMENT

Ridgways Tea

FRIENDS TALK OF BIG CHANGE

They All Know What Tanlac Did For Her, Says Husband.

Gains 12 Pounds and Feels Like New Woman.

All Her Troubles Gone After 7 Years' Suffering.

"My friends all know what I think about Tanlac, for I've told them; but I'm glad to tell anybody what it has done for my wife," said L. J. Woerter, 2530 Nicholson Ave., Los Angeles, Cal., well known employee of Brown and Co., recently.

"Since taking Tanlac my wife is so well and strong she hardly seems like the same person. Besides relieving her of a bad case of indigestion, it has built her up twelve pounds in weight, and we just think there's nothing like it. For seven or eight years my wife had all kinds of trouble with her stomach. Everything she ate just soured and formed gas and caused her misery for hours. She had scarcely any appetite, couldn't sleep well, and was so weak and nervous she could hardly do her housework.

"But almost from the day she began taking Tanlac, she commenced to improve, and she is in such fine health now that our friends have noticed the change in her condition. She has a fine appetite, everything agrees with her and she gets plenty of sound sleep, so that she feels well and strong all the time. We're so grateful for what Tanlac has done for her that we just tell everybody about it." Tanlac is sold in Los Angeles by the Owl Drug Co. and leading Druggists.—[Advertisement

ASPIRIN

Name "Bayer" on Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.—[Advertisement.

SIMPLE APPLICATION THAT DISSOLVES BLACKHEADS

No more squeezing and pinching to get rid of those unsightly blemishes, blackheads. There is one simple, safe and sure way to get them out, and that is to dissolve them. To do this just get about two ounces of calonite powder from your druggist—sprinkle a little on a hot, wet sponge—rub briskly over blackheads for a few seconds—wash the paste off and every blackhead will be gone. Pinching and squeezing out blackheads make large pores and you cannot get all of the blackheads out this way—while this simple application of calonite powder and water dissolves every particle of them and leaves the skin and pores in their natural condition. Any druggist will sell you the calonite powder and about two ounces is all you will ever need.—[Advertisement.

PRISONERS HELP BUILD NEW JAIL.

Bootleggers, Burglars, Cops and Carpenters on Job.

Author of Suicide Note Still Alive, Say Police.

May Bar Movies from Residence District.

[EXCLUSIVE DISPATCH.]

LONG BEACH, April 26.—Bootleggers and burglars pounding nails alongside patrolmen was the scene that presented itself here today when the prisoners in the Long Beach City Jail, out of a home, went to work with officers of the department in the erection of a temporary jail pending the building of the new City Jail. Chief McLendon gave the prisoners a chance to get a little exercise and fresh air while the old jail was being torn down to make way for the new one, and they all accepted. Many officers with carpenter experience also expressed a willingness to aid in the erection of a temporary bastile so they would have a place to hold their prisoners. The old City Hall is being moved this week to a lot across the street. The new municipal building will be erected on the site occupied at present by the City Hall.

CHANGED HIS MIND.

Long Beach police learned today that A. D. Howard, former Iowa attorney, who left a note last week that he had left to drown himself in the ocean by leaping off the end of the Pine-avenue pier, had been seen since the finding of the note, and apparently changed his mind about dying at this time.

BUILD NEW CHURCH.

Officers of the Immanuel Baptist Church today announced that plans would be prepared at once for the erection of a new $100,000 edifice at Obispo and Eliot streets, the site of the present church.

TO BAR MOVIES.

City Commissioners were today asked to pass an ordinance prohibiting the erection of a moving-picture theater, "except in the downtown" section of the city. The request came as a result of plans announced last week for the establishment of a cinema house across the street from the Carroll Park school. Parents objected on the grounds that it would interfere with the pupils' study. The solons took the request under advisement.

BONDS CARRY.

[LOCAL CORRESPONDENCE.]

SIERRA MADRE, April 26.—Considerable interest was aroused here today over the $16,000 bond election for the purchase of a fire engine and other equipment for the fire department.

Out of a total registration of 750 voters, 425 were cast in favor of the bonds and 22 against. The bonds require a two-thirds vote to carry.

The Chamber of Commerce and the Firemen's Club had numerous campaign workers at the polls getting out the vote and checking off voters.

The new combination fire engine and truck purchased by the Chamber of Commerce recently will now be taken over by the city, according to tentative pre-election arrangements with the City Trustees. The Firemen's Club now numbers 190 members. This organization will shortly launch a campaign for the erection of suitable headquarters and a clubhouse.

ODD FELLOWS MEET.

[LOCAL CORRESPONDENCE.]

RIVERSIDE, April 26.—Redlands won the first and second prizes for decorated automobiles in the Odd Fellows' parade today, participated in by the lodges comprising the fifty-first district of California. The Poinsettia and Rebekah lodges of Riverside were awarded first and second prizes, respectively, for the most attractive floats in the procession. The anniversary of Odd Fellowship was celebrated in Fairmount Park, where the visitors were welcomed by Mayor Porter. The principal address was delivered by Past Grand Master T. W. Duckworth of San Bernardino. The evening was given over to the exemplification of degree work and to dancing in the I.O.O.F. banquet hall.

CITY IS THREATENED WITH POMONA BLUES.

SUNDAY CLOSING CAMPAIGN SOON TO START IN SANTA ANA.

[EXCLUSIVE DISPATCH.]

SANTA ANA, April 26.—Pomona's blue laws are not for Pomona alone, but efforts are being made to extend their influence to other Southern California cities, with Santa Ana looming as the next battleground, it was indicated here today. First, the Orange County Ministers' Club, thirty-two strong, met here at noon and adopted a resolution strongly protesting against the California Valencia Orange Show at Anaheim being continued open over Sunday, May 22, with threats of a ministerial boycott of the exposition if the dates May 17-22 are carried out.

One of the principal aims of the new club is to develop sentiment in favor of more widespread Sunday observance and a concession of a midweek half-holiday for working folks was proposed. The club also appointed a committee to ask the city of Newport Beach to strictly enforce a bathing suit law passed several years ago.

Then tonight an address on "Blue Pomona, How Blue and Why," was given before the Booster Brotherhood of the Methodist Church by Rev. Joseph Hedgpeth of Pomona, with "Unclean Pictures" as the principal topic. Rev. Hedgpeth had an active part in Pomona's famous blue law campaign, and his address here tonight is taken by many as the opening gun in a similar battle planned for the near future in this locality.

WRITER IS FINED DOLLAR AND COSTS.

[BY A. P. NIGHT WIRE.]

CHICAGO, April 26.—Leonard G. Edwardson, Chicago correspondent for a New York paper, was fined $1 and costs by Judge Thomas Taylor on a charge of criminal libel against Judge Charles A. McDonald, chief justice of the Criminal Court.

The case resulted from articles written by Edwardson concerning reports that the 1919 world series baseball scandal cases would not be brought to trial.

RAID SOCIAL CLUB.

[EXCLUSIVE DISPATCH.]

SANTA ANA, April 26.—The Union Social Club of Brea was raided last night by Sheriff Jackson and deputies. Six men, George Fee, A. B. Morgan, Frank Briggs, T. B. Smith, Irwin Yeargan and T. E. Collins, were arrested, charged with gambling.

Eighteen decks of cards, five boxes of poker chips, and a box of dice were among the material secured as evidence, not to mention $55 cash found in the "kitty." Also secured was a list of 124 men, purported members of the club. A dozen players jumped through windows and escaped, as officers battered down the doors. Briggs, Smith and Collins pleaded guilty today and were given sixty-day suspended sentences. The others pleaded not guilty and trials were set for May.

FLYERS TO HAVE CLUB.

[LOCAL CORRESPONDENCE.]

ONTARIO, April 26.—C. C. Minton, member of the Aeronautics Committee of the Ontario Chamber of Commerce, today announced plans for the formation of the Ontario Aero Club, with an initial membership of twenty men already assured. The Ontario club is to be a unit of the Aero Club of Southern California and plans to purchase a Curtiss airplane, of the type used in the Army, at once and will establish a flying school at Latimer Field here.

GREATER SOUTHERN CALIFORNIA

"We are with you body, soul and breeches."
—Conger-Phelps Sales Co.

ROBS ROOMING-HOUSE.

[EXCLUSIVE DISPATCH.]

PORTERVILLE, April 26.—Porterville police are searching for an unknown man, who entered the room of M. G. Berkovich in a local rooming-house during the morning and took $240 in Liberty Bonds and notes, $35 in cash and a quantity of wearing apparel.

Berkovich, who is employed at a local magnesite mine, left his room about 8 o'clock and returning at 10 discovered at a glance that it had been rifled. No clew of the thief has yet been found.

WIRES WERE DOWN.

[LOCAL CORRESPONDENCE.]

PASADENA, April 26.—Transcontinental telegraph wires and electric signal transmission wires on the Santa Fe Railroad here were burned out during the night in the fire which started at the candy box factory of the Hall Manufacturing Company in the South Raymond-avenue industrial district. The loss on the factory was about $10,000. Trouble shooters of the Santa Fe repaired the telegraph and signal wires by morning.

REMEMBERS FRIEND.

Railroad Man Wills Property to Chum.

[LOCAL CORRESPONDENCE.]

PASADENA, April 26. — Claude Laytham, a conductor employed by the Pacific Electric Railway here, has been left an estate of $10,000 by his friend and fellow-car conductor, Charles Sanders, who died here a few days ago. Laytham, who had been a life-long friend and almost constant companion of Sanders, was advised today that Sanders left an estate valued at $10,000 and that the deceased had bequeathed it to him. Sanders has been on the Mt. Lowe line of the Pacific Electric for twenty years and Laytham has been in the employ of the railway a quarter of a century.

Tourists go to Honolulu, Japan and even China, then upon their return, purchase their oriental things at Grace Nicholson's famous Pasadena shop, telling her prices are lower here, the stock more complete, and whenever they mentioned. Miss Nicholson's shop abroad it was well known by dealers and collectors.—[Advertisement.

The Ground Gripper Principle Assures Correct Walking

The straight inside line and the rotar heel keep the foot in proper line and give you the traction which is essential to efficient walking.

The free flexible shank relieves that resistance to proper foot action in walking which the stiff shank imposes on the muscle of the foot—You can walk with less fatigue in Ground Grippers because the effect of Ground Gripper principles is to assist and not to retard.

BROUGHT HERE BY OPEN SHOP.

Bay City Firm Will Remove Plant to This Place.

Union Labor Domination is Unendurable in North.

Hundred Employees to Lose Jobs or Come South.

Still another metal trades firm will leave San Francisco because of labor union violence and will locate here, reports the California Metal Trades Association of San Francisco in its weekly letter of the 21st inst. It says:

"In our weekly letter No. 39 of Sept. 24, 1920, we mentioned the removal from San Francisco of one of our metal trades firms, principally because of labor unions' constant harassing. And today we are advised that the head of another local firm is now in Los Angeles arranging to locate there. This firm has a good lease on a modern building in a fine location here, with a very complete equipment, and moving means a great expense and loss to it, but its business is highly competitive and strictly manufacturing, and it has decided, from past experience, that it must get out of San Francisco. It is operating upon the American Plan; it has been picketed and its men harassed in various ways since Oct. 1, 1919, and lately two foremen have been assaulted and seriously beaten. These foremen are quiet, hard-working citizens, with families and homes, yet they are attacked by thugs on the streets in the heart of the city in broad daylight.

"It is a lovely situation when, in a city of this size with a police and detective force, this type of lawlessness can continue year after year until a firm that does not operate in accordance with the rules and dictates of organized labor is driven out of the city. These business men, and their hundred workmen—not to mention their families—who are forced to find another home in Los Angeles or look for another job here where jobs are scarce, are sure to be strong boosters for San Francisco."

TOPLINERS CAPTIVATE WITH ELKS MINSTRELS.

LAUGH-GETTERS ARE BILLED FOR STAR ACTS DURING BENEFIT SHOWS.

One of the stellar artists on the Elks Mammoth Minstrel Show program at the Mason Operahouse this week is Walter Perry, who scored again last night as a laugh-getter. As one of the stars featured in the first part, Mr. Perry is also billed for a specialty in the second part, wherein are presented a wonderful variety of vaudeville acts. As "The Sable Son of Momus," he precipitates a riot of mirth with his stories and inimitable humor.

Cooper, Wood and Mack, newcomers on the Elks program last night, were booked for "A Ton of Comedy," and they delivered full weight.

Ed Latell, with his banjo, his hat and his musical discs, scored heavily also, as did Lydia Yeamans Titus in a "nut" act. Miss Titus is one of the few women in the Elks order being an honorary member.

The New Orleans Jazz Orchestra and the Elks Quartet were included in the vaudeville offerings as musical novelties, while the entertainment was concluded with another mirth-provoking feature, "Tonsorial James," a clever comedy skit, featuring Jimmy Gibson, Fred Gambold, Al Fremont and Miss Edythe Willis.

T. Roy Barnes, whose "nut" act won the plaudits of the audience on the opening night, will probably be booked for a reappearance, while Art Currier, scheduled to appear later in the week, is billed to sing for the first time in public, "My Old Virginia Home," James Green's latest song.

BOARD'S SECRETARY RESIGNS POSITION.

MISS CONVERSE TO GO INTO SPECIALTY FIELD AFTER LONG STATE WORK.

After opening and for seven years managing the Los Angeles office of the State Railroad Commission Miss Janet Converse yesterday tendered her resignation to that body in San Francisco. At a meeting of the commission there it was accepted "with regret." No successor was named. Miss Converse is to engage in business with Mrs. Agnes Dawn Thurnau.

Miss Converse established the local office in 1913 under the direction of Commissioner Eshleman. She has been in charge ever since while the office has grown to be one of the most important in the State government and one of the largest in the organization. During the period of her service she has acted as a buffer between the public and the public utilities and has handled more than 4000 complaints of consumers.

In her new work Miss Converse will have offices in Los Angeles and San Francisco. She and Mrs. Thurnau are planning to handle the public relations departments of corporations. Due to the experience of Miss Converse in the State Railroad Commission office, she has acquainted herself with the desires and expectations of the public. It is in this field that the two women plan to work. They will conduct an advertising and publicity bureau.

Mrs. Thurnau has been making industrial surveys in the East for some time and recently returned to California, where she has been engaged in retail advertising. Miss Converse's resignation becomes effective June 1.

DISMISS CALF CASE.

Jury Acquits Man Who Bought Holstein "Crown Prince."

Although the "Crown Prince" of the Holstein herd of the Hartsook Corporation at the company's ranch near Lankershim had a long pedigree, his noble lineage in the cattle kingdom failed to count yesterday in Judge Willis's court and B. Allen, accused of obtaining the calf by larceny through trick and device, was acquitted by a jury. Attorneys for Allen said he bought the animal in good faith. The defendant was released.

BUILDER OF STILLS GETS JAIL TERM.

After Two Years' Effort to Avoid Punishment Man is Convicted; Fined.

Leon V. Rogers, who started a still factory in the early days of prohibition at 136 West Twenty-fourth street, and has been able in one way or another to avoid punishment in the local Federal courts for almost two years, was finally brought to book Monday in U. S. District Judge Bledsoe's court.

Following his plea of guilty, he was fined $800 and given thirty days in the Orange County Jail on two counts of the indictment.

On motion of Asst. U. S. Atty. Green, the twenty-eight stills captured at the home are to be turned over to one of the Los Angeles high schools, the copper to be used in the art and metal departments.

"Break them up completely," said Judge Bledsoe, "so there will be no similitude of a still; we are having enough trouble with the grown-ups and cannot afford to set any bad examples before the children."

On the eve of the passage of the Volstead law, Rogers started a still factory at his home, and was doing a thriving business. He was not making any liquor, but he had a quantity of mash on hand, and explained to prospective purchasers how easy it was to make a fine article of whisky or brandy. His sales were large until he was located by Maj. McReynolds of the Internal Revenue Office, and his

WAR VETERANS TO BE PICNIC HONOR GUESTS.

WOMEN RELIEF WORKERS TO ENTERTAIN WOUNDED HEROES SATURDAY.

Ex-service men, especially those at hospitals in this district, who are able to attend, will be the guests of honor at a picnic to be given in the Pepper Grove at Sawtelle on Saturday by women interested in relief work for veterans of the World War. Special arrangements are being made for the proper outdoor entertainment of the veterans of the Argonne, Chateau Thierry and other fronts, many of whom are now recuperating in hospitals and homes in Southern California.

Automobiles will be ready at the Coulter Building on Broadway to take ex-service men, both of the Army and Navy, to Sawtelle on Saturday morning. Cars will be on hand to take the women interested in this work to the scene as well.

Mrs. J. E. Ware, who in handling arrangements at Hollywood, reported yesterday that she is receiving a hearty response for the picnic in that section.

Mrs. Nannie Brown, who is one of the hospital workers for the veterans, and her assistants will be at room 218, Coulter Building, Saturday morning and will receive pie, salads, cakes, olives, sugar, sandwiches and other eatables brought in for the veterans.

"Mother" Maud Barrett is handling general arrangements for the picnic.

FINDS DEATH NOTE.

Woman Asks Police to Hunt for Husband; Fears Suicide.

"Dear Rebecca: When you read this I will be gone to my long sleep where I don't need any burial, so don't worry yourself about me. All the joys are vanished, especially when neuritis sets in. [Signed.] William."

This is the note found by Mrs. Rebecca Gibson when she returned to her home at 2746 Chickamauga avenue, Sawtelle, on Sunday and discovered that her husband was missing.

Yesterday Mrs. Gibson asked the police to start a search for the man. She stated that his left arm is missing at the elbow and his right leg at the knee. He wears an artificial leg. Mrs. Gibson told the investigating police that her husband was in poor health and may have thrown himself into the ocean.

RUSS MAIL BAN OFF.

Letters and Postcards May Now Be Sent to Sovietland.

Postmaster Brown was informed yesterday that letters and postcards may now be sent to Russia. The ban was imposed three years ago.

Mail for Vladivostok and Eastern Siberia will be accepted when it consists of letters, postcards, printed matter, samples of merchandise and commercial papers conforming to the postal union rates.

Letters and postcards to Russia in Europe go at the rate of 5 cents for the first ounce or fraction thereof, and 3 cents for each additional ounce and fraction thereof.

DUE TO CABLE TROUBLE.

Because of the interruption of the cable between Gaum and Manila and Guam and Tokio, messages to China are at the present time routed the other way around the world, says the advice received yesterday by J. M. Green, city superintendent of the Western Union. Cablegrams to Japan, Formosa, Korea and Japanese possessions via the Pacific cable are also subject to heavy delay. Wireless communication, however, is clear.

Appetite Keen and Bowels Relieved

You can relish your meals without fear of upsetting your liver or stomach if you will put your faith in Carter's Little Liver Pills. Foul accumulations that poison the blood are expelled from the bowels and headache, dizziness and sallow skin are relieved. Small Pill—Small Dose—Small Price

'EASE-ALL
Ample Arch Aid for Women

IF you have broken-down arches or the least suspicion of arch trouble investigate the "EASE-ALL" Shoe at once.

Many cases of arch trouble would never develop were the proper support supplied at the right time.

If breakage has not progressed too far you can soon restore your feet to normal.

The "EASE-ALL" shoes correct arch troubles because they have BUILT IN SHANKS that elevate the bones of the foot to their natural position.

SPECIAL COUNTERS that act as sustaining walls to hold these bones in place.

One pair will convert you to the "EASE-ALL" doctrine.

A shoe of alluring beauty.

TELLS DELIGHTS FOR EPICURES

Chef Calls Southern Dishes Best He Ever Tasted.

Gives Recipe for Virginia Ham, with Raisin Sauce.

Here's How to Make Tender Steak from Poor Beef.

BY CHEF A. L. WYMAN.

[SPECIAL CORRESPONDENCE.]

BOSTON, April 26.—On the way from Birmingham to Boston I stopped for three days in Atlanta, and found some good southern cookery in a small tea room operated by two southern women. Sweet potatoes, southern style, served here were the best that I have ever tasted. They were parboiled in salted water, then peeled and cut in large pieces the shape of French fried potatoes, the pieces were then boiled in hot sugar syrup with a slice of lemon until clear. When the pieces were cooked they were lifted out of the hot syrup and placed on a hot serving dish and given a slight dusting of paprika and melted butter.

Roast chicken as served in this tea room had dressing made with one cup of cracker crumbs mixed with one-third of a cup of melted butter, one-third of a cup of boiled water and seasoned with chopped parsley, salt, black pepper and sage. The chicken was rubbed with salt and a paste made with three tablespoons of butter and two of flour. The dressing was put in just before placing the chicken in the oven.

In return for some of my California recipes the ladies gave me some of their recipes and I told them that I would send them out to The Times readers. One of the recipes given me for cooking a ham they claim has been used by their family for two generations.

Scrub a Virginia ham and place in a pot with two tablespoons of mixed pickling spices, cover with boiling water and simmer gently until done—from three to four hours. Remove from the water and cut half of the skin. Dust the fat with fried bread crumbs mixed with brown sugar; stick whole cloves around the exposed fat and brown in a medium oven. Serve cold with seedless raisin sauce.

For the raisin sauce heat together one cup of boiling water, half a cup of lemon jelly, one-third cup of vinegar and two-thirds cup of seedless raisins, simmer for fifteen minutes and thicken with one and a half tablespoons of flour rubbed smooth with a little water.

NEW WAY FOR SALAD.

Greens of all kinds are used in the South and many new ways for serving them will be given in this column during the summer. A salad that is seasonable was made with one quart of young and tender dandelion greens that had been thoroughly washed and mixed with a dressing made with six tablespoons of hot bacon fat, two tablespoons of vinegar, half a teaspoon of paprika and one tablespoon of grated onion. Place the mixed salad on salad plates and garnish with cubes of crisp cooked bacon.

The southern housewife prides herself on her cakes and cookies and one of the nicest cookies is made by beating to a cream one cup of sugar with half a cup of butter, add to the creamed butter and sugar one well-beaten egg and beat well. Add half a cup of sour cream and two and a half cups of flour sifted with a quarter of a teaspoon of soda and two and a half teaspoons of baking powder. Mix well and drop from the tip of a spoon on to a buttered baking sheet about one inch apart. Place on the top of each cookie a seeded raisin. Bake in a medium oven fifteen minutes.

A cup cake was made by beating together half a cup of butter, one cup of sugar, two well-beaten eggs, two-thirds cup of milk, one and a half cups of flour, two and a half teaspoons of baking powder, two-thirds of a cup of chopped seeded raisins and one tablespoon of ground cinnamon. Place this mixture in muffin tins and bake twenty-five minutes.

At a cafe in Atlanta they serve a Swiss roast that makes the poor beef that they have down there very tasty. Have a piece of round steak cut two inches thick and weighing two pounds. Place the steak in a pan with some very hot butter and fry on both sides for five minutes; add to the steak two cups of canned tomatoes, two finely chopped onions and one small green pepper chopped fine. Cover pan and let simmer for two hours.

RAISIN BREAD AND PIE.

I received on my arrival in New York two requests from readers of this column that had been following me around the country. One wanted a recipe for raisin bread and pie as made at the largest hotel in San Francisco. As I have had considerable correspondence with the chef of this hotel, about these recipes, I can give his own idea of how they should be made. For the raisin pie, soak one pound of seedless raisins in water for three hours; drain off the water and place the raisins in a saucepan; cover with fresh water; add rind and juice of half a lemon and a small piece of stick cinnamon; add four tablespoons of sugar, bring to a boil and simmer ten minutes. Stir in two tablespoons of cornstarch diluted with a little water. Let cool and pour into a pastry-lined pie plate, cover with pastry and bake in a moderate oven.

For the pastry rub three tablespoons of shortening into one cup of flour, add half a teaspoon of salt and enough ice water to hold it together.

For the raisin bread: Twelve cups of flour, eight tablespoons of butter, one and a half cups of sugar, two teaspoons of salt, two cakes of yeast, two cups of scalded and cooled milk, one and a half cups of lukewarm water, two tablespoons of sugar, two well-beaten eggs and two cups of seeded raisins. Dissolve the yeast and the two tablespoons of sugar in the lukewarm water and milk, then add four cups of the flour, the butter beaten to cream with the one and a half cups of sugar, and beat until smooth. Cover and set to rise in a warm place for about one and a half hours. When well-risen add the two cups of raisins, well-floured, the balance of the flour, the beaten eggs and the salt; knead until light and smooth. Place in a bowl, cover and let rise until double in bulk. Mold into loaves, place in well-greased pans; cover and let rise again; place in a hot oven, after ten minutes reduce heat and bake for forty-five minutes.

G.A.R. Daughters to Meet.

Abraham Lincoln Fortress, No. 1, National Daughters of the G.A.R., will meet tomorrow at 8 p.m., in Patriotic Hall, 1816 South Figueroa street. Persons who are eligible to membership are invited to join.

Fashion's Forecast

by Annabel Worthington

No. 9,952.—Girl's and Child's Wrap. This little miss believes in being right up to date, for she wears a new spring wrap which follows the popular dolman line. The sleeves are kimono style, so that the making is quite simple.

The girl's and child's dress, No. 9,953, is cut in sizes 4 to 14 years.

Size 8 requires 2¼ yards 44-inch material. Price 15 cents.

No patterns are kept in the Los Angeles office of The Times. To get patterns send the price (in stamps or well-wrapped coins) and the number and size of the pattern desired to this address:

FASHION DEPARTMENT,
Los Angeles Times,
230 South Wells St.,
CHICAGO, ILL.

All orders will be handled by this branch office in Chicago, and in order to eliminate the delay in forwarding we have arranged to have orders sent direct to the Chicago office.

The patterns will all be special patterns made for The Times.

BED CHAMBER IN COLONIAL STYLE AIDED.

New Two-Color Counterpane Duplicates Handwork of Our Grandmothers.

The woman whose decorative ideal in bedrooms is embodied in the colonial and who is industriously running down every clew leading to perfection of detail in this period of chamber furnishings will achieve the happiest of results if she covers her mahogany four-poster with one of the new counterpanes of creamy cotton tufted in wool of a contrasting color.

These spreads, representing one of the latest revivals of an old fashion in bed draperies, have been very recently placed on the market through the vision of an astute buyer who combs the highways and byways of rural districts for just such "finds." They duplicate the handwoven counterpane of home-grown cotton to be found, a hundred years ago, or earlier still, in the guest rooms of southern plantation houses. Fortunate is the woman whose tufted spread has come down to her from a great-grandmother under whose capable hands it was woven and the wool tufts tied in. The copy of today, like the original, is made by the mountain women of a certain district of Northern Georgia and the patterns in the tufting follow exactly those of the earlier period. Some of these designs are intricate in the extreme, but the majority show circles, diamonds and interlocked squares in Greek key effect, much like quilting patterns. The effect of the yellow, pink or bright blue wool tufts on the groundwork of ecru cotton is both striking and artistic—terms which are not always synonymous.

In addition, the "Georgiatuft" counterpane, as it is known, has the merit of laundering as easily as its plebeian cousin, the seersucker spread, and, like it, requires merely to be washed and shaken out in the air.

The Daily Fun Hour.

BY HONOR WALSH.

SANDRINGHAM.

Two players leave the room, and decide upon a word which must have more than one meaning (like ball or line), or two (or more) words spelled differently, but pronounced alike (such as thyme and time, ball and bale, etc.).

Players 1 and 2, having chosen a word, return to the room and begin to talk to each other.

No. 1—"It has fallen in Russia and Germany, but not in England!" (Reign.)

No. 2—"Why it falls often in England." (Rain.)

No. 1—"We used to stop our old horse with it." (Rein.)

As may be seen, the object at first is to confuse the other players. If these do not "tumble," a little more light is thrown on the subject, when No. 2 says:

"There's more in spring than in winter." (Rain.)

When a player guesses the secret word he does not pronounce it, but joins in the talk, like No. 3, who adds:

"Yes, and there's more in Ireland than in England." (Rain.) And No. 4, who says: "People are satisfied under it in Holland." (Reign.)

When all but one or two slow pokes have guessed, the keyword is announced by the first players, and then Nos. 3 and 4, who were the first to guess, go out to make up the next word.

To Los Angeles W.C.T.U.

Mrs. Cora Deal Lewis will speak on "Civic Problems" at a meeting of the Los Angeles W.C.T.U. at 2 p.m. tomorrow, in the First Christian Church.

SOCIETY.

BY VIRGINIA WOODS.

By Mrs. Rodman.

Mrs. Willoughby Rodman of Orchard avenue is to entertain at tea on Monday afternoon as a farewell courtesy to Mrs. G. Wiley Wells, who is leaving the following week for New York City to sail for England on the first lap of a tour of the world.

It is to be a cozy little tea with just the intimate friends of Mrs. Wells and Mrs. Rodman there. Assisting will be Mrs. A. C. Balch, Mrs. Ernest A. Bryant, Mrs. Charles C. Carpenter and Mrs. Frank Peard.

Mrs. Rodman spent last week-end with Mr. and Mrs. Samuel T. Clover, who have recently returned from Virginia and have moved into their new country home at Arcadia. They had a week-end house warming and a dozen or more Los Angeles and Pasadena folk were there for a luncheon Monday. Mrs. Rodman left yesterday for a few days at the Crags Country Club.

At Sumner Home.

Mr. and Mrs. Charles Modini-Wood and daughters, Mrs. James Langford Stack and Florence Wood Clark, and their children, are at their summer home at Santa Monica until the last of next week. Miss Mona Wood, who is at school at Mills College, will return on May 13, and she and Mrs. Wood will go down to Coronado for several weeks to be near Ensign Perry Wood, who is in the naval aviation service.

From New Jersey.

Mr. and Mrs. C. M. Hamilton of Elizabeth, N. J., are to arrive here Friday and will be domiciled at the Ambassador. They are friends of Mr. and Mrs. F. Arthur Bixby of Pasadena, who are planning a dinner party in their honor.

At Bridge Tea.

The bridge tea at which Mrs. Dwight Whiting entertained yesterday afternoon was one of the charming affairs of the week. Thirty-two played bridge and later others dropped in to tea. The rooms were lovely in masses of multicolored spring blossoms. Assisting Mrs. Whiting were Mrs. James G. Scarborough, Jr., Mrs. Victor Ford Collins, Mrs. John Black and Mrs. Van Kelsey.

For a Visitor.

Miss Katherine Torrance is hostess at a smart luncheon today in honor of Mrs. Charles Metz, a visitor from Omaha. Miss Torrance and her mother, Mrs. Louis C. Torrance, have just returned from a visit to Palm Springs.

Mrs. Singer Entertains.

Mrs. Horton Singer of Oak Knoll was hostess at a delightful luncheon yesterday.

At Matinee Tea.

This afternoon is to mark the last of the series of matinee teas given by the Assistance League at the Ambassador. The programme is in charge of the Ebell Club. The tea dansant has for hostesses Mmes. John Hooe Iden, William K. Thompson, Thompson Buchanan, Jotham Bixby, Jr., Hancock Banning, Charles H. Jeffras, R. D. Shepherd, Charlotte Kingore Satterlee and others. Mrs. Leslie Sloan-Orcutt is giving a big luncheon before the affair and others entertaining parties are Mrs. Banning, Mrs. Homer Laughlin, Jr., Mrs. R. D. Shepherd, Miss Hanson Moore and Mrs. Arthur Wright.

Arbian Night's Ball.

The Arabian Night's ball and supper given at the Ambassador last evening by the Near East Relief Committee for the benefit of helpless babes of Armenia was one of the successful social affairs of the month. Mme. Norine Norkoff, a member of the Near East Relief Committee, who is visiting here, had the ball in charge. She is a grand-daughter of Henry Ward Beecher.

The ball was marked by many novel features, including a charming dance number by the Marion Morgan dancers and an auction of diamond rings in charge of Charles Murray. A number of naval officers and their wives added color and distinction to the affair.

The ballroom was made to represent a scene from the Arabian Night's. Among the prominent folk entertaining parties were Mrs. Hancock Banning, Mrs. Isidore B. Dockweiler, Mr. and Mrs. Seeley W. Mudd, Mrs. George I. Cochran, Mr. and Mrs. Eugene O. McLaughlin, Mr. and Mrs. Joseph Francis Sartori, Mr. and Mrs. J. Ross Clark, Mrs. W. J. Chichester, Mrs. Frank Powell, Mr. and Mrs. Rupert Hughes, Mrs. Sumner P. Hunt, Mrs. A. J. Bayer, Mrs. J. M. Danziger and others.

Home from Washington.

Miss Mabel E. Clute, who spent the winter in Washington, D. C., with her brother, Walker S. Clute of the Treasury Department, has returned home. She also visited New York, Philadelphia, Atlantic City and New Orleans.

Dancing Party.

Mr. and Mrs. Cecil George are entertaining at a dancing party this evening at the Wilshire Apartments.

A Young Son.

Engraved cards are being sent out by Dr. and Mrs. John Rush McCoy announcing the arrival of a son, whom they have named John Hollister McCoy. The tot arrived on April 20.

Mr. and Mrs. Mitchell.

Mr. and Mrs. Walter R. Mitchell of South Bonnie Brae street entertained at luncheon at the Mission Inn, Riverside, in honor of Mrs. Medora Dick of Columbus, O., who has been spending the winter here, being domiciled at the Alexandria. She is returning East today.

Ganz-Sullivan.

Miss Irene Ganz and Judge Henry Sullivan, both of Phoenix, were married Monday evening in the parlors of the Alexandria in the presence of relatives and a few close friends. The bride is a daughter of Emil Ganz, who was for twenty-five years president of the National Bank of Arizona at Phoenix. He and Mrs. Ganz have been passing the winter here at the Alexandria and the couple came here for the ceremony. They left for San Francisco and later will make their home in Phoenix.

MERCY WORKERS TO AID NEEDY.

Huge Sewing Bee is Planned Here by Red Cross.

Women to Make Layettes by Thousands for Europe.

Dramatic Reader to Appear Before Ebell Club.

BY MYRA NYE.

Red Cross, to arms! The weapons are needless and the call is from national headquarters. The need is great. Already 764 chapters have mobilized again, and yesterday the Los Angeles branch with all its auxiliaries inaugurated the work at the Friday Morning clubhouse. Roy Jones, former president of the local branch, presided and Mrs. R. M. Weed, who served throughout the war as the purchasing agent of the Los Angeles branch, made the appeal.

A monster national sewing bee will begin the first of May and last a month. On the second day the largest May baskets Los Angeles has ever seen will be placed at many downtown corners to receive donations. Mrs. Alexander Barrett is in charge of the basket committee assisted by a corps of women active during the war.

Mrs. A. F. Naftzger and Mrs. James Gibson are appointed as heads of the sewing auxiliaries. The quota for Los Angeles is 11,000, layettes for the babies that will be born to destitute women in Poland, Russia and the Balkans. In addition 85,000 other garments are needed for children of less than 14 years of age in the war devastated regions.

"You say you have given and given," said Mrs. Weed in her appeal. "Yes, California has given $850,000 for food for European relief, but of what avail is it to save from starving only to allow these poor people to die from exposure. The American Red Cross has shown what magnificent work it can do and Los Angeles never failed once during the war. We cannot say to little children who come to us for sympathy 'I kissed your bumps yesterday, but I can't today.' We will have to go on kissing bumps and just now it is garments for little children in destitution who need our help. Besides it is the definite program of our national organization. Orders come direct from headquarters. As three years ago, so now with patriotism we must obey."

The question often asked, "Why do you not use the money in the Red Cross treasury?" she answered by saying, "We spend from $15,000 to $20,000 a month for our disabled soldiers and we cannot divert this fund. Neither can we let this present call go unheeded."

Mrs. Cecil De Mille is chairman of this present Red Cross committee. Those serving with her are: Mrs. W. A. Edwards, Mrs. Rea Smith, Mrs. Weed, Mrs. Naftzger, Mrs. Barrett, Mrs. Eugene Overton, Roy Jones and Harford Billson.

Every Wednesday in May the Assistance League has promised to give up their day at the Ambassador for this Red Cross drive benefit. Mme. Baranovsky has promised to aid and to tell of the situation in Russia, where she says there is not a needle to be found for hundreds of miles, newborn babies are wrapped in newspapers for the want of clothing and little children barefoot in the snow herd the few goats or sheep.

Those present yesterday included: Mrs. Michael J. Connell, Mrs. Lucien N. Brunswig, Mrs. Force Parker, Mrs. G. Wells Smith, Mrs. Leona Montgomery, Mrs. Lyman B. Stookey, Dr. Dorothea Moore and Miss Therese Levr.

A Dainty Undergarment.

Chemise of flesh crepe jersey in one of the season's most popular models.

[Photo by Keystone View Co.]

The Ebell Club.

Luncheon speakers at the Ebell Club tomorrow will include Mrs. Frances Carter, dramatic reader of New York City and president of the New York Browning Club, and Miss Hopkinson, who will give some intimate glimpses of the work of Prof. George Pierce Baker, her brother. Prof. Baker is head of the department of dramatic literature at Harvard University. He has charge of the well-known "Forty-seven Workshop." Mrs. Clarence Rainwater will speak of "Literature," the Ebell Club episode in the pageant to be given at Yosemite, May 25.

Harmony Sewing Club.

The Harmony Sewing Club of Helen Jean Christie Tent No. 17, Daughters of Veterans, will hold its regular all-day meeting tomorrow at the home of Mrs. Mary Norton, 1937 Kane street. Luncheon will be served at noon.

BAIL REDUCTION IS REFUSED.

Denying a motion of H. O. Mulks, attorney for Robert Engdal and James Price, asserted Industrial Worker of the World, accused of criminal syndicalism, for a reduction of the bail of $10,000 each for the defendants, Judge Willis yesterday set May 11 as the date for their trials.

Hats of Ostrich by Cawston Creators

The New Designs in
Baby Carriages
Show Welcome Improvements

Mothers—and fathers, too, for that matter—are expressing pleasure at the sight of the new Baby Carriages which Barker Bros. are featuring this Spring.

Baby's comfort, of course, has been considered first of all, as the luxurious springs and soft upholstering will show.

Then, in order that those who will push the tiny passenger, may not become tired out while Baby rides in comfort, these winsome new carriages are surprisingly and delightfully light in weight.

They are made of a splendid quality of genuine reed, beautifully finished in tones of Ivory, Gray Enamel and an attractive combination of Walnut and Ivory.

New Prices Are Decidedly Lower

May 7—City of Para, Cristobal, 2 p.m.
May 12—Kobe Maru, Hongkong, 4 p.m.

SCHEDULED ARRIVALS.
(Cargo Carriers Only.)

WEDNESDAY, APRIL 27.
Steamer Flavel, from Astoria.
Steamer Steel Ranger, from San Francisco.
Steamer Yale, from San Francisco.
Steamer Tiverton, from San Francisco.
Steamer Willochi, from New York.

FRIDAY, APRIL 29.
Steamer Antigua, from Philadelphia.
British Steamer Statesman, from San Francisco.
Steamer Fairhaven, from San Francisco.

SATURDAY, APRIL 30.
Steamer Paralos, from San Francisco.

SUNDAY, MAY 1.
Steamer Seattle, from New York.
Steamer West Eaton, from San Francisco.

MONDAY, MAY 2.
Steamer Stanley Dollar, from San Francisco.

SCHEDULED DEPARTURES.
(Cargo Carriers Only.)

WEDNESDAY, APRIL 27.
Steamer West Camak, for Antwerp.
Steamer Whittier, for San Francisco.
Steamer Baker, for Eureka.

THURSDAY, APRIL 28.
Steamer Steel Ranger, for New York.
Steamer Quinault, for Tacoma.
Steamer Yale, for Boston.
Steamer Eldorado, for New Orleans.

FRIDAY, APRIL 29.
Steamer Flavel, for Astoria.
Steamer Fairhaven, for Cordova.

CATALINA SERVICE.
Steamer Avalon sails daily from Wilmington at 10 a.m., returning at 3:30 p.m.

IN THE HARBOR.
Steamer Vigilant, undergoing boiler repairs.
Steamer West Mahwah, unplanked in outer harbor.
Steamer Harvard, U. S. Chandler shipyard.
Steamer Yale, Wilmington.
Steamer West O'Hook, Los Angeles shipyard.
Steamer West Lewark, Los Angeles shipyard.
Steamer West Fraxton, Los Angeles shipyard.
Steamer Hales, Hammond Lumber dock.
Steamer Quinault, E. K. Wood dock.
Steamer West Camak, Standard Oil dock.
Steamer Horace X. Baxter, Southern Pacific slip.
Steamer Solano, outer harbor dock.
Steamer Whittier, Union Oil dock.
Steamer Tiverton, L. W. Hilma dock.

COASTWISE CARGO CARRIERS.
Steamer Anne Hanify, Portland, April 26.
Steamer Bandon, Coquille River.
Steamer Daisy Putnam, Aberdeen.
Steamer Dollar Matthews, Portland.
Steamer Daisy Putnam, Aberdeen.
Steamer Flavel, Astoria, April 21.
Steamer Idaho, Aberdeen.
Steamer Multnomah, Portland.
Steamer Ryder Handy, Portland.
Steamer Saginaw, Tacoma.
Steamer San Diego, Tacoma.
Motorship Sierra, Columbia River.
Steamer Siskiyou, Columbia River.
Steamer Yellowstone, Willapa.

OFF SHORE.
Steamer Alvarado, New Orleans.
Steamer Anna E. Morse, New York, via Mobile, April 16.
Japanese steamer Anyo Maru, Hongkong, via Honolulu, April 22.
Steamer Arcturus, Port Arthur, via Balboa, April 23.
Steamer Artigues, Boston, April 18.
Steamer Artigas, Philadelphia, via Balboa, April 16
Steamer Bakerfield, Victoria.
Steamer Bantu, New York, via Balboa, April 20.
Steamer Bay State, New York.
Steamer Birmingham City, Puget Sound.
Japanese steamer Bokuyo Maru, Hongkong.
Steamer Borbury State, Baltimore.
Steamer C. C. Moore, New York.
Steamer Cape Henry, Willapa Harbor.
Steamer Cape Romain, Philadelphia, April 2.
British steamer City of Norwich, Liverpool.
Steamer Cyalinga, Lobos.
British steamer Colusian, Liverpool.
Steamer Depere, Valparaiso, April 18.
Steamer Eastern Belle, Puget Sound.
Steamer Edward Luckenbach, New York, April 16.
Dutch steamer Eemdijk, Rotterdam.
Steamer Effingham, Antwerp, April 9.
Steamer Eldorado, San Francisco.
Steamer Empire State, Baltimore.
Steamer Glenora, Philadelphia.
Japanese steamer Guiyo Maru, Hongkong.
Steamer Harry Luckenbach, New York.
Steamer Hawkeye State, New York.
Japanese steamer Hiogo Maru, Hongkong.
Steamer Iowan, Boston.
Steamer Jennie S. Morse, New York.
Steamer K. Luckenbach, New York.
Steamer Katrina Luckenbach, Seattle.
Steamer Keystone State, New York.
Japanese steamer Koyo Maru, Valparaiso, via Balboa, April 27.
Steamer La Rue, Port Lobos.
Steamer Lake Gumi, New Orleans.
Steamer Lehigh, Philadelphia.
Steamer Liberator, Philadelphia, April 18.
Steamer Los Angeles, Port Lobos.
Motorship Manistee, San Pedro.
Steamer Marden, Callao, April 14.
Steamer Mary Luckenbach, New York.
Steamer Montebello, Port Lobos.
Dutch steamer Noordendijk, Rotterdam.
Steamer Olokon, Seattle.
Steamer Pallas, Montevideo, April 11.
Japanese steamer Panama Maru, New Orleans.
Steamer Paraiso, San Francisco.
Steamer Point Bonita, San Francisco.
Steamer Point Lobos, Baltimore, April 17.
Steamer Pomona, Liverpool, April 19.
French steamer Providencia, Aberdeen.
Japanese steamer Rakuyo Maru, Hongkong.
Steamer Robin Goodfellow, New York.
Steamer Robin Hood, New York.
Steamer San Antonio, La Union, via Champerico, April 12.
Steamer Santa Inez, Antofagasta, via Iquique, April 16.
British steamer Spectator, Liverpool, April 12.
Steamer Stanley Dollar, Portland, Or.
British steamer Statesman, San Francisco.
Steamer Steel Age, New York, April 16.
Steamer Steel Exporter, New York.
Steamer Steel Inventor, New York.
Steamer Steel Navigator, San Francisco.
Steamer Steel Voyager, New York, via Balboa, April 22.
Steamer Steel Worker, Boston.
Japanese steamer Tacoma Maru, New York.
Danish steamer Tranaraal, Copenhagen.
British steamer Walbemo, Vancouver
Steamer Wallingford, Seattle.
Steamer Walter A. Luckenbach, Philadelphia.
Steamer West Camargo, Puget Sound.
Steamer West Carneyra, Batavia.
Steamer West Carote, Antwerp.
Steamer West Haven, Puget Sound.
Steamer West Henshaw San Francisco.
Steamer West Hila, Manila, April 22.
Steamer West Isleta, Puget Sound.
Steamer West Katan, Antwerp.
Steamer West Nomentum, Portland, April 22.
Steamer West Togus, Boston.
Steamer Willaro, New York.
Steamer Willhiki, Seattle.
Steamer Willoolo, New York, via Balboa, April 16.
Steamer Windber, San Francisco.
Steamer Yalta, San Francisco.

TIDE TABLE.

Tides are given in the order of their occurrence. On some days but three tides occur, the fourth tide occurring the following morning. Heights are reckoned from mean lower low water.

		Low.	High.	Low.	High.
Wednesday,	April 27..	7:10	1:47	6:04	....
		0.4	5.1	2.7	....
Thursday,	April 28..	0:10	8:18	3:10	7:51
		4.2	0.2	5.2	2.0
Friday,	April 29..	1:17	9:22	4:22	10:05
		3.8	0.9	5.1	2.6
Saturday,	April 30..	2:20	10:34	5:10	11:22
		3.6	0.9	5.7	2.4
Sunday,	May 1..	4:10	11:21	5:48	....
		3.6	0.0	6.1	....
Monday,	May 2..	0:10	5:25	11:30	6:12
		1.8	3.7	0.9	6.3
Tuesday,	May 3..	0:45	6:12	12:22	6:44
		1.3	3.8	0.9	4.9

PORT NOTES.

Wireless messages were picked up at the harbor yesterday stating that the freighter Jeptha, which sailed from Los Angeles Harbor on April 14 for Valparaiso, had picked up the disabled freighter Orani, which sailed from here on the same day for the United Kingdom.

The Orani became disabled last Saturday night and sent out S.O.S. calls, which were picked up by the Jeptha. The latter vessel responded and took the vessel in tow, at 10:30 p.m., for the nearest port—Puntarenas, Costa Rica.

The Orani is operated by the Williams-Dimond Company in the European-Pacific service, while the Jeptha is operated by the General Steamship Company in the South American trade. The wireless reports stated the Jeptha was towing the Orani at a rate of six knots per hour, and should reach Puntarenas by tomorrow.

Indicating that the lumber trade is still on the incline along the Pacific Coast, one more steam schooner, which has been tied up in San Francisco harbor for several months, has secured a charter. Williams Bros. & Co. announced the charter of the steamer Sea to load lumber at Gray's Harbor for San Pedro.

The Dutch steamer Alkmaar, in port at Valparaiso, Chile, has been chartered by M. H. Houser to load grain on the Columbia River for the United Kingdom at a rate of 67 shillings and 6 pence, which is considerably lower than the rate for Shipping Board carriers.

BILL IS DATED BEFORE THEFT.

Accused Man Held When His Proof of Purchase of Watch is Examined.

Although William A. Bringhurst produced a bill of sale yesterday for a watch he is accused of stealing from E. G. Shuman, a street-car conductor, in a robbery more than two years ago, the date was wrong, and Justice Hinshaw held the defendant to answer for robbery. The bill of sale, it was brought out by Dep. Dist. Atty. Burke, was dated more than twenty days before the watch was stolen. Bail was fixed at $3000.

NAVAL ORDERS.

[EXCLUSIVE DISPATCH.]
WASHINGTON, April 26.—Naval orders issued today:
Lieut. F. L. Albert to reserve destroyer flotilla, San Diego.
Lieut. L. K. Beaver to U.S.S. Sumner.
Lieut.-Commander H. M. Bemis to Navy Department, Washington.
Ensign M. S. Catron to U.S.S. Corry.
Lieut. M. F. Dyer to U.S.S. Birmingham.
A. P. Clerk J. F. Gallagher to New York.
Lieut. G. F. Hebberd to U.S.S. Ozark.
Lieut. D. F. Hartman to flotilla 2, Atlantic Fleet.
Lieut. R. P. Heim to U.S.S. Melvin.
A. P. Clerk G. G. Jevtich to destroyer force, Pacific Fleet.
Lieut. E. L. Kempton to navy yard, Mare Island.
Lieut.-Commander O. W. Leidel to eleventh naval district.
Lieut. J. G. McPherson to navy yard, Puget Sound.
Lieut. F. A. Stein to U.S.S. Corry.
Lieut. W. L. Steiner to naval station, St. Thomas, V. I.
Ensign J. T. Sunderman to air force, Pacific Fleet.
Lieut. Louis Vertrugo to U.S.S. Sumner.
C. P. Clerk Walter Norris to Philadelphia.

RADIO REPORT.

[BY RADIO CORPORATION OF AMERICA.]
8 p.m. April 25.—S.S. J. A. Moffett, Los Angeles Harbor for Pearl Harbor, 163 miles from Pearl Harbor; S.S. Matsonia, San Francisco for Honolulu, 2,093 miles from San Francisco; S.S. Col. E. L. Drake, Kobe for Richmond, 1256 miles from Richmond; S.S. Korea, San Francisco for Honolulu, 682 miles from San Francisco; S.S. Nanking, the Orient for San Francisco, 635 miles from San Francisco.

8 a.m. April 26.—S.S. R. P. Hanna, Kahului for Richmond, 3,109 miles west of Richmond; S.S. West Nomentum, Portland for Los Angeles Harbor, 55 miles south of San Francisco; S.S. West Mahwah, Sydney, via Honolulu, for Tacoma, 942 miles from Tacoma; S.S. Queen, San Francisco for Seattle, 100 miles from San Francisco; S.S. La Porte, Los Angeles Harbor for San Francisco, 10 miles south of San Francisco; S.S. Humboldt, San Francisco for Los Angeles Harbor, 90 miles south of San Francisco; S.S. Pennsylvania, San Francisco for Los Angeles Harbor, 22 miles south of Point Fermin; S.S. Avalon, San Francisco for Wilmington Harbor, 42 miles south of San Francisco; S.S. Cuba, 58 Battery Place, San Francisco, c/ Point Reyes; S.S. D. G. Scofield, Baton Rouge for Point Wells, 797 miles from Point Wells; S.S. Cuba, San Francisco for Havana, 38 miles south of San Francisco.

Clash on Kelp Plant Looming at Montecito.

[EXCLUSIVE DISPATCH.]
SANTA BARBARA, April 26.—The neighboring communities of Summerland and Montecito are likely to engage in a contest for ownership of the kelp plant, which Congress has declined to continue as a government works. Summerland wants to own the plant so that divers Summerland folk can keep their jobs. Montecito wants to buy it that it may be destroyed. This is because the odors therefrom are highly disagreeable to the nostrils of Montecito automobilists.

The Summerlanders look upon the Montecitistas as landed aristocracy. Summerland is constituted of tiny frame houses scattered over the hillside, a row of old store buildings and as a sole public building an old Spiritualist church. The seaweed plant is the industrial apple of Summerland's eye.

Montecito also objects to the ocean oil wells that mar the marine vista as the kelp plant mars the pastoral odors.

Some Montecito residents go so far as to recommend that Summerland, entire be bought and then razed, frame buildings, oil derricks, kelp plant and all, thus making room for something nice—landscape gardening for example.

FOR FINE NEW CHURCH.

Work Will Be Started Today On Santa Barbara Structure.

[EXCLUSIVE DISPATCH.]
SANTA BARBARA, April 26.—A $50,000 church structure for the Baptists will be under way here tomorrow. Norman Marsh of Los Angeles is the architect. Today contractors, members of the church, have been busy enrolling their crews of mechanics, and late today the permit for the edifice was issued. The Baptists had planned to build before the war, but, with the entrance of this country into the strife, they shelved building activities to devote their energies to relief work. Two weeks ago a sod-turning exercise was held.

Building activity generally in Santa Barbara has greatly increased during the past two months. March had a total of $216,000 in permits, and so far this month $236,000 is figured. The year's total has gone over $650,000. The usual monthly permit record has for years averaged around $50,000, except in war days, when it dropped as low as $27,000.

Japan Will Buy Street Paving Material Here.

[EXCLUSIVE DISPATCH.]
SANTA BARBARA, April 26.—This county will furnish from its asphaltum mountains vast quantities of materials for building modern highways in Japan. K. Okawa, representing the Japanese government, today completed a visit to the asphaltum mountains in the northern part of the county, accompanied by County Surveyor O'Neill, and plans are now being made for hauling the asphaltum to tidewater at the least possible cost.

Mr. Okawa states that Japan has an extensive road-building program under way and that the first shiploads of asphaltum to be sent from here will go to paving streets in twenty-six cities of his country.

"Southern California will furnish much material in the program for the large building activities which Japan contemplates, and the day is not distant when you will see Los Angeles Harbor dotted with great vessels loading these materials for my country," he said. "Japan stands to spend many millions in Southern California."

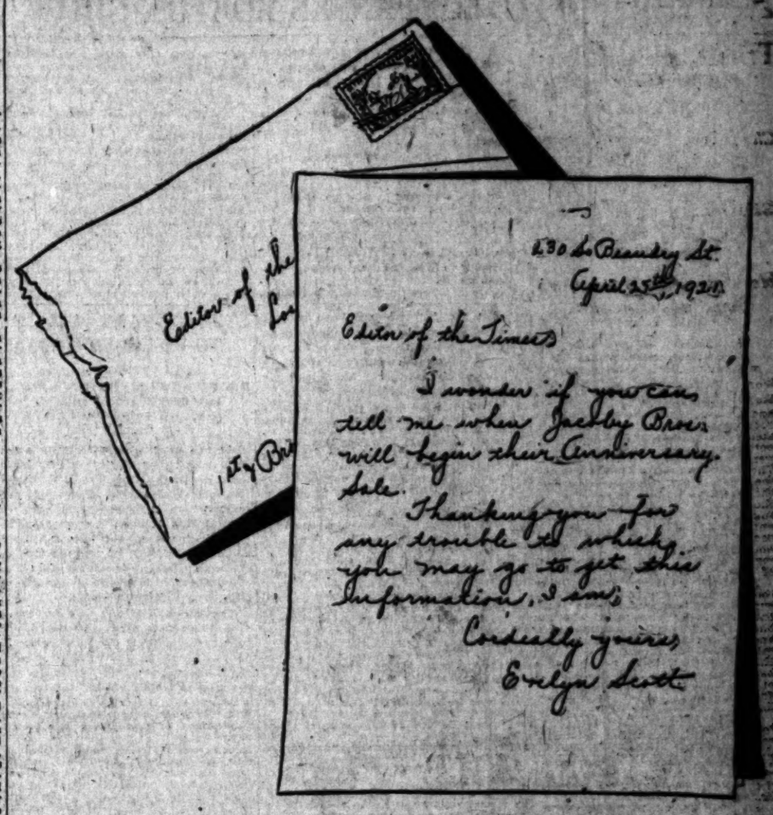
TALKS ON DECORATION.

Professional Designer Will Lecture on Making Homes Beautiful.

The lecture department of the University of California extension division announces a special course of three lectures to be given here by Professional Designer and Interior Decorater Bernard C. Jakway, of San Francisco, on the first three Mondays in May, in room 630 Pacific Finance Building, Sixth and Olive Streets.

In the afternoon at 3:30, he will deliver the series "The Acquisition of a Cultivated Taste," May 2, "The Genesis of the Arts;" May 9, "The Scope and Limitations of the Arts;" May 16, "The Problem of a Cultivated Taste." In discussing his work, Mr. Jkway says, "Naturally every woman wants her home to be beautiful and comfortable. But to make it so, without waste of money or effort, is not an easy matter. To do this requires a cultivated taste, a sound grasp of the principles of interior decoration, a knowledge of the house furnishing materials and how to use them and of market conditions and costs."

In the evening at 8 o'clock three lectures on "House Furnishing" will be given as follows: May 2, "The Use and Abuse of Period Decoration;" May 9, "The Oriental Rug;" and May 16, "Combining Beauty with Economy."



Raisin Day—April 30th

Next Saturday is Raisin Day all over the United States—the day on which millions will make and try delicious new raisin foods. Try them in your home. Begin on that day to get the benefit of the raisin's healthful food-iron which brings the pretty rose tint to the cheeks.

Stewed Raisins
Cover Sun-Maid Raisins with cold water and add a slice of lemon or orange to each half pound. Place on fire, bring to a boil, and allow to simmer for one hour. Sugar may be added but is not necessary as Sun-Maid Stewed Raisins contain 75% natural fruit sugar. Serve with or without cream.

Try *Stewed Raisins* on Raisin Day

—the attractive way to bring the bloom of youth to women's and children's cheeks

Stewed Sun-Maid Raisins are as luscious a dish as was ever served at breakfast. And they bring a benefit that everyone should have.

Rich in food-iron, raisins help to make red corpuscles for the blood. When cheeks are pale the blood has too little iron.

Raisins, through their iron content, tend to bring the rose tint back.

So raisins are "a beauty food," because they promote the good looks of good health. Serve stewed raisins at least twice a week.

Great sanitariums serve them to anaemic patients every day.

SUN-MAID RAISINS

Use Sun-Maid Raisins in all your cooking, for they are the finest grown. Made from tender, juicy, thin-skinned California table grapes.

Packed in an immaculate plant in California. *Clean, sweet, wholesome American* raisins—the kind you know are *good*.

Three varieties: Sun-Maid Seeded (seeds removed); Sun-Maid Seedless (grown without seeds); Sun-Maid Clusters (on the stem). All dealers. Insist upon the Sun-Maid Brand.

Send for free book, "Sun-Maid Recipes," describing scores of ways to use.

CLING TO IDEA OF DEATH PACT.

Police Say Four Bullets in Body Bolster Theory.

Two Youths Killed by Guns Found by Wrecked Car.

Woman Who Telephoned Still Sought; May Have Clew.

(Continued from First Page.)

friendly. Two letters in his pocket, which could scarcely have been called love letters, were from Miss Helen Zelaski of 1314 East Forty-eighth street, with whom he had been going for several years. Miss Zelaski is now in Chicago, where she went to attend the funeral of her grandmother. One of the letters spoke of the writer's intention to return soon, according to Chief Deputy Coroner MacDonald.

STILL SEEK "MARGARET."

Only the motive behind the shooting is needed, the detectives say, to solve every feature of the case, since the result of the autopsy substantiated their theory. They are convinced that no one except the two victims participated in the shooting. Nevertheless, they made an energetic, though fruitless, search yesterday for a woman whose name is believed to be "Margaret."

This woman telephoned Durand early Sunday evening at the home of A. B. Roberts, a neighbor of Durand, and apparently made an engagement for him that evening. It is believed she may be able to tell the investigators something of the men's plans for late that night.

In searching for "Margaret" a canvass was made of the patients and friends of the dead dentist. This resulted only in further determining that Dr. Durand had been morose and moody for the last two weeks, but failed to throw any additional light on what he did from midnight Sunday to 2:30 a.m. Monday, when the shooting occurred.

His whereabouts from Sunday afternoon to midnight have been traced with reasonable accuracy by the detectives. Coming from his office he went home at 1039 East Forty-second street and remained there until about 8:30 o'clock. During this time he talked over the telephone with "Margaret." When he left home he went to the Stillwell Motor Car Company and the automobile was rented in which he and McCauley rode to their death.

At 8 p.m. he was seen at the corner of Fifty-fifth street and Central avenue by Lurettis Vollmer, 1115 East Fifty-fifth street. From there he and McCauley, who was in the automobile when Miss Vollmer saw the dentist, went to the home of Miss Lydia H. Perske, 1524 East Fifty-second street. The young woman, who is a stenographer, accompanied the men on a ride to Pasadena and Glendale and returned home at midnight. The men then left in the automobile and little is known of their movements after that.

SURPASSES BOSTON SHOW.

The second day of the Los Angeles Business Show was characterized by an even larger attendance than that with which the business men of the community showed their approval of the undertaking on its opening day.

Last night was featured by visits from practically all of the commercial organizations of various kinds in the city and a special program was held in their honor.

Nathan Tupper, president of the Business Exposition Company, which is putting on the show, announced last night that the records indicate that Los Angeles has already surpassed Boston in point of attendance of the shows which are being put on by the same organization almost simultaneously in the two cities, the Boston show having started three days ahead of the one in progress here.

Today will be given over primarily to the executives in all lines of business in the city, and it is predicted that they will attend in great numbers to avail themselves of exhibits and demonstrations which will be presented for their benefit.

The multigraphing contest, conducted under the auspices of the American Multigraph Sales Company, was won by Roscoe Douglas, who finished his task in 30 minutes. Florence Neath came second with a record of 32 minutes. Both were given cash awards and certificates.

A TRIAL WILL CONVINCE YOU.

NOTHING that we could say would so thoroughly convince you of the value of Chamberlain's Tablets as a personal trial. We can tell you of thousands who have been permanently cured of chronic constipation, indigestion, biliousness, sick headache and disorders of the stomach and liver, but this will have little weight with you as compared to a personal trial. That always convinces.

Chamberlain's Tablets

EXPECT GUARD QUIZ TO BE ENDED TODAY.

BOARD'S DELIBERATIONS WILL BE KEPT SECRET TILL WORK IS FINISHED.

At the conclusion of a long session which continued until a late hour last night, Maj. Frank S. Hutton, president of the board of inquiry which is investigating irregularities said to have occurred in a fund-raising campaign for the Los Angeles Regiment of the California National Guard, stated that the official investigation would in all probability be completed today.

Throughout the day and for several hours last night the board of inquiry remained behind closed doors in Maj. Hutton's offices. Four witnesses were called to testify to the recent collection of funds for a benefit ball that was to have been given for the guard regiment, but the names of these witnesses were withheld.

"The work of the board probably will be finished tomorrow," said Maj. Hutton. "Our report will be immediately submitted to Adjt.-Gen. Borree and not until then will the findings of the board be made public."

WANT OLD CLOTHES.

Donations for ex-Service Men Sought by the Optimists' Club.

If you have any old suits of clothes that have shiny elbows, hats that are faded and hanging in the clothes closet, shoes that are soleworn and a little out at the toes, and B.V.D.'s that have become too small, ties that are a little worn, or colors that are a little out of style, put them all together and send them to the meeting of the Optimists' Club at noon tomorrow at 741 South Broadway or at Harris & Frank, Lou Groman or Alexander & Oviatt.

The Optimists will give the garments to the ex-service men, who are in this city and almost penniless and coatless. The campaign for clothes for the men has just been started by the Soldiers' Welfare Committee of that organization, consisting of C. B. Worsnop, I. W. Byrnes, Lou Webster and Ralph E. Ford.

CURVE IS FATAL TO AUTO DRIVER

Imperial Valley Man Killed on Dangerous Turn.

Companion Seriously Hurt in Plunge from Road.

New County Highway is Scene of Many Accidents.

[EXCLUSIVE DISPATCH.]

CALEXICO, April 26.—Charles W. Curphey's life was crushed out under the steering wheel of his big touring car, Roy ("Whitey") Godfrey was seriously injured and the machine was wrecked when it overturned on a curve in the county highway about a mile east of Heber about 1 o'clock this morning. The driver's failure to notice the curve in time to slow down is said to have been the cause of the accident.

Mr. Curphey leaves a widow and two children. Funeral services will be conducted by the El Centro Elks' Lodge Thursday afternoon. Mr. Curphey, a motor freight operator of Imperial Valley, and Mr. Godfrey, an employee of the El Centro City Engineer's office, were returning to El Centro from Mexicali when the accident occurred. All evidence at the scene of the accident indicates that Mr. Curphey was driving at some speed when nearing the sharp curve, on the outside of which is a stretch of deep, loose dirt, which provides an approach to the pavement from a dirt road from the north.

BRAKES INEFFECTIVE.

Marks on the pavement show that Mr. Curphey put on his brakes about sixty feet from the curve, but was able to get his car only a few feet into the turn when the right front wheel of his machine went off the pavement into the soft dirt and crumpled up, causing the automobile to hurtle through the air and land in an upright position about fifty feet away.

A farmer living about 100 yards away heard the crash and ran to the assistance of the victims. Finding Mr. Curphey lifeless, he commandeered the first machine that passed and raced with Mr. Godfrey to an El Centro Hospital.

The curve is exceptionally dangerous, especially at night, as the ground around it is so near the same color as the concrete that it is hard to distinguish the turn more than a few feet away.

HIGH SPEED FATAL.

High speed on the turn is impossible because of the angle, even though the paving is banked about 2 per cent in the center of the curve. Although the new highway has been open between this city and Heber only six days, several serious accidents have occurred in various places along the route. The Curphey car is the third which has overturned. One was destroyed by fire about two miles north of this city a few nights ago.

Another was demolished a few yards outside the city limits when the driver was trying to escape from the Calexico motorcycle officers and drove into the ditch beside the pavement. Several other minor accidents have occurred, but the one to the Curphey machine is the first that has happened at the curve.

SAYS HUSBAND SLEPT IN TUB.

Woman Threatened Use of a Bayonet If He Ever Slapped Her.

In Judge Summerfield's court yesterday Mrs. Emma Hoagland, suing for divorce from Harry A. Hoagland, declared that he slept in the bathtub just to spite her. He denied this. The couple have been married fifteen years.

On cross-examination she admitted that she had said she would use a bayonet, a relic, on her husband if he tried to slap her. The case will be resumed today.

Announce Change of Schedule for Santa Fe Trains.

A change of schedule for three trains of the Santa Fe to become effective on May 1, was announced yesterday by Assistant Passenger Traffic Manager Byrne. The Navajo Overland No. 2, which in the past departed for Chicago at 9 a. m., will leave Los Angeles at 8:45 a. m., and will arrive in Chicago two hours ahead of the old schedule.

The Missionary, No. 23, which leaves for Chicago at 5 p. m., daily, will depart at 5:15 p. m. The San Diego train, which has been leaving the Santa Fe station at 12:01 a. m., will leave at 2:30 a. m., arriving in San Diego at 6 a.m.

A through Pullman service between Los Angeles, Houston and New Orleans will also be started. The readjustment of the schedule was necessary, Mr. Byrne stated, because of the elimination of No. 20 and No. 19, transcontinental trains which operate only during the winter tourist season.

LAUDS WELFARE WORK

Lapp Urges More Study of Laws of Other Parts of America.

Great progress has been made in social welfare work throughout the United States, Dr. John A. Lapp, of Ohio declared yesterday at the luncheon at the City Club in speaking on "Democracy, Immigration and Naturalization." He said the need of the country at this time is for a more thorough study of the good laws and customs of other nations and of States in America. He referred to some freak legislation passed and being considered in the legislatures. He declared that citizenship should be made pleasing to the alien and that no one should be forced to become a citizen against his wishes. He ridiculed the idea of making all aliens learn to speak the English language.

A special luncheon of the club will be held at noon tomorrow, at which time State Railroad Commissioner Rowell will talk on "The Merchant Marine."

IMPRESSED BY POLICE WIRE PLAN.

Council Committee Makes Cut in Chief's Estimates for His Department.

The special budget committee of the City Council yesterday cut $61,145 from the proposed estimates of the city's expenses for the fiscal year beginning July 1. The largest cut was made in the case of the police department estimates when $52,575 was deducted from the amount requested by Chief Pendegast. All the other amounts were small and represented a dozen or more little departments the expenses of which are but a few hundred dollars annually.

Chief Pendegast explained to the committee that he has devised a plan of telegraphy which will keep all stations and substations constantly informed of everything that is going on in the city. The Chief declared that the system he desires to place in working order would "instantly and simultaneously" acquaint every department of the police system with all of the information held by the Central Station. The Chief said the proposed system would cost approximately $45,000, and the committee showed much interest and intimated that it would approve, if the Chief would place his plan in writing and submit it.

The Chief declared that the proposed system would do away to a large extent with the present inefficient method of report writing, and when a policeman received information of a burglary or other crime he would get in touch with the Central office and immediately all the information would be flashed to the other stations. In this way if a report was made at a substation about a robbery, a ring of policemen could be instantly thrown around the city, each station assisting in the work. The plan will be prepared in writing by the Chief and referred to the committee at once.

SENTENCED ON CHILD CHARGE.

Samuel D. Dickens, convicted of a statutory offense against an 11-year-old girl, was sentenced to San Quentin for from one to fifty years yesterday by Judge Wills.

In Mother's Medicine Chest

are standard remedies which have stood the test of time—remedies which their mothers and grandmothers had used before them. Such is Lydia E. Pinkham's Vegetable Compound, which for nearly fifty years has been helping the women of this country to overcome many forms of female ills; merit alone could have stood such a test of time and won such an enviable record.—[Advertisement.

EEDOM STAND WINS SUPPORT.

Voters Welcome Ideas in Workman Circular.

Laud His Pledge Against Blue, Bone-Dry Laws.

Friends Send Appreciative Messages to Candidate.

ction from the Workman-
or campaign headquarters,
Washington Building, of 300,-
ssives announcing Mr. Work-
decisive stand for personal
has been met with great
ome by citizens of Los An-
and has brought a host of
e rallying to his support.
orce of volunteer workers car-
the circulars to every corner
city, going from house to
Many recipients of the com-
ation said to the distributors:
Workman I'm for him,"
this is Boyle Workman's stand
going to vote for him." One
in the West Adams district
the circular handed to him,
a sigh of relief and said:
ot we discover a man who can
and the respect of the most
ble voter."

Today there has arisen
among us an element that would revive long-dead laws and force us to adopt them. Hysterically they beslege us and I propose to meet their attack with the realization in mind that the Statue of Liberty is something more than a lighthouse—that it is the representation of a great and noble idea—personal freedom."

LET'S BE HONEST.

Referring to his stand for the restoration of the use of light wines and beer, Mr. Workman said: "We are facing an extremely humorous situation. Presently the public will be able to secure through druggists and with the aid of a physician's prescription light wines and beer for medicinal purposes. I'm afraid"—there was a twinkle of amusement in Mr. Workman's eyes—"that there will soon be a wave of sickness sweep over the city and men will be hiding their desires under a cloak of hypocrisy. Let's permit men to be honest with themselves and with their associates."

Mr. Workman's circular has brought thousands of votes to his support and his campaign workers have become further imbued with the confidence that their candidate will be elected Mayor at the coming primary.

The wording of the circular, which carries a photograph of Mr. Workman, follows:

ELECT WORKMAN MAYOR

At the primaries, Tuesday, May 3.

Workman stands for:

Personal freedom.

The right of everyone to attend a church, a baseball game or a moving-picture theater any day, any time he or she may so desire.

Repeal of bone-dry prohibition regulations.

Restoration under the law of the use of light wines and beer.

Readjustment of occupational tax.

Workman is opposed to:

Sunday blue law legislation.

The city bone-dry ordinance which comes before the people June 7.

Radical legislation of any kind.

A vote for Boyle Workman for Mayor is a vote for personal liberty.

We ask your support—he is the man for the place.

[Signed]

LEAGUE OF PERSONAL FREEDOM.

JAPANESE BANKRUPT.

K. Kunishige, a Japanese merchant of this city, filed a petition in bankruptcy in the United States District Court yesterday, giving his liabilities as $15,418.96, of which $13,839.96 is unsecured. His assets are listed at $4427.40, and of this amount $3149 is the asserted value of unliquidated claims.

SENSATIONS IN OFFING.

(Continued from First Page.)

pendently of any of the tickets in the field, and says she is much encouraged by the pledges of support she is receiving. She is the mother of Lieut. Harold Greenbaum, who served overseas, and Mrs. Greenbaum has been active in the women's auxiliary of Los Angeles Post No. 8, American Legion.

Club women who are supporting Mayor Snyder for re-election are holding what they have termed "Snyder Day" in the Mayor's campaign today. At 1 p.m. there will be a luncheon in the Alexandria Grill and campaign talks will be made after the luncheon. Among the hostesses are Mmes. David Forbes, Martha Nelson McCan, Wesley Barr, Frederick Hickok, Berthold Baruch, Thomas Broderick, Pasqual Burke, Vernon Goodwin, Paul Ridley, Isidore B. Dockweiler and Andrew Francisco. Those on the program include Francis Heney, F. W. Blanchard, Mrs. Baruch, Mrs. Hester Griffiths Miller, Miss May Allison and Miss Wanda Hawley. At 8 p.m. there will be speakers and Clifford Lott will sing at 345 South Hill street.

BOND PROPOSALS TO BE DISCUSSED TODAY.

EXPECT COUNCIL TO ACT ON RECOMMENDATIONS OF ITS SPECIAL COMMITTEE

At the meeting of the City Council this morning action will be taken on the recommendations of the special bond committee regarding bonds to be placed on the ballot at the election June 7th. The committee held another meeting yesterday and agreed that the recommendations as made Monday afternoon were the best in the interests of the city and will so report to the Council.

A special committee of the Board of Public Service Commissioners will meet with the Council today and discuss the proposed bonds for the water and power department. The proposal as approved by the Council's special committee provides funds of $3,000,000 for extensions and betterments for the water systems and $25,000,000 for power development. There is some question regarding how the water department should receive the money required for the proposed developments and this will be discussed today.

Talking Rabbit, Weeping Turtle in Spring Fest.

An out-of-door pantomime and pageant, based on the stories from "Alice in Wonderland" and "Through the Looking Glass," will be presented by the playground department of Los Angeles at Exposition Park Saturday at 2:30 p. m. The affair will take the form of a spring festival and will include a talking white rabbit, a weeping mock turtle, a glistening green gryphon, a performing frog and black cat, besides the dances of the groups of violets, sweet peas and daisies. Solo dances will be given by Evelyn Thompson as the "Tiger Lily." Later the "Rain Fairies" will dance in the garden. These will be chased away by the "Sunbeams" to be followed by the "Rainbow." Alice, who will be made queen, will be portrayed by Helen Dennis. Seats are free.

WARN MOTORBOAT MEN.

Attention is Called to Safety Laws by Collector Elliott.

With the opening of the spring and summer season the attention of all owners and operators of motorboats in the local district was called yesterday by Customs Collector Elliott to the provisions of the motorboat laws with reference to the safety of these vessels in local waters.

At this season of the year many new boats are put into commission, and hundreds of people go to sea who have not been accustomed to do so. These vessels are subject to inspection at all times.

So far Los Angeles has been free from marine disasters, largely due to the fact that these reasonable laws and regulations have been universally and impartially enforced.

WON BRIDE IN PRISON; IS SEEKING PROBATION

Another chapter was written yesterday in the drama of the life of J. C. Cloud and his wife, who met in San Quentin prison and were married after their release, when Cloud pleaded guilty in Judge Willis's court to a charge of carrying concealed weapons after having been previously convicted of a felony. He was also accused of firing a shot in a local department store when his wife was arrested on a shoplifting charge.

His wife served a term in the City Jail and was released to care for her young son.

Cloud asked for probation and will be given a hearing on May 10.

ROBBED ON STREET CAR.

Pickpockets yesterday afternoon robbed Jacob Hentzen of 232 North Fremont avenue of his purse and $50 and escaped before Mr. Hentzen discovered his loss. He reported to the police that his purse and money were taken while he was riding on a Hooper-avenue street car near Fourth and Main streets.

OBJECTS TO SNYDER ADS ON CURBING.

Violation of Ordinance by Mayor's Workers Charged in Taxpayer's Letter.

Charging that the ordinances of the city are being violated by supporters of Mayor Snyder in posting campaign posters on curbings, telephone poles and other public property, D. D. Kirby of 935 Lincoln street has filed a protest with the City Council.

Mr. Kirby in his letter says: "On Saturday the curb along Sunset Boulevard was literally covered with placards and long, colored signs bearing the words 'Re-elect Mayor Snyder.'

"I have, as a citizen and taxpayer, made several complaints to the Board of Public Works of these flagrant violations of the city ordinances by Snyder workers. I believe that the City Council should take such action as would prevent the further use of public streets for the advertising of any candidate, even if he is the Mayor of Los Angeles. I trust that your honorable body will take such action in this matter as will prevent the Mayor and the Board of Public Works from using our city streets to advertise the candidacy of M. P. Snyder."

President O'Brien of the Board of Public Works denied the charge in Mr. Kirby's letter that the board is permitting Snyder workers to post posters on city property.

"Complaints were made to the board," said Mr. O'Brien, "that candidates' posters had been placed on curbs and poles. I gave orders at once to tear down all of these posters wherever found, whether they advertised the candidacy of Mayor Snyder or anyone else. The city employees in charge of the maintenance of this public property have been given strict orders to have arrested anyone caught posting these campaign banners."

WOMAN ADMITS BOOZE SALES.

U. S. District Judge Bledsoe yesterday sentenced Mrs. C. Palmino to three months in the Orange County Jail on her plea of guilty to the charge of conducting a blind pig at 237 North Avenue 22.

Boyle Workman Lauds Stand of People's League.

Boyle Workman, president of the City Council and candidate for Mayor, sent the following telegram yesterday to Miss Elizabeth Marbury of New York, organizer of the American People's League:

"I wish to congratulate you and other members of the American People's League on the stand you have taken for the restoration of personal freedom in America. I and my supporters are waging here a campaign similar to the one you have started and I am now a candidate for Mayor on this platform.

"We are with you in your stand against Sunday blue-law legislation and we hope to see the day come when light wines and beer will be restored under the law to those who desire them."

CRUELTY IS CHARGED.

Wife, Seeking Separate Maintenance, Says Spouse Hit Her.

Mrs. Mary R. Beatty charges her husband, Arthur R. Beatty, in a suit for separate maintenance filed yesterday, with extreme cruelty. She says he is quarrelsome; treated her with the utmost contempt, disrespect and abuse, called her vile names, had fits of anger, attacked her in her home in the presence of her father and blacked her left eye. She asks an allowance of $50 a week. Mr. Beatty is a live-stock broker. He was married to the plaintiff in Kansas City, Sept. 17, 1903.

Attorney Showers represents Mrs. Beatty.

FIVE THOUSAND FIRE LOSS.

Fire said to have started in the home of F. C. Wood, 3332 Pepper avenue, yesterday afternoon spread to 3336 Pepper avenue, the home of Mrs. Jean Ewen, and then jumped to a residence at 727 Aragon street, occupied by Mrs. J. Heinz. The damage was estimated by the police at about $5000.

217 North El Centro Avenue

This Charming Wilshire Home Is Very Attractively Priced

And so delightfully situated in exclusive Windsor Heights. It's just the sort of home you've dreamed of owning. So characterful, so expressive of that elusive something which we call refinement, its interior so refreshingly different, its decorative appeal so charmingly artistic. Surely you'll agree it is rightly termed a "home of individuality."

And every detail is complete, from the colorful Tiffany-finished living-room to the handsome tiled bath and shower. In fact, many appointments you would expect to find only in a much larger house. In all, there are seven large rooms and basement. A double garage in the rear; with drive, flowers, lawn and shrubbery. It is located in Windsor Heights in an excellent environment. Seldom is such an attractive home offered at such an inviting price. You should waste no time in making an inspection. Drive out today!

W. Dright Hammond AUCTIONEER

ASKS HOME FOR UNBORN BABE.

Liner "Ad" Reveals Unusual Plight of Mother.

Would Divide Flock and Give Away Expected One.

Recipient to Pay Costs of Stork's Next Visit.

Mrs. Cecelia Reinagel, 1905 Sunset Boulevard, 26 years old, already eight times a mother, and still pretty, wishes to give to some one who will care for it and defray the expenses its delivery will entail a babe which she epects to be born the first week in May.

Mrs. Reinagel says she is without funds and has no relatives that can help her.

Her desire to dispose of her expected offspring in this way became known through an advertisement inserted in local papers by Dr. I. Jesse Citron.

At the residence of J. M. Reinagel, Dr. Citron told yesterday how he found in the parlor, the husband and wife and two living children, 2 and 6 years old.

"I am offering one which will be here within a few days," Dr. Citron says Mr. Reinagel told him.

The young wife immediately broke into tears and was unable to speak but finally gave her approval to the plan her husband outlined. That plan was simply to let each take one of the two children and support it, separate permanently, and dispose of the child soon to be born.

"I do not want to give up my child, no mother does," said Mrs. Reinagel, "but what can I do? Not only have no money and must go out and make a living for myself and one child, but I must also undergo an operation for a goiter, caused by the strain of preceding child-births upon me. How, then, can I support another child a mere babe?

"I am young and will be strong as soon as I have been operated upon. I can make a living and will do my best by whichever child is left with me. But to look after one of the children which I already know and love I must give up another child which I do not know."

Mrs. Reinagel was reared in San Antonio, Tex. Her family furnished one member, her father, in the Spanish-American War, and another member, her brother, in the World War. The latter is still in the Army. Her father and mother died when she was quite young and her only relative is the brother who is not in a position to help her to any great extent. The Reinagels came to this city immediately after their marriage in Texas ten years ago. Reinagel is a truck driver.

Anyone interested in complying with the conditions on which she offers the child should get in touch with Dr. Citron, who has taken charge of the case and is seeking a way out of the dilemma it presents.

CASTORIA
For Infants and Children

Hers is Sorry Tale of Mother's Love.

Mrs. Cecelia Reinagel,
With an advertisment that reveals heart-touching plight.

Declare Cider Had Kick Like Missouri Mule.

The high cost of purported sweet cider struck the Federal Building yesterday afternoon when a jury in U. S. District Judge Bledsoe's court found H. Bullard, a dealer in wet goods at 151 South Main street, guilty of selling a pint of cider with an alcoholic content in excess of ½ of 1 per cent.

Bullard sold to E. D. Brown a pint of cider that he said was "sweet," but officers testified that it had the kick of a Missouri mule. The cider was sold for 20 cents. The court fined Bullard $300, and the money was taken out of $1000 worth of Liberty Bonds that the accused had furnished as bail.

TO BE SENT NORTH.

Man Held Here Wanted in Oakland as Attacker of Woman.

Charles H. Tracey, 30 years of age, who was arrested several days ago and charged with having sold a quantity of water and brown sugar for whisky, will be sent to Oakland tomorrow to stand trial for an assault early last March on Mrs. Edna Hardwick of that city.

Yesterday Tracey was recognized by the local police as a man wanted by the Oakland authorities for assault.

The prisoner, according to the information secured from Oakland, attacked Mrs. Hardwick and seriously injured her after he had been put out of a rooming-house owned by Mrs. Hardwick's sister.

It is believed that he attacked Mrs. Hardwick when he mistook her for her sister.

When You Buy a Refrigerator

Look for the Rounded Inside Front Corners

Your refrigerator is the cornerstore of the health, energy and happiness of your family. Without question, it should be the cleanest, sweetest spot in the whole house.

Unfortunately, because of the construction and lining used in many refrigerators, this is often impossible.

LEONARD CLEANABLE REFRIGERATORS

Have Rounded Inside Front Corners

When buying a refrigerator feel inside the door for the rounded inside front corners. Then you know there are no seams, no cracks, no crevices, where food particles, grease or dirt can lodge and menace the health of the family.

Leonard Cleanable Refrigerators Are Sold in Los Angeles Exclusively by Barker Bros.'

Other splendid features of the Leonard Cleanable refrigerators include: ONE-PIECE PORCELAIN food chambers; the device which positively prevents leaking; self-closing, airtight locks and [illegible] heat-resisting walls of insulation.

...stated that he had taken ...pule from this can.

...WITNESSES HEARD.

...of the witnesses heard yester... Dr. Wagner, Prof. Maas, ...Fox and Nolan, Mrs. E. E. Gordon of 2210 West Jefferson street, mother of the dead woman; Mrs. Eliza Webber of Bell, Miss Swartzfager and Mr. and Mrs. Vincent Recher.

Dr. Wagner's testimony relater to his autopsy and the food found in the woman's stomach. Prof. Maas, who was the chemical expert in the famous Gibbons cyanide case, and other nationally-known poison cases, is understood to have gone into details of his analysis, and explained to the grand jury the results of his investigations. Mrs. Webber was called by Smith into the house immediately after he says he discovered the body on the afternoon of March 14. Her story at the time of the inquest was that she found the morning meal on the table in the Smith home when she entered there. She told of calling the undertaker and of Smith's actions at that time. Mr. and Mrs. Recher are friends of Smith. During the investigation Smith was seen in their company. Mrs. Recher said last night that she did not know anything about the facts in the case, but that she had the fullest confidence in Mr. Smith, and so told the grand jury.

The first inkling of mysterious circumstances in the death of Mrs. Smith was published in The Times March 17. The body was found only partly clothed in a chair at the home when E. G. Wheat of the Huntington Park undertaking parlors called there in response to the call from Smith. The body was later removed to the W. A. Brown undertaking rooms in Los Angeles, at the request of the girl's mother. The death certificate did not contain a signature of a physician, none having been present at death. In view of the fact that a life insurance policy was carried by Mrs. Smith, an autopsy was ordered by Deputy Coroner Williams. The chemical examination followed.

March 16 it was learned that poison was found in the woman's body and the next day the Sheriff's office began its investigation. The inquest was held March 18. The Coroner's jury returned a verdict of death by "cyanide poisoning, whether administered by herself or another we are unable to determine."

TAXES STREAM INTO COUNTY.

Nearly Thirty-one Million Received Since October, Collector Reports.

County Tax Collector Welch reported yesterday that there have been collected taxes amounting to $30,943,996.69 from last October to and including last Monday. For the same period in 1919-1920, the amount was $20,955,375.52.

Monday was the biggest collection day in the history of the office, when $891,070.74 was taken in. A large amount which arrived in the mails is still to be counted.

NEAR FIGHT IN COURT.

Hard Words and Looks at Papke Trial in Pasadena.

It looked like more fisticuffs for a moment yesterday at the trial in Pasadena of William (Billy) Papke, the prize fighter, charged with battery of George J. Giguit, socially prominent there. Attending the trial were Mrs. T. H. Purman, Mr. Giguit's sister, and her husband, in an altercation, Attorney Webster for the defense referred to Mr. Purman as "a cowardly cur." Mr. Purman jumped to his feet to protest, but the witnesses and spectators were quieted without anything more dangerous than hard looks. Judge Thompson reprimanded Mr. Webster for his remark, and the case proceeded.

Dep. Dist.-Atty. Turney submitted evidence tending to show Papke assaulted Mr. Giguit March 21 and cut a deep gash over his eye. The jury disagreed.

CELL HAVEN OF HOPELESS GIRL.

Says She Fled from Pasadena After Loveless Union.

Declares Father Forced Her to Marry Russian.

Avers He Owns Ostrich Farm, Ranch Near Crown City.

[EXCLUSIVE DISPATCH.]

CINCINNATI (O.) April 26.—A fashionably dressed girl, who said she was without hope, was in the Covington (Ky.) jail today. Her courage was gone, slowly exhausted in a six months' struggle in various large cities against life's hardships. She hardly cared what happened, she said.

She told a story of wealth and high social standing in a Southern California city, girlish happiness, a forced marriage, a well-to-do Russian and then her present life and loss of hope and courage.

She gave her name as Anerma Conway, 22, formerly of Pasadena. Her father, she said, was a ranch owner near that city, but she refused to seek his aid in her plight.

"My mother has been dead nearly two years," she said. "My father married again near Pasadena. He wanted me to settle down and forced me into a marriage with a Pasadena man of Russian birth whom I did not want to wed.

FLEES FROM HUSBAND.

"The day after the marriage I gathered a few belongings and left for the East. First I stopped at Akron, O., and worked there for a while. I came to Cincinnati and Covington, Ky., after trying to find work at Cleveland and other cities Saturday, looking for better employment.

"My funds were exhausted and I slept on some one's porch Sunday night. Monday night I became dizzy and faint. Then some one, I do not know who, brought me here. The first time in jail and it doesn't feaze me a bit," she concluded. "Go back to Pasadena? Never!"

She shrugged her shoulders and smiled a wan smile.

The girl gave the name of her husband, but explains she goes under her maiden name. She is being held while police attempt to locate her parents and verify her story.

FOUND WANDERING.

Dr. J. M. O'Malley, former Covington health officer, and wife found the girl wandering about Fort Mitchell, Ky., early this morning. A humane society officer at Covington placed her in jail there for safe-keeping.

The woman has two checks for baggage at the Central Union Railroad Depot, and these were recovered by the Covington police. She finally stated that her father also had an ostrich farm and a cattle and sheep ranch. The fact that the woman wears costly clothes and diamonds nonplussed the police. The Pasadena authorities will be asked for an investigation.

The girl refuses to give her married name.

The police are also trying to secure data from Dayton, Columbus, Cleveland and Akron, where letters found in her baggage indicate she has stopped since coming East.

RUNAWAYS ARE HOME.

Six High School Boys and Girl Face Parental Wrath.

The six high school students who ran away in a stolen automobile last week to Sacramento, where they the arrival of their parents, arrived at their homes here yesterday, and are now anxiously awaiting the next move of their mothers and fathers.

The runaway students are three girls and three boys—Cleo Innes, Ruth Hill and Lucille Berry, and Manuel Maserarne, Mason Calvert and John Cable. The girls were brought back by two of the fathers, Harry G. Hill and S. O. Berry. John Cable returned with his mother, Mrs. Herbert A. Cable, Deputy State Labor Commissioner, and the other two in the stolen automobile.

Those of the parents that could be reached last night expressed their happiness at the six family reunions, but said they were unable to tell whether the matter would be dropped by all the families.

CONTINUE CASE AGAINST GIRL.

Because of the failure of Claude Alexandre to appear in Justice Follette's court yesterday, hearing of the charge of grand larceny against Gladys Dewey was continued until tomorrow. In the meantime Dep. Dist.-Atty. Hill will make efforts to have Alexandre appear in court. He charged that the young woman stole $50 in cash and a $250 diamond ring from him. She says the money and ring were given to her.

CONSIDER "KIDNAPER" CASE

A decision upon the request of the State of North Carolina for the extradition from California of Mrs. Marian A. Barrett and Ashfield Stow, charged with having kidnaped from Asheville, N. C., Mrs. Barrett's 12-year-old son, William, whose custody had been awarded the father, Dr. Frederick Barrett of New York, by the New York Supreme Court, was taken under advisement by Gov. Stephens yesterday, according to word reaching Los Angeles last night.

The charge of kidnaping and the effort to take the child's mother and her attorney to North Carolina for trial come as the climax to a series of escapades involving at least half a dozen "stealings" of the boy, first by one parent and then the other, and having ramifications into Arizona, New Mexico, New York, Nevada, California and China.

The most recent "kidnaping" of the boy was in March in Asheville, N. C., when he is supposed to have been brought to California by his mother. Previous to that he had been "stolen" from the Hollywood Hotel, traced by a band of detectives and "recovered," "stolen" again and taken East.

The struggle over the custody of the child covers a period of almost three years and has been conducted along melodramatic lines throughout.

Counsel for Mrs. Barrett and Ashfield Stow, a San Francisco lawyer, jointly charged with Mrs. Barrett, contended yesterday that the custody of the boy never has been determined in North Carolina, Stow, he contended, merely acted for Mrs. Barrett.

The case grew out of the taking of the boy from Asheville, N. C., by his mother and Stow, her attorney, last February. The boy had been given into his father's custody by the Supreme Court of New York and was in Asheville in his father's custody.

Competency of the right of the State of North Carolina to act for the father in carrying out a New York court decree was at issue in the hearing for extradition.

CONCRETE PIPE TEST.

Demonstrations for Irrigation Use Set for Next Month.

Announcement was made yesterday by the agricultural extension service headquarters to the effect that the office of the farm advisor has arranged for a series of field meetings on the testing of concrete irrigation pipe running from next Monday to Monday, May 9, inclusive. These demonstrations are to be held in co-operation with the field department of the Southern California Concrete Pipe Manufacturers' Association.

The object of these demonstrations will be to emphasize the importance of the proper materials and proper methods being used in manufacturing concrete pipe, together with a demonstration of what good pipe is, and the difference between good pipe and poor pipe. The schedule for these demonstrations is as follows:

Monday, May 2, 2 p.m., Downey, place of Hansen Brothers; Tuesday, May 3, 2 p.m., Alhambra, place of W. R. Schoonover, 1118 South Garfield avenue; Wednesday, May 4, 10 a.m., Van Nuys, place of Valley Concrete Pipe Company, and 2 p.m. at Chatsworth, place of Wilkens Brothers; Thursday, May 5, 2 p.m., San Fernando, place of Flower and Myers; Friday, May 6, 2 p.m., Whittier, place of Fager, Collins & Laun; Monday, May 9, 2 p.m., San Dimas place of Brubaker Brothers.

MAIL FRAUD SUSPECTS WAIVE EXAMINATIONS.

Harry D. Hitchcock and his wife, Amy V. Hitchcock of Arcadia, under indictment in the Federal court of the District of Columbia at Washington, charged with using the mails in a scheme to defraud, waived examination under removal proceedings before U. S. Commissioner Long yesterday. They are under bond of $1500 for their appearance for trial next January. The Hitchcocks formerly conducted a number of news bureaus and magazines at various points in the East.

An Encore Sale of Fashionable Blouses at 4.75

So Spirited Was the Response in a Similar Event Recently Arranged that Plans Were Immediately Laid for Another as Great in Economy Appeal

With everyone eagerly searching for really stunning blouses to wear with suits and sweaters, it is not at all surprising that such a price as this should meet with instant and enthusiastic approval.

Especially when Hamburger's was so fortunate in securing distinctly high quality models at a price concession sufficient to allow for a sale price such as this.

Style Choice Covering Every Overblouse and Tuck-In Fashion

If it is long sleeves and be-collared models that you want, come to the sale today—and if it is short sleeves and no collar that appeals, there is quite as great a diversity of styles to interest you.

Every conceivable whim of Fashion has found expression in the group — sizes for women and misses.

In a Quality So Rich As to Be an Utter Surprise at the Sale Price

And colors that are best for wear with sports togs—flesh and white for the more tailored occasions and plenty of the suit shades to complete the cycle of choice.

What a pity that the sketch can tell of but two of the many, many styles in the group.

Hamburger's Announces Silk-Lined, Tailored

"SKIBO TWEEDS"

The New Sports Suits for Women and Misses

35.00

Sports suits that bid fair to outrival anything so far presented in the very interesting and widely diversified family of utility suits which now come to us under the persuasive term of "Sports Suits."

"Tweeds"—but tweeds of a new sort—tweeds that look thoroughbred and Scotch—tweeds that have body enough to tailor well, and at the same time are light enough to lend themselves to all-summer wear!

"Colors"—such as one is tempted to call "luscious," knowing all the time that colors can never be truly "luscious," but feeling that the deep rose tints, the fresh blues, the soft tans and the dull grays are really different enough to have a new and different name!

"Tailoring"—well, it must be that the fabric tempted the tailors to do their best and inspired them to create suits a little more swagger, a little smarter, more tantalizingly "swank" than we have had before.

See them today—just to be informed as to the "new and correct" if you should happen to be of the fortunate few who have all the suits they can use!

Did you notice the little left-sleeve pocket on one of the suits sketched?

(Hamburger's—Second Floor—Today)

In Celebration of Corset Week

Royal Regent Corsets, 2.95

A really surprising group of models in pink coutil and brocade, several styles included, making it possible for many types of figure to be properly fitted at this saving.

The Royal Regent is fast growing in popularity—because it proves that women's figures may be moulded to give graceful lines and at the same time affords perfect comfort.

(Hamburger's—Second Floor—Today)

Millinery That Proves Modes May Be Charming and Yet Moderately Priced

7.50

A Price That Is Winning for Hamburger's Noted Millinery Department an Enviable Name.

Of course every woman has planned a host of dainty frocks for spring and summer—but what of the hats to complete the costume?

Hamburger's 7.50 sale is a happy and economical solution. There are large, droopy hats, narrow brim hats, beautifully flower and fruit trimmed. Soft silk crowns, ribbons all in the gay, bright shades of the new season.

(Hamburger's—Second Floor—Today)

BABY DAY

Wednesday Might Well Be Called "Layette Day" —So Enticing Are the Values Presented

34-Piece Layette, Special, 23.70

Just everything that any fond mother could ask for baby—and so interestingly priced and conveniently grouped as to offer a very practical solution to the layette question.

There are 3 silk and wool shirts, 3 knitted binders, 3 gowns, 3 flannelette pinning blankets, 6 skirts, 3 morning slips, 3 pairs cashmere hose, 12 diapers and 1 blanket.

34-Piece Layette, Special, 36.10

A bit more comprehensive is this layette—and presenting the same opportunity for economy as the other.

Here we find 3 silk and wool shirts, 3 binders, 3 knitted gowns, 3 morning slips, 1 better dress, 2 flannel skirts, 2 nainsook skirts, 3 crocheted bootees, 1 knitted sacque, 12 diapers, 1 blanket.

Infants' New Handmade Dresses Are Only 1.50

That is, they are 1.50 for Baby Day. And lovelier little dresses no mother ever saw at such a price. Every stitch is made by hand—the finishing touches being handwork and finest little edges of lace. Really they are beautiful for 1.50.

Fine Silk and Wool Double Breasted Vests, 1.15

An absolute necessity in every layette—and at this price a rare economy.

Arnold Knit Gowns Featured at 1.20

Mothers know this kind, made with draw string at the bottom to keep little feet nice and warm. Infants' size.

This addition to a department already carrying the McCall and Butterick patterns offers the women of Southern California an unlimited choice of fashionable patterns.

Pictorial Review patterns—now among the most popular patterns made—offer choice in every phase of garment making. If you do not already know them, it will be worth your while to investigate them in the spacious Main Floor department at Hamburger's—which is, by the way, a very delightful place to decide upon the style of new season costumes.

The Summer Style Book
The Embroidery Catalog
The Knitting Booklet
Are All Ready—and Here!

An assortment so complete as to cover every possible demand in needlecraft.

Two Expert Dressmakers to Assist You

This is another phase of service in the pattern department at Hamburger's. They are designers of long experience, and hundreds of women weekly ask their advice in planning costumes.

Stunning! The New Mohair

Bathing Costumes, 7.5

They give every appearance of silk. Smart little touches of wool embroidery trim them and all are fashioned after the most popular bathing dress style. Included are surf satin bathing suits at the same price—7.5 All are wonderful values.

Also knitted bathing suits, athletic style, at 4.95.

Terry Cloth Beach Capes at 10.00

"Quite the thing"—as Fashion puts it—and surely included in the list of beach essentials. To protect one from sun, wind—or just for style's sake—we recommend them. Stunning colors—each model a wonderful value at 10.00.
